

[Prelude to Act I, from *Lohengrin* by Richard Wagner played during following invocation.]

### **INVOCATION:**

In the name of the light of God that never fails, O thou living Word, descend into our hearts. Thy living flame does ignite in us the divine spark and a cosmos all inside. Thy living flame does ignite the New Age of Aquarius.

O God, unite us, as we seek to embody thy Law and thy truth. Holy Spirit, enlighten us. Realign us with our innermost being and mission on planet earth.

O Seven Archangels who come forth to initiate our seven chakras, hear our call in this hour. Come, Archangel Michael, Jophiel, Chamuel, Gabriel, Raphael, Uriel, Zadkiel. In the name of the Divine Mother, Mary, we summon you to this city. Let tiers of angels form rings of light for the rescue of all who are thy beloved.

Let this city now receive the divine light of purging, of quickening, of transmutation of planetary karma. O angels of the violet flame of Aquarius, we summon you, and by the cosmic cross of white fire we stand, O God, and still stand thy vessels on earth waiting thy call.

In the name I AM THAT I AM, Amen.

Good evening, everyone. ["Good evening"]

I am so very happy to be here in San Diego with you, very happy to be in this place and very much in the joy of our sharing together the new vibration of Aquarius.

You have heard me call in this moment to the Seven Archangels who are your very personal and dearest friends, our teachers. I would like you to invoke them in the true science of the call that we have given to us in this New Age as we take the Mantra booklet and turn to page 12, "To the Seven Archangels." We'll remain standing and give this call to them [laughter] as we ask them to come and place their presence around us.

This is a call and an invocation that you make by the divine spark within you. It's actually a very sacred ritual. Since God has appointed his emissaries and angels to serve his sons and daughters on earth he has told them that the call compels the answer, that therefore, when his

children call they must come.

So this is not even a question or a question of belief; it's a question of the science that the angels appear instantaneously when we invoke them. Please enjoy their vibration now. [song 282 (Mantra booklet #46):]

Michael, Michael, Michael  
 Prince of the archangels  
 From the grateful hearts of all  
     Do songs of praise arise.  
 For thy heavenly presence  
     All on earth adore thee  
 God from the Sun  
     In all the name implies.

Michael, Michael, Michael  
     May the guardian angels  
 From thy heavenly legions  
     Stand forth to set all free.  
 Purify, illumine  
     Manifest the glory  
 Of light's perfection  
     That each one may be.

Jophiel and Chamuel  
     Gabriel and Raphael  
 Uriel and Zadkiel  
     And mighty hosts of light.  
 Cherubim and seraphim  
     From the realms of glory  
 Rend now the veil  
     That dims our human sight.

Blessed seven archangels  
     For illumination  
 We invoke thy presence  
     In hymns of praise to thee.  
 Keep us consecrated  
     To God's plan fulfilling  
 In purity  
     Thy ministers to be.

Thank you, won't you be seated. We take now number 43 on this same page 12. And this is a call that summons the Archangel Michael, who is the angel of protection and liberation and the angel who comes to announce the star of your destiny, your divine plan and mission in this life.

Whether it is meditation or yoga or prayer or supplication, whatever

is the form of your religious path, whether it is from the age of Pisces, the age of Aries or the age of Aquarius, it is Archangel Michael who seals and protects the light that you invoke and the soul that desires to commune with Higher Consciousness. And so, before beginning that going within we call to Archangel Michael. We visualize him and we accept him before us, behind, to the right, to the left, above, below, wherever we go. This is a powerful mantra. It's a mantra of the New Age and of the ancient days of Lemuria and Atlantis.

Let us begin our evening, then, by sending our love to him and calling him. Number 43. [decree 6.05 (Mantra booklet #43):]

**Lord Michael before, Lord Michael behind,  
Lord Michael to the right, Lord Michael to the left,  
Lord Michael above, Lord Michael below,  
Lord Michael, Lord Michael wherever I go!**

**I AM his Love protecting here!**

**I AM his Love protecting here!**

**I AM his Love protecting here! (given 3x)**

Archangel Michael is one of your best friends, and I am very happy to reacquaint you with him if you have forgotten that wonderful fact about your relationship to the heavenly hosts.

When we enter the New Age we are entering a new vibration. A New Age raises us to a Higher Consciousness because ages are dispensations of light from the Great Central Sun. Ages reveal to us a new perception of ourselves against the backdrop of a new revelation about God. And the God that is revealed to us in Aquarius is the God of freedom. The God who is revealed to us is that flaming presence of the Holy Spirit, that God t, that is revealed to us is the inner flame within.

So I would like to talk to you about this New Age and about ages in general.

**The term New Age is related to a phenomenon in astrology and astronomy that is known as the "precession of the equinoxes," the "precession of the equinoxes"--the backward rotation of the Earth on the polar axis whereby the point of the equinox passes through the twelve signs of the zodiac in a period of 28,500 years. That means in one sign it takes about 2,150 years for us to pass through.**

Ages are really not new. There was a New Age **2,000** years before the birth of Jesus Christ. It was **the Age of Aries**. And under that sign of Aries, which is actually the sign of the sun itself, a great revelation

of God was given to us. Then came **the Age of Pisces** and the great revelation through the incarnation of God, Jesus Christ.

Today again a new revelation, a new vibration. We are at the end of Pisces and the beginning of **Aquarius**. They overlap. So the signs of our time is that we are experiencing the last days of Pisces, the end times of Pisces, and at the very same time the new vibration of opportunity of Aquarius.

So herein lies our perception of both our karma and what is coming in the future as opportunity. What we need to realize is that the age of **Aquarius** under the sign of Aquarius is the sign of a great **freedom**, the flame of freedom. And there is one who embodies that flame of freedom and that awareness of God as freedom, and his name is Saint Germain.

The beloved Ascended Master Saint Germain is the second friend that is a very dear heart, dear to your ou, dear to your own. Saint Germain has walked the earth in many lifetimes and we know him through those embodiments. We have known him, all of us have known him at least in one of those lifetimes.

Every lifetime he has lived he has been putting on and internalizing the light of freedom--freedom in science, in alchemy, in prophecy, freedom in government. His final incarnation was that of Francis Bacon, the greatest mind the West ever produced. Not too many people know this and some who have heard it don't accept it but he was the true author of the Shakespearean plays. He was a great scientific mind and he envisioned a Great Instauration for the renewal in the New World. He envisioned the coming of this New Age and America as the land of the New Age who would pioneer it.

But that isn't where he started with America. Saint Germain was already calling our souls to that New Age when he was embodied as Christopher Columbus. He came on a spiritual quest. He was looking to discover the Promised Land where it had been said that the lost tribes would gather again, they would reincarnate here, and when they gathered they would raise up an ensign to all the people of the world. An ensign is a sign.

What is the contribution, then, that we the people of this nation gathered from all of the nations of the earth are intended to give back to those nations of our he, heritage? It is the sign of a spiritual freedom and out of a spiritual freedom knowledge in the experiment of

government.

The Ascended Master Saint Germain was there in Independence Hall when the Declaration of Independence was signed. The story goes that there was a hesitation and a delay, that he suddenly appeared in the room and gave an impassioned speech which has been preserved. And the final words of that speech were, "Sign that document!"

And the independence that he saw in that signing was the independence from tyranny and dictatorship of all outer forces outside of our soul's union within with the divine spark and the inner presence, to be a free people not subject to the tyranny of Church or State. He inspired our Constitution, our flag and anointed our first president, initiating him as he knelt before his augner, inauguration.

Saint Germain is the living spirit of freedom in our nation. When we say we love America and we love the way it feels here and there's no place on earth like America, especially when we've traveled everywhere else as I have, it's the spirit of his flame, because Saint Germain as an Ascended Master determined to sponsor our nation and in sponsoring our nation he sponsored every single one of us to take embodiment here.

He lived as Saint Joseph, the husband of Mary, father of Jesus; as the prophet Samuel in the Old Testament. He's that most beloved and curious figure Merlin who appears in the story of the court of Arthur and of Camelot, which archaeology and literary research has established was a very real place.

Merlin, then, the ever-present Merlin who wrote down his prophecies that were well read in the early centuries and then banned by the Church, returns once again to call souls who were embodied with him in a golden age that took place on the Sahara Desert, where that Sahara Desert now is, in a very fertile valley, fifty thousand years ago.

He has said that many Americans were there and the recollection of him as that emperor, that priest-king, that philosopher, that one who set the example for self-government by the inner light within, that remembrance has brought us together in the age that belongs to Saint Germain. That is his flame that he has sparked.

In this tremendous moment as we stand on the threshold of that age we also see that there is prophesied war, rumors of war, problems in the economy, plague, mass starvation. We see manipulations of the ecology, the ecosystem. We see so many burdens, burdens that are either too hard

to bear or impossible to bear because nobody has the key to their solution.

This evening, I am going to present to you a spiritual teaching that is basic to your self-knowledge, that has come out of the ages of Aries and Pisces and Aquarius. And this teaching regarding yourself is a universal teaching, a universal religion, if you will. It extracts the heart of truth, the penetrating mysticism that was discovered by all of the great revolutionaries of East and West.

The restoration of our divine inheritance, the legacy of these ages, is what today restores us to that inner divinity and empowers us and enables us once again to walk neath our God and to contribute to the mainstream of everyday life the light, in fact a mighty River of Life, as it becomes the moving together of the rivulets of consciousness of all of us.

Today, then, we stand on a threshold of immense opportunity. We live in a period of unique astrological configurations that portend tremendous events, astrological configurations that were there when Jesus Christ was born, when great innovations were made, and at the same time the most difficult soul testing and initiation. And that is because the whole world, with those of us who first sensed the light, has to be stepped up into the new wavelength of this divine revelation.

So, I would like to begin at the beginning and tell you about the three levels of your inner divinity that we see on this Chart. I would like to tell you that the freedom that we embody is the very means whereby there can be a golden age of Aquarius.

I am hoping that there will be seats for those of you who are standing. Can you tell me if that's happening?

**Student:** We're working on getting more chairs [inaudible] slow.

**Elizabeth Clare Prophet:** I am very sorry that it's slow in getting chairs. If you can't see the slides from there you're also welcome to move to where you can see them. And I don't mind if you are sitting right in front here. Anybody wants to sit on the floor in front is most welcome to.

I submit to you this evening that the dispensations of light and of God's attempt to restore to us the inner light in the past 4,000 years have been misconstrued or denied by orthodox religion East and West. And I submit to you, then, by the heart and sponsorship of Saint Germain, of Jesus Christ and all the Ascended Masters and Archangels that God himself

is determined in this hour to return to each and every one of us the full empowerment of our divine reality. And if we take that and understand its science and run with it, we will see how immediately we can change the course not only of our lives but of our entire planet.

So I must begin at the beginning, and the beginning is the upper figure in this Chart. This Chart of the three bodies of man also represents the revelations of God in these three ages we're speaking of. It's very interesting that these three bodies of incarnation are actually taught in Buddhism as well.

We look at the upper figure in the Chart and it represents that pulsating divine reality of absolute perfection, the Divine Monad that is called the I AM Presence, the Father figure, the Lawgiver.

The revelation of one God as opposed to many gods came through Ikhnoton the pharaoh of Egypt, thirty-three centuries ago. He brought to us an awareness of God as the sun, Aton. He drew the rays coming from the sun ending in hands, signifying that there is one God but many manifestations in form and that we are extensions of that One.

Moses identified the one God when he saw a **bush that burned but was not consumed**. And that is the beginning of the mystery of the divine fire that is burning in your breast in this very moment. It is the bush that burned but was not consumed and the reality is that we are that bush. We are that physical vessel. The vessel may be temporal and transient but there is a spiritual fire that burns in it that does not quench it, and that lives on after the bush has out, outlived its usefulness.

It was the angel of the Lord who spoke to Moses out of the burning bush and it was Archangel Michael. He came to announce to him his mission in that life, and his mission was to liberate the children of God out from under the tyranny of the Egyptian taskmasters. And so God tells him in the person of the Archangel, "Go into Egypt and set my people free. Go in and tell them that I will deliver them through you."

Moses is mortified. He says, "They will never believe me. They will mock me. Who are you? Whom shall I say to them sent, that sent me unto them? What is thy name?"

Moses wants to know the name of God because he knows that it is the key to the identity of God and the key to his power. So God says to Moses, "**I AM THAT I AM**, tell them that **I AM hath sent** you unto them. **This is my name for ever, and my memorial to all generations.**"

Whether we realize it or not, this was the most exciting moment in the age of Aries, because in that moment God restored to us a lost divinity. That was the moment when once again we could call on the name of God as a state of being, the state of our own being.

And what is the meaning of *I AM THAT I AM*? It means "I am here below that which I AM above, I am in manifestation the living God Flame as I am that I AM Presence above." Hermes Trismegistus and the early Christian Gnostics knew this eternal truth.

What was revealed to Moses is, one, this is God's name forever that he has given to each and every one of us. The sacred name of God is an empowerment. And secondly, it is a memorial. God gave us the image of himself, the divine image, so that we would have a, the memory of his presence as we journeyed through these dense spheres of illusions on our mission to reunite with our twin flame, to fulfill our mission together, balance karma and transcend the lower octaves returning to higher spheres and golden ages we once knew.

God saw us in the plight of having forgotten where we came from, who we were, how we began in the beginning, so he sent us a memory of himself, a memorial. He sent to each one of us his I AM Presence, his being and consciousness.

Surrounding that I AM Presence are seven concentric spheres of light, and those are the colors of the rainbow in pastel. And those spheres of light denote seven planes of heaven, seven planes of God's consciousness. And if you look at the cover of the Mantra booklet in your hand you will see seven chakras, spiritual centers on the body, and those spiritual centers correspond to the those seven rings of light. That's very important to understand.

We'll take a look at the chakra man right now in the violet flame. The fact of the matter is that you have here below seven spiritual centers; you have in your being seven ways to experience God every moment of every day. Those spiritual centers are in the counterpart body to the physical, which is called the etheric body or the etheric sheath, and they distribute the light of your I AM Presence through the nerve centers and through the central nervous system into the glandular systems, ultimately into the organs and into the bloodstream.

So those seven chakras tell us that there are seven wavelengths or vibrations that we can experience. These are so important and so profound

that each one of those new ages, each one of those 2,000-year periods is an opportunity to develop and master just one of those planes of heaven in one of these chakras here below.

Now, going back to the Chart of your Divine Self, what we see in this revelation is the one God is revealed. **Hear, O Israel: The LORD our God is one LORD.** Yet, this Infinite One multiplied one times one times one, over and over again, always remains one. And that is the mystery of God's incarnation, the mystery of his Word, and it is an application of the Law of the One. And the Law of the One we'll be talking about again and again this evening because it applies to many facets of our path in the New Age.

What this means is exactly what Jesus said to Mary Magdalene when he rose from that tomb. He said, "**Touch me not; for I am not yet ascended** to your God and my God, to your Father and my Father."

What the revelation to Moses gave us is our self-awareness in an individualized presence of God that has always been with us, that is above us as our pulsating divine reality. That I AM Presence above you now extends to your heart a crystal cord noted by Ecclesiastes as the silver cord. You can see it on the Chart as it descends from the heart of that Father person to the lower figure in the Chart, and that lower figure represents yourself.

Over that crystal cord is flowing perpetually throughout your physical life on earth the energy of God that is like the River of Life. It is a crystal-clear stream coming in through the top of the head, igniting the divine spark in your heart and feeding that inner light and that inner flame.

This means that you have a tie just like an umbilical cord to the heart of your I AM Presence who may be at this very moment sixteen feet above you as that same pulsing reality. Each and every one of us in this room has that divine higher being.

The name in Hebrew is YOD HE VAU HE. Somehow it got interpreted that this name wasn't God's name forever and to all generations, but it was reserved only for the priests. The people should not be given the name, they should not be allowed to recite the name because it is too holy. It is too holy to recite. So throughout the Old Testament the only time we read that name is in the moment it was revealed to Moses. Ever thereafter, you see written the word *LORD*, L with *O R D* capitalized.

So, we've lost the message that God is affirming his being through us every hour and every moment. And when we take the word *I AM* and affirm it, whatever we follow that word with becomes a reality in our world. If we make positive statements, "I AM the full perfection of my health now made manifest," it is our I AM Presence that fulfills that in us. But if we say, "I am poor and sick and tired" the light that is crystal clear flowing through us will also obey that command.

So when we say, "I AM," we are dealing with the ultimate power of God. And when we know it and apply it each time we use it in a prayer or a mantra, we are increasing the light here below, as Above. The light is descending in those seven chakras and we are being filled with the light that is our own native reality and Real Self.

Now, let's take an affirmation of that I AM Presence in this very Mantra booklet. On page 6 you see number 24.

It is called "I AM Light," but you see the "I AM" is all caps because those capital letters signify that you know that's the name of God. So when you say "I AM Light" you are saying "God is in me, God is where I AM and that God is light! here in my physical atoms, cells, chakras, organs, mind and consciousness. The All-power of God is where I AM."

The reason this becomes the reality now is you are exercising the chakra at the throat which you see on the cover of this booklet as the blue power center. Now, there are a lot of books around that color the chakras all different colors, but these are the colors of your chakras in the purified state of your Higher Self. And the power center is the center of speech. And by the power of the spoken Word God gave to us what he did not give to any of the species--the power to create. And so being co-creators with God, because we are his issue and we are his sons, when we speak and when we affirm it aloud then that power of the very sound itself coalesces the creation in our worlds.

I'd like us to try this decree, number 24, together. Think of it, all together, all of us invoking the same light at the same time with the multiplication factor of our own heart flame. Together. [decree 7.10A (Mantra booklet #24):]

**I AM Light, glowing Light,  
Radiating Light, intensified Light.  
God consumes my darkness,  
Transmuting it into Light.**

**This day I AM a focus of the Central Sun.**

Flowing through me is a crystal river,  
 A living fountain of Light  
 That can never be qualified  
 By human thought and feeling.  
 I AM an outpost of the Divine.  
 Such darkness as has used me is swallowed up  
 By the mighty river of Light which I AM.

I AM, I AM, I AM Light;  
 I live, I live, I live in Light.  
 I AM Light's fullest dimension;  
 I AM Light's purest intention.  
 I AM Light, Light, Light  
 Flooding the world everywhere I move,  
 Blessing, strengthening, and conveying  
 The purpose of the kingdom of heaven.

Try the next page, number 26. Here are the I AM affirmations of Jesus the Christ that he gave to the inner circle of disciples. Remember he gave parables to the multitudes but inner teachings to the initiates who were with him. So, he taught the mystery of the divine incarnation, the mystery of each one's divinity, and these are those affirmations. Let's give them together. [decree 60.01 (Mantra booklet #26):]

I AM THAT I AM

I AM the Open Door which no man can shut

I AM the Light which lighteth every man  
 that cometh into the world

I AM the Way

I AM the Truth

I AM the Life

I AM the Resurrection

I AM the Ascension in the Light

I AM the fulfillment of all my needs and requirements  
 of the hour

I AM abundant Supply poured out upon all Life

I AM perfect Sight and Hearing

I AM the manifest Perfection of being

I AM the illimitable Light of God  
 made manifest everywhere

I AM the Light of the Holy of Holies

**I AM a son of God**

**I AM the Light in the holy mountain of God**

Very powerful isn't it? One more and then I'll give you the next level of this teaching. Page 5, number 19. This one is written by Saint Germain, "I AM the Light of the Heart." This is the amplification of the divine spark within you, which I'll put on the screen right now.

Your divine spark, as the early Christians were taught by Jesus, as the disciples were taught, is the seed of divinity and contains in it the very nature of God. This threefold flame is your divine spark, it exists in you right now in a place that is called the secret chamber of the heart. It is one-sixteenth of an inch in height. And as you begin to adore God through that flame and invoke the light, that flame increases. It can grow and become a quarter of an inch.

Do you know what would happen to you if your threefold flame doubled in size? The increase of Christ consciousness would be tremendous. You would have twice the power, the intelligence, the divine awareness, the embodiment of the mind of God. It is by this spark of divinity that you have all that you have now and it's a lot.

The blue flame is the power of the I AM Presence of the Father. It is the Law, it is the strength and it is the will of God. It is the inner blueprint of our inner pattern. The yellow flame is the sign of wisdom, of the Son, the Universal Christ, understanding, intelligence, the intelling mind of God that enables us to think, to cogitate, to remember and to create. The third is the flame of divine love, of compassion and comfort and great intensity of the Holy Spirit.

So, this is a divine spark that embodies the Trinity of God. Isn't that exciting that that potential of God is in our hearts? And when in balance that flame represents our Christhood. In fact, it's called the Holy Christ Flame.

Now, we are going to affirm that flame as the light of the heart in this decree number 19 on page 5. Together. [decree 0.07A (Mantra booklet #19):]

**I AM the Light of the Heart  
Shining in the darkness of being  
And changing all into the golden treasury  
Of the Mind of Christ.**

**I AM projecting my Love  
Out into the world**

**To erase all errors  
 And to break down all barriers.  
 I AM the power of infinite Love,  
 Amplifying itself  
 Until it is victorious,  
 World without end!**

Let's take it two more times.

\*[Decree 0.07A (Mantra booklet #19), "I AM the Light of the Heart," given 2x, led by Messenger.]

Let us now return to the image of the Chart and take up the middle figure in the Chart, which is the sign of Pisces and the sign of the teachings of Jesus Christ which today are truly lost teachings because they are not being disseminated through the avenues of the churches of the West. I think that's probably why I am here and why you are here. There is no room in the churches for me to give this message and so I have found room in the Masonic Temple.

Saint Germain is responsible for having founded the Masons long ago. Usually I am welcomed in the hotels of the nation and I am glad that there is room in the inn for all of us to gather to give birth not only to the Universal Christ but this universal age of Aquarius.

I have felt called to bring those true teachings of Jesus to the world since a very small child. My first recollection of a past life took place when I was four, playing in the sand in my sandbox that my father had made for me in a little play yard all fenced in with white picket fence, and all of a sudden I was transported and I was playing in the sand on the banks of the Nile River. I was a child of the same age and I was doing the exact same thing, I was playing with the sand and the river was going by. I knew it was the Nile, and I don't know how I knew it.

But after being there for some minutes I was taken by what an extraordinary event was happening to me and somewhat frightened. So I ran to find my mother and I said, "Mother, this is what's happened to me. What is it?"

And she said, "You have remembered a past life."

Now, that was an amazing thing for a mother to do, not to deny that memory and snuff it out. But my mother had grown up in Switzerland during the First World War. Soldiers were quartered in the homes, and the soldier that stayed in their house had the book of *The Secret Doctrine* of Theosophy. Quite an amazing event for a small town in Switzerland.

And so my mother would sneak in and read that book. And she decided that the teaching on reincarnation was the most logical conclusion to the injustices and inequities of life, that there was no other explanation to children born limited or maimed or harmed and others born into wealth and genius or to the other unequalities that we all experience in life.

By that experience, then, to me having lived before was a fact of life and I didn't need to think of it again. I wasn't preoccupied with it, it was simply a given. I always had a sense that th, the "I" that was thinking inside of me was a continuity of being, it had nothing to do with starting when this body began and it wouldn't end when this body ended.

Well, you know, Jesus taught reincarnation. I was saying this to someone a few days ago who is a devout student of the Bible. But this isn't brought out from the pulpits either.

It's a very a special moment when this, the disciples have been on the Mount of Transfiguration with Jesus. They see him transfigured. His garment is glistening white and they observe him. He is talking to two Ascended Masters--Moses and Elijah. He is speaking with them as naturally as we are speaking together, in that exalted state.

So when this experience is over and Jesus is infused with that light (the transfiguration is en, an initiation that you are called also to experience on the path of individual discipleship unto the realization of that Higher Consciousness or Higher Self who is Christ), they're walking down the mountain and the disciples curiously ask Jesus, "Well, what about the Old Testament prophecy which says before the coming of the Messiah, of the Son of God, before your coming, Lord, **Elijah must first come?** Where is Elijah?"

And then Jesus says to them, "He has already come and they have done to him what they would and so will they also do to me," the Son of man. **Then the disciples knew that he spake to them of John the Baptist.**

John the Baptist had come. He was the forerunner of Jesus of whom Jesus said there was no greater born of woman. He had gone before him to proclaim his coming. He was fiery, a fiery prophet. And he challenged Herod for his unholy alliance with his brother's wife, and Herod had an unmitigated wrath and vengeance for John the Baptist. So he told his daughter Salome, who danced, whatever she wanted she could have. And she in her wickedness said to her father, "Bring me the head of John the

Baptist." If you can imagine such ungodliness. And the head of John the Baptist was brought in on a platter into that feast. He had been imprisoned. And Jesus wept profoundly upon the death of John the Baptist.

So that is what he was talking about. They had done to that great light, no greater born of woman, what they would. And they would do it also to Jesus.

Now, this was spoken quite naturally in conversation. It wasn't a new teaching on reincarnation, it wasn't anything they didn't understand. All he had to say was John the Baptist was Elijah come again. He has come.

Reincarnation was the ongoing awareness of Jesus' teaching to his disciples. It was a given. I know this not only because it is in that scripture in Matthew 17 (you can read it for yourself), but because as I became older--first of all not having found Jesus' teaching in all the churches in our home town, studying the scriptures, calling to Jesus, asking him questions and he answering me in my heart and speaking to me and unveiling to me the mysteries of life all my childhood and teenage years. But it wasn't until I met Mark Prophet, about the age of twenty-two when I was a student at Boston University, that I had quickened in me the memory of my experience with Jesus and Jesus opened my eyes that I could see that I had been his disciple Martha at the time he was on earth.

Martha was the sister of Mary and of Lazarus whom he raised from the dead. Not only did he quicken in me the memory that I had studied with him, I had cooked, I had kept that home where he visited and went for retreat in Bethany, but he quickened the memory of the teachings that he gave to the disciples and the inner circle of initiates.

So the writing down of this teaching is a tremendous calling in my soul. It is a fire that literally burns with a physical sensation in my heart. I am on fire to restore to each and every one whom I meet the lost teachings of Jesus that have not been told in two thousand years because the church fathers who put together the canon in 367 decided to leave out the gospels that were inconsistent with their brand of orthodoxy and established religion and getting to God by means of the priest or the pope or a hierarchy based upon apostolic succession.

And so, they left out other gospels that had bitten, been wr, been written at the same time as Matthew, Mark, Luke and John. They were no less authentic, they just didn't happen to agree with the structure that they were setting up. And these gospels remained lost until **1945** when

they were discovered as that "library in the jar" at Nag Hammadi, Egypt and were finally published in English in part in 1977.

But Jesus told us, and I remember it well, that his teachings would be lost. And we asked him whether he was going to take us with him in his resurrection and ascension. And he told us, "No," that we had to reembody throughout these 2,000 years to keep the flame of his life within the Church and the age would come, the end of Pisces, when he would restore those teachings and we would restore them with him.

So I come to you today, truly, in my heart remembering the moment when I approached him and reproached him, telling him that if he had come sooner **my brother, Lazarus, had not died**. And that is when he said to me, **"I am the resurrection, and the life: he that is dead, though he were dead, yet shall he live: Believest thou this?"**

And I made that confession that is recorded in scripture, **"Yea, Lord: I believe that thou art the Christ that should come in to the world,"** whereupon he went back to Bethany and raised Lazarus with the tremendous command, **"Lazarus, come forth."** And he recalled the soul of Lazarus back into his body and by the attainment of his mastery of the threefold flame in his heart he reignited that flame, reestablishing the connection of the crystal cord. Such was the tremendous demonstration of Jesus.

The mystery teachings, then, that are given to us point to a single reality, which though Mark Prophet and I had been writing about this since 1958, I knew nothing of the Gnostic gospels. Yet, they are confirmed by those very gospels which give the exact teaching, and it pertains to the second figure in the Chart, the middle figure, and the understanding of who is the **only begotten Son** of God. Who is the Son of man? Who is the Son of God? And who are you?

Jesus gave one teaching. His doctrine is not in scripture. The early church fathers decided to deny that teaching and to print only a narrow perspective of what he taught that eliminates the understanding that you are the sons of men. Each one of us is the son of man, which simply means the son of manifestation. You are the light of manifestation of your I AM Presence this very moment, all of us.

Now, that son of manifestation is a soul who has descended into these dense bodies and this dense--by what I mean very concrete--physical world. And the soul has free will but the soul is not permanent. The soul becomes permanent when she becomes the bride of the Universal Christ, and that

fusion of the soul with that universal Light is called the alchemical marriage. And Aquarius is called the age of alchemy, and this is the age of that alchemy which is achieved through what John the Baptist prophesied as the baptism by fire.

Now, what has become confused because of doctrine that has been established by church councils is the question of Jesus' divinity and his divine sonship.

Jesus the Son of man was the full incarnation of the Son of God. This we know, this we believe. What we need to understand is that the Son of God is the only begotten of the Father, one Son, one descent of one universal Light. But of this universal Light body Jesus said at the Last Supper, as he held the single loaf of bread, "This is my universal body of light which is broken for you." And he revealed the mystery again of the Law of the One, one universal Light who is one Son of God. But he breaks the bread and gives us each a piece of it, and in that very act he is saying, "I am restoring to you that same Universal Christ which you have forgotten and lost in your descent into this world."

**Take, eat: this is my body, which is broken for you.** And the wine that he gives is the essence of the Spirit of the I AM Presence. Then he says, "**This do in remembrance of me**--in remembrance that I came and was with you and I was the embodiment of that Universal Christ."

He is the incarnate Word. What Word does he incarnate? The Word *I AM THAT I AM*. Jesus is the embodiment of the I AM Presence and the light of that Presence who is the universal Son.

Now, nowhere will you ever find written that Jesus ever said, whether you study the writings of akasha, the recordings in the etheric plane and the astral plane of all events that've ever taken place in a given place, whether in scriptures that will ever be found, he never said, "I am the only Son of God. I am the exclusive Son of God, and all the rest of you are sinners." He never said it.

The Council of Nicaea and other church councils confusing the universal Son of God and the Son of man decided that the human flesh-and-blood Jesus was the only begotten Son of God. They decided the rest of us were sinners, that God only created one Son, and the only way we could be saved is simply to believe in him.

And so they made this church doctrine. Jesus didn't teach it. They wrote it down and said this is the doctrine. He is not only the Son of

God and the only Son, but on top of that he is equal to God, not subordinate to the Father. He is God of very gods in his flesh, exclusively, the only one. For 2,000 years this is denied to all the rest of us.

What John said in the first chapter of his book (this is John the Beloved in his gospel), he said, "**The light shone in the darkness; the darkness comprehended it not.**" We don't understand a blinding light, but we understand that light when it is embodied in a person that we can relate to and that was Jesus. And he writes, "**We beheld his glory as of the only begotten Son of God.**"

So **the Word was made flesh and dwelt among us and we beheld his glory.** But then John goes on to say, "**That was the true Light that lighteth every man that cometh into the world.**" That is the igniting of our own inner Holy Christ Flame.

What we see, then, in the Law of the One--one Universal Christ, yes, only one begotten Son of God, one--but out of this light the individualization of that Flame and Presence for you and for me. If that body is broken into a million pieces, just like every drop of the ocean contains the whole ocean, that piece of that bread is still the fullness of that Universal Christ. And that Universal Christ you call to as your beloved Holy Christ Self. You may call that your Higher Self or your Higher Consciousness. One times one times one still equals one--only one begotten Son of God, but individualized for each one of us. And the apostle said, "**Let that mind be in you, which was also in Christ Jesus.**" It is lawful for us to seek to embody that universal Mind who is the Son of God.

So we are the son of man, Bob the son of man, Mary the son of man, Jim the son of man, each one of us. And in our inner being is the potential in that divine spark, and the goal and the path of this life is to realize that light in our being. Things equal to the same thing are equal to each other. When we converge at that point of light that is above us we become that light.

Let us see what is written down in the Gnostic gospels about this.

**The Gospel of Thomas**--it was never published--Thomas was sent to India to preach. It starts out with the words "**These are the secret sayings which the living Jesus spoke**"--Jesus replies to Thomas who calls him Master, "**I am not your master. Because you have drunk, you have become drunk from the bubbling stream which I have measured out. He who will**

**drink from my mouth will become as I am: I myself shall become he, and the things that are hidden will be revealed to him."**

When Jesus is saying "I" because he was, is fully fused in his soul in that Son of God, it is the Son of God who is speaking in him. And when you are inspired and imbued with the light of your Christ Self and you feel the Holy Spirit upon you and you speak the truth, it is also your Christ Self speaking through you.

So, the Christ of me shall become the Christ of you is what Jesus is saying, because it's one Christ. And if we all drink from the same source that is our I AM Presence and we do so to the glory of God in love of his will, in love of one another, we're all going to wind up having that portion.

Jesus tells Thomas, **"The Kingdom is inside of you."** And Jesus told me many years ago when you see that word *kingdom* in scripture it means "consciousness." The consciousness of God **"is inside of you, and it is outside of you. When you come to know yourselves, then you will be known."** When you come to know that God is in you and you realize that God you will be known for that light **"and you will realize that you are the sons of the living Father."** You are now the sons of the living Father, you don't have to get somewhere from here to be that son. That is your native identity.

And the apostle Paul was a Gnostic. I want you to know that. *Gnostic* is the Greek word meaning "knowledge." These are the early Christians that sought self-knowledge, self-realization. And Paul spoke of us as being inheritors of the same Universal Christ. He said, **"You are joint-heirs with Christ,"** joint-heirs of that light. It is your inheritance. It's been sealed in a foreign bank account with no number, and you could never get at it because they wouldn't give you the number and the formula and the key to that box.

And in the New Age the key to that I AM Presence and Holy Christ Self gives you the authority to make an affirmation, to call forth angels and to direct that light, not just because it's positive thinking but because God is in you. And with one fell swoop this revelation wipes away thousands of years of world condemnation heaped upon us, whether by orthodoxy or by fallen angels who have gone to persecute the Lightbearers in the earth, who have desired to convince us by what?--by philosophy, by doctrine, by all manner of cunning logic they have devised for us that we

are miserable sinners and we can never rise to our pure God-estate.

**Another Gnostic text, *The Gospel of Philip*, describes the follower of Jesus who walks fully in his footsteps and is "no longer a Christian but a Christ."** That is the reason you follow the Master.

What does Christ mean? It is also from a Greek word *Christos*, meaning "anointed one." A Christ is one who is anointed with the light of his I AM Presence and that universal Son of God. And Jesus promised this and it's in the Book of John. He said, "Those who will love me and obey me and keep my commandments, the Father and the Son will take up their abode in him."

So this lower body in the Chart is a vessel. That's what the quest of the Holy Grail is about. The knights would go forth and defend the people against their oppressors. They would slay dragons and defy witches and absolutely come home champions against every nefarious force. That was the self-emptying of the subconscious of the not-self, the quest. And when it is self-emptied and when we challenge the forces externally on behalf of others, then we are ready as a vessel to receive that great light. We become the Holy Grail by this process, and that light fills those seven vessels, those seven chakras.

Jesus gave us the parable, the teaching on chakras which he brought back from the Far East, the seventeen mist, missing years that I've written about. And he talks about the wise and foolish virgins. And those who are wise have oil in their lamps, they keep light in their chakras, they keep them trimmed, they keep them balanced in the Alpha/Omega, yin/yang energies.

When the Bridegroom who is this Universal Christ comes to them in the person of the living Guru, the living Master Jesus or the living Christ Self of the individual, they can receive him because they have the negative polarity of light in their physical temple that can be a magnet to draw the positive polarity of light that is manifest in the plane of Spirit.

So, the light we have below through mantra and prayer and devotion and living lives where we see ourselves in the service of humanity, in our jobs and so forth, building that light within us, is a magnet that draws the light from above.

So, if you have no oil in your chakras, there is no light there, you will not see him when he comes as a thief in the night, and the door will close, the door of initiation, and you will not be received into the inner

chamber, the secret place of the heart, and you cannot receive the bestowal of that light or be fused to your inner reality.

Now, Jesus taught all about chakras. He spent seventeen years studying and teaching in the East and in India.

This one who is "no longer a Christian but a Christ," of him Jesus tells Philip, **"You saw something of that place and you became those things. You saw the Spirit, you became spirit."** You see the Spirit of the I AM THAT I AM above you, you will become that spirit because your soul is a mirror, a mirror right here below facing the higher octaves. And what is reflected in that mirror is what you see with your third eye, and when you see God and you know that is a divine reality pulsating in th, f, in all four dimensions and more, you see as Jesus says, **"You saw Christ, you became Christ. You saw the Father, you shall become Father."**

In this place here in illusion you see everything and do not see yourself, he says. You do not see your Real Self. But when you are in that Higher Consciousness, in that place, you do see yourself and what you see you shall become. Again, as Above, so below.

This teaching, then, gives us the key and foundation to Aquarius. To actually place one's feet on the threshold of Aquarius, to be called an Aquarian means that we have the Aquarian vibration. It doesn't matter to me what path you're on, what teaching you follow, as long as it's not self-destructive or destructive to anyone else. Do what you will because this is the age of freedom.

But take the violet flame that is the gift of Saint Germain, the consuming fire of God that is our baptism into the New Age and take Saint Germain himself, personally. Because this temple that we have, this body here below, needs to be filled with the violet flame because here are the records at the levels below the chakra of the heart of all past lives and embodiments. These need to be transmuted and that's what the violet flame is. It's a flame of mercy, forgiveness, transmutation, alchemy, freedom, justice--all of those--and science itself. It's the flame of the priesthood of Melchizedek.

Take the violet flame, blaze it through your temple, through your chakras, through your being, and every single day patterns of the past that affect your present psychology, create present limitations, prevent you from being the fullness of all that you know you really are.

Did you ever have the sense you were scraping a ceiling about here

and that another part of you that is this fantastic infinite mind is right there, and you want to scratch at that ceiling and get through? Well, that's the nature of limitation of karma that comes upon us. We get very limited in our ability to express and create and move forward and fulfill our reason for being because we're at the end of an age and we have accumulated a great weight of karma.

We have also accumulated a great weight of positive karma which has ascended to that causal body above us. And in the process of doing that we have built a momentum of our God Presence upon that which was originally given to us. Now, I would like to explain that in a moment but I would like to take some mantras to the violet flame so that you can immediately experience them.

On page 6 of this booklet we sing a love song to Saint Germain. We open our hearts to him, we give our love to him in gratitude for his sponsorship of our souls, for his gift of initiation which is the violet flame, and we're going to ask him to multiply the decrees we then give to him. So let's make our inner communion with the Master at this time and sing this song. Roll it. [song 237 (Mantra booklet #23):]

**Saint Germain, I give my heart to you  
Come fill me with love, my soul renew.  
O divine Master! show me the way to go  
Life's holy purpose I would know.**

**Dear one, send forth your Light sublime  
The ladder of love I climb into your heart.  
O my beloved! hear my resounding Word  
Forevermore echo as "I love you."**

Right above it is a decree to the violet flame which we'll give now as we visualize the violet flame passing through us; you'll see the lower figure in the Chart in the violet flame. Together. [decree 5.02 (Mantra booklet #22):]

**Lovely God Presence, I AM in me,  
Hear me now I do decree:  
Bring to pass each blessing for which I call  
Upon the Holy Christ Self of each and all.**

**Let Violet Fire of Freedom roll  
Round the world to make all whole;  
Saturate the earth and its people, too,  
With increasing Christ-radiance shining through.**

**I AM this action from God above,**

Sustained by the hand of heaven's Love,  
Transmuting the causes of discord here,  
Removing the cores so that none do fear.

I AM, I AM, I AM  
The full power of Freedom's Love  
Raising all earth to heaven above.  
Violet Fire now blazing bright,  
In living beauty is God's own Light

Which right now and forever  
Sets the world, myself, and all life  
Eternally free in Ascended Master Perfection.

Let's see how this can accelerate through pitch and rhythm. Together.  
\*[Decree 5.02 (Mantra booklet #22), "More Violet Fire," given 1x, led by  
Messenger.]

"Because you have called, I have answered," says your I AM Presence.  
That light you have called forth is instantaneously manifest in your aura  
and throughout planet earth. It doesn't even travel, it simply is; and  
see how long it took us to do that, a very short amount of time.

So if you'll go back to page 3--the basic violet flame decrees that  
you give every morning. You can give them as you're preparing for your  
day, you can give them in the shower, you can give them in your car on  
your way to work. The important thing is to always give them.

Now, you see the lower figure in the Chart with a violet sphere in  
the heart. We're clearing the heart chakra. The chakras are pure in our  
higher state but we take the light of the heart, for instance, which is  
the ray of divine love, intense love, and because we have free will  
sometimes we take that energy and we don't express love. We express  
hardness of heart, we become unmerciful, we don't forgive someone who has  
wronged us even though we think we should be forgiven when we do something  
wrong. Perhaps we even have mild dislike or hatred of others. That is a  
misuse of the heart chakra.

God's energy is neither created nor destroyed. It's a crystal clear  
stream, it never stops flowing. It flows through you and it takes on the  
coloration of your aura. If you have angry thoughts, it simply passes  
through you and it gets qualified with anger. If you have thoughts of  
profound peace in your meditation you are radiating that peace to the  
whole world. The peace goes forth, it gathers more of itself, it returns  
to you and you are blest by the multiplication of the spiral that you

yourself initiated.

So, if it's not peace or if it's agitation of some sort it goes out, gathers more of its, e, kind and it follows the law of the circle. It returns to you, and then your body becomes burdened or out of balanced or sick or you shorten your life and so forth. So we are all creators continually.

The trinity of the East--Brahma, Vishnu and Shiva--is described as the creator, the preserver and the destroyer--the destroyer in the sense of the transformer. If we don't like what we have created we don't have to preserve it. We can call forth the violet flame and it will be transmuted, and that energy can be transformed.

So the great gift of the God of freedom, the consciousness of that God of freedom in this age, is that we can be free, through the baptism of fire by the Holy Spirit in its violet flame aspect, of our karma or our sins or our mistakes. And the way we are free is twofold. Remember the Holy Spirit descends with two flames called cloven tongues of fire, the Alpha, the Omega. Wholeness is the sign of Aquarius--restored, balance restored.

We balance karma by service to life. This we are doing each and every day in whatever our job is, whatever our occupation. When we do that job with a desire for excellence, to glorify God in ourself and others and to the good and service of others, we are in the very process of walking a spiritual path no matter what our calling. The other way besides service to life is by the violet flame. When we use both of those paths, the violet flame and service, we can accelerate tremendously.

Now, the violet flame is the adjeanct, the adjunct to the sacred fire of the Divine Mother which we raise on the spine called the Kundalini. The violet flame aspect of the Holy Spirit, being a new dispensation of the age of Aquarius, adds to the former teachings of the world's religions and builds upon them. And if there has been error handed down to us in those religions that is consumed and we are left with the kernel of its original truth.

What we see, then, having been co-creators with God we have sent forth much creation. That which is positive and of the light has already ascended to the causal body. It's our treasure stored in heaven. We don't have to worry about us, it's a great momentum, it's like the wind in our sails. The things that come easy to you, what you have a genius

in, what you have an aptitude for, that's what you've worked on in previous lives and that's what's stored in your causal body.

What concerns us today are the negatives, what surrounds us here below in the subconscious, because it's weighing us down. In fact, it forms a spiral that looks like a kettle drum from this chakra down--the solar plexus. And that which is closest to the surface which is the most recent--today, yesterday, last week, last month, last year, last decade, all the way back to our birth--that's what gets transmuted first.

You can decree maybe for six months with the violet flame and by the fervor of your heart's love and service you can get through the worst of karma of this whole lifetime. Now, that's a tremendous boon; that's the age of Aquarius. And you find the point where you actually, from this moment, if you start using the violet flame today and every day, you'll see scenes of today and they're passing into the flame. They come before your eye and into the flame they go, and they get older and older. And you'll start thinking, What am I doing? I am reliving my past! I am remembering things I never remembered before. Some of them are painful. What's happening to me?

They're going into the flame to be consumed. That energy is being requalified by the divine alchemy. It is liberated energy now. It's the pure light. It rises to your causal body and that causal body and the expansion of the light is the sign of your growing attainment, your growing self-mastery.

So, when those scenes come back, you just let go of them, you don't get emotionally involved. You let them go into the flame.

There comes a moment when you cross the threshold of the moment you were born. And if you have quickened soul awareness, you might even remember descending into that body or meeting with Masters and angels just before the hour of your birth who gave you your assignment for this life and told many of you that in this life you were to reunite with God in the oneness of the light, in the path of the ascension. Because that's the meaning of the end of Pisces--when many souls are awakened to this reunion with their I AM Presence. That's why Saint Germain and Jesus Christ sponsored the Keepers of the Flame Fraternity--to give you step-by-step lessons which teach you this path. And they are sent out monthly along with weekly Pearls of Wisdom.

Now, those lessons tell us that it is possible, because of the new

dispensation of Aquarius and the violet flame, to balance a sufficient level of a karma, of our karma to reunite with God. Now, the old dispensations that you may have heard about in the teachings of the East told us that we had to balance 100 percent of our karma before we could stop the round of rebirth and reunite with God.

Some of you may be surprised to learn that the dispensation of Aquarius is that you can ascend with the balancing of 51 percent of your karma, which is a tremendous dispensation. That doesn't mean that the other 49 percent is set aside, but it means that you can become an Ascended Master first, locked into your Presence, a manifestation of God, truly immortal, and from that state continue to serve with the evolutions of this planet until you balance the remaining 49 percent.

And this was done for a very important reason. The times have grown so dense in this what is called the Kali Yuga that many people would balance 51 percent but the initiations involving the remaining 49 are the descent into hell, which Jesus experienced when he was crucified in those hours he was on the cross, the very difficult encounter with forces of evil and momentums on a planetary scale, that because of the lost teachings, because they were lost, it is very difficult if impossible for most people to get through such intense crisis.

So, we are living in the age of the intercession of Mother Mary and many saints that you know by name, saints of the Church. Saint Patrick is an Ascended Master. Saint Thérèse of Lisieux is an Ascended Master. Pope John XXIII is an Ascended Master. People have ascended in this century by the violet flame. Zarathustra, Lao Tzu, Confucius, Gautama Buddha--they are also our brothers and sisters robed in white in the octaves of light.

Ascended Masters have risen from that lower body that we wear, embodying the light, and at the conclusion of their final incarnation they made their ascension. They are our elder brothers and sisters on the Path.

What the requirement, then, is to send the violet flame into our negatives, because that is what is keeping us bound to earth. You can ascend in this life through the violet flame. And what I think is important about that knowledge is not to decide right now whether or not you would like to ascend in this life, but to qualify yourself for the ascension.

Because when you have gained that mastery and that freedom you can make the choice not to ascend, you can stay on earth as an unascended

master or you can take your ascension. And at that time you'll be shown what are the things you can accomplish in either state. In other words, Aquarius is a time for individual self-mastery through the violet flame. This is where it begins. It's the missing link. It's the key to every other path that you could be walking.

So, let us begin on page 3 with decree number 5 and 6 and we're going on. Now, we've been told that because of fire regulations they're not bringing in any more chairs. So those of you who might want to spend a little time sitting on the floor and giving someone else a break, you can play musical chairs if you want. It's fine with me, if you can, if you care to do that.

The Heart, Head and Hand decrees are the, the clearing of our main chakras with that violet flame. I'd like to ask for the fans to be increased here. So you'll see on the slide screen how the flame grows in your temple. I am going to make an invocation for all of us to remind you that you have a very personal communion with your I AM Presence and with your Christ Self, and that personal communion means that you can talk to your I AM Presence any hour or any minute and that Presence answers you.

#### **INVOCATION:**

Beloved Mighty I AM Presence, beloved Holy Christ Self of each one, in the name I AM THAT I AM, we call forth the violet flame for the transmutation of all karma ever made through our seven chakras, all discord or negative vibrations or anything that is less than the Universal Christ consciousness within us.

Blaze forth the violet flame from the heart of God, from the heart of Saint Germain and legions of violet flame angels whom we also invoke.

Therefore, in the name of the Father, the Son and the Holy Spirit of the threefold flame we decree.

---

[decree 1.30 (Mantra booklet #5, 6, 7):]

**Violet Fire, thou Love divine,  
Blaze within this heart of mine!  
Thou art Mercy forever true,  
Keep me always in tune with you. (given 3x)**

**I AM Light, thou Christ in me,**

Set my mind forever free;  
 Violet Fire, forever shine  
 Deep within this mind of mine.

God who gives my daily bread,  
 With Violet Fire fill my head  
 Till thy radiance heavenlike  
 Makes my mind a mind of Light. (given 3x)

I AM the hand of God in action,  
 Gaining Victory every day;  
 My pure soul's great satisfaction  
 Is to walk the Middle Way. (given 3x)

Now, we stand to invoke our tube of light and we face the Chart of the Presence at the altar. Visualize this tube of light descending from the heart of God, nine feet in dia, in diameter. The more you invoke it, the more solidified it becomes. It begins as a mist and it gets more and more dense. And be sure to exercise your third eye and visualize it with intense concentration. For what you see you not only become but you precipitate, or you crystallize in form. Together. [decree 1.30 (Mantra booklet #8):]

Beloved I AM Presence bright,  
 Round me seal your Tube of Light  
 From Ascended Master flame  
 Called forth now in God's own name.  
 Let it keep my temple free  
 From all discord sent to me.

I AM calling forth Violet Fire  
 To blaze and transmute all desire,  
 Keeping on in Freedom's name  
 Till I AM one with the Violet Flame. (given

3x)

Thank you. While we are standing let us sing to our Holy Christ Self. On page 20, number 75, the call to the Holy Christ Flame and to the Holy Christ Self. As simple as singing this song is your reconnection to your beloved teacher and friend, your own higher Christhood. Roll it, three times. [song 29 (Mantra booklet #75):]

1. Holy Christ Self above me  
 Thou balance of my soul  
 Let thy blessed radiance  
 Descend and make me Whole.

Refrain:

Thy Flame within me ever blazes

Thy Peace about me ever raises  
 Thy Love protects and holds me  
 Thy dazzling Light enfolds me.  
 I AM thy threefold radiance  
 I AM thy living Presence  
 Expanding, expanding, expanding now.

2. Holy Christ Flame within me  
 Come, expand thy triune Light  
 Flood my being with the essence  
 Of the pink, blue, gold, and white.

Refrain:

Thy Flame within me ever blazes  
 Thy Peace about me ever raises  
 Thy Love protects and holds me  
 Thy dazzling Light enfolds me.  
 I AM thy threefold radiance  
 I AM thy living Presence  
 Expanding, expanding, expanding now.

3. Holy lifeline to my Presence  
 Friend and brother ever dear  
 Let me keep thy holy vigil  
 Be thyself in action here.

Refrain:

Thy Flame within me ever blazes  
 Thy Peace about me ever raises  
 Thy Love protects and holds me  
 Thy dazzling Light enfolds me.  
 I AM thy threefold radiance  
 I AM thy living Presence  
 Expanding, expanding, expanding now.

This evening I've had the great happiness to give to you the booklet of Jesus' Watch and the cassette that goes with it. I'd like you to take out that booklet now so that we can sing a song to the Ascended Master Jesus Christ. Page 10.

This is a one-hour service that was dictated to Mark Prophet. And in this you will find a weekly watch that you can keep with Jesus. The reason we want to sing to "Jesus, Master Divine," is because I am going to make the invocation for him to enter this room with his angels, those twelve legions of angels that are in his power to call from the heart of the Father.

You must remember that the call that is made compels the answer from heaven. It is scientific. I am going to ask Jesus to place his aura,

which is called the Electronic Presence or the electromagnetic field, around each one of us in this room. It is your free will to accept it or not to. The Ascended Masters and angels never enter your world or house or aura uninvited because you are a free agent and they respect that profoundly. You are under the dispensation of free will.

So, if by free will you call to a Master of Light and keep calling he will come. And the reason we call to Jesus is that in this foundation of Aquarius we have to catch up for 2,000 years of lifetimes when we did not realize the path of this internalization of the Word, of receiving our Holy Christ Self into our temple.

I am going to ask to give, for Jesus to give you discipleship and training, that he will come to you personally, because he's offered to do this, to accelerate you as fast as you desire to go on the path of realizing the light, so that you can be ready for the raising of your vibrations into Aquarius.

We were all intended to be Christs by now. Had Pisces been a golden age, every one in this room would be the manifestation of the anointing of the light. You would be a Christed one or a Christ. But your Christ identity is only above you, and that identity can come into your temple day by day. So please join me in your hearts and affirm this prayer if you desire to.

#### **INVOCATION:**

Beloved Mighty I AM Presence, beloved Jesus, we raise this crystal chalice to thy heart as the symbol of the chalice of our own being. We ask you to fill our chalice with your light. Come, our beloved brother and Master, thou who hast saved us for the path of realizing the universal Light.

Come to us and place your aura, your magnetic field around us. Intensify your light in our chakras, breathe upon us thy spirit and let each of your chakras touch ours in a reigniting and a balancing action as we are able to receive it according to the will of God.

We accept it done, O Lord, in this hour.

[song 73:]

Jesus, Master divine  
 Jesus, sweet Brother mine  
 Let thy Light through me shine  
 Possess my world today.

Take thou my hand and hold it fast  
 Let me express thy peace at last  
 Flood now my world with all thou hast  
 I claim thy Vict'ry now!

 Jesus, the I AM Word  
 Blue lightning is the sword  
 Which cuts me free today.

Hold thou for me my God-control  
 Now purify, complete my soul  
 Keep me up-reaching toward my goal  
 Thou art the guide for me!

Jesus, I love thy name  
 Jesus, its pow'r and fame  
 Transmute by violet flame  
 All shadows of this world.

I call thee now, come blaze thy Light  
 Come, set me free, make all things right  
 Help me to be God's I AM might  
 My plan divine fulfill!

Jesus, victor supreme  
 Jesus, thy whole lifestream  
 A God-example's been  
 To all evolving here.

Help me the Christ in all to see  
 Thy full example true to be  
 Help me express God-mastery  
 In all I do each day!

Thank you very much. Won't you be seated?

Now, you don't get the badge of being an Aquarian unless you understand the alchemy of the law of forgiveness and how to actually practice that alchemy. I have an entire book on alchemy dictated by Saint Germain, *Studies in Alchemy*. It's very fundamental for the New Age. It was dictated to Mark Prophet as early as 1962, and it has been selling steadily as a best-seller around the world since that time. So we have to be alchemists to enter the age of Aquarius and this Mantra booklet,

page 11, is going to teach us this law.

If you look on the screen you'll see all the wonderful colors of the Seventh Ray and the seventh age. Saint Germain is prophesied in the Book of Revelation, chapter 10. It talks about the coming of **the seventh angel** and it says, "**When he shall begin to sound, the mysteries of God will be finished, as he has declared them to his servants the prophets.**"

Speaking of that word *prophet*, by the way, that is my surname. I married Mark Prophet. It was his given last name. It came down through France and Ireland to his forebears. My mother named me Elizabeth Clare as a baby and that's how I got my name. So I am not, as some people think, the clear prophet. And I am not Elizabeth Clare who goes by a title "prophet." But that's just plain my name, and you know sometimes people do get names that fit their callings in life.

Anyway, that scripture says, "as he has, rece, revealed them to his servants the prophets." So Saint Germain has revealed his teachings and his mysteries of the violet flame to us for all the world without exception. That violet flame is the Seventh Ray. Saint Germain is the seventh angel, the hierarch of Aquarius. His beloved twin flame is called Portia. She ascended long before Saint Germain, attained to the God consciousness of divine justice, is the full embodiment of that cosmic consciousness of God's justice, and as such is called the Goddess of Justice, not in mythological terms but as a sign of attainment.

When Saint Germain ascended she actually descended out of nirvana to greet him. And so, she is a great Divine Mother figure in this age. So, Saint Germain with his beloved twin flame present to us the profile of this dispensation of Aquarius.

So, in these colors you see that very pink/violet is a quality of mercy because it has more pink of divine love in it. The quality of justice is more of a blue/violet because it contains the justice of the Law. There is therefore, those extremes as well as the white light. Now, the figure on the screen (for those of you who cannot see it) has a violet flame sphere in the heart and the violet flame blazing all around, and that sphere is visualized by the individual who happens to be you right now.

So, let's all just visualize a violet flame sphere burning in the center of our chest cavity and see it a foot in diameter, if you would, and feel it as a sphere of love as it begins to pulsate and actually create

a sensation in the heart. Now, that sphere is the sphere of the violet flame and it's the sphere of forgiveness. So I am going to make a call now.

**INVOCATION:**

In the name of Almighty God, I AM THAT I AM, beloved Mighty I AM Presence and Holy Christ Self of us, I call upon the law of forgiveness and the violet transmuting flame to consume now all wrongs I have ever inflicted upon any part of life. I send this violet flame as a healing unguent of my own Christhood and I AM Presence, O God, by thy leave, to all whom I've hurt or burdened, those whom I remember and those I remember not, this life and all previous lives.

I call for this sphere of my heart to go forth blessing and healing and transmuting the very record of the pain so it is no longer a burden in the psychology of that individual. I ask that the same record be cleared in me, O God. And I ask that all who have ever wronged me receive now this gift of my love as the violet-transmuting-flame sphere of forgiveness.

O God, in the magnificence of thy Holy Spirit, I accept it done this hour in full power.

---

What we have to remember is that Jesus entered the age of Pisces with the violet flame. The violet flame has been known by all adepts of all mystery schools of all ages in the inner retreats. What's new about it--it is that it's being released to the whole wee, to the whole world because this is the age, the seventh age of Aquarius.

Now, it is readily available in the book stalls of the world, freely given to all, Saint Germain's gift of this time. All of you who are attending this evening who have left your name I am going to send you, as the glad-free gift of the hearts of all of our staff in Montana, a ninety-two minute cassette of nothing but violet flame mantras, decrees and songs that you will simply love and that will uplift you day after day. And until it arrives please give the Jesus' Watch that is already in your hands.

The violet flame, then, is this wondrous intercessor that resolves the burdens of all relationships. You will understand that whoever you have wronged and whoever has wronged you, until the record is transmuted

you are tied to that person. Now, we want to be tied to all people by love and by the Christ consciousness, but we don't want to be bound in bonds of limitation and pain and discord.

So, sending forth this blessing is a deliverance to all, both sides of the equation, most of all to ourselves. We can't come to the altar of God without forgiveness in our hearts. That's Jesus' teaching.

Jesus told me long ago the altar is the place of alteration, change, alchemy. That's why we come to the altar of God, and those who keep the altar are those through whom that alchemy can be given to the people by the Holy Spirit.

One sphere in your heart of forgiveness, but there're a thousand people out there that you want to send that sphere to. The Law of the One says that one matrix of that divine sphere can be a billion spheres. That's the Law of the One. That's the magnificence of your I AM Presence. And so, those who can see or can't see the screen now, out from your heart flow multiple spheres of light with white wings, one on each side of the Holy Spirit, carrying that gift of love to the person you visualize and name in your heart as you give this call.

It doesn't matter how many people you want to send it to--all the evolutions of earth and all the planets in the known physical cosmos--your heart is the instrument of the infinite God. So we start right in our own backyard, here in San Diego, and we visualize a one violet flame sphere that is the infinite power of God's mercy to descend into every home, apartment, every place where people are living. And so we're looking at violet flame sweeters, spheres now with wings descending into all the houses of this area. And now we're looking again at billions of spheres going out to the entire planet earth, to every nation, to every home.

When you think of this and that you can do this with this simple little mantra because you know you have an I AM Presence, a Holy Christ Self and a threefold flame in your heart and because you understand the science of the spoken Word, you are truly liberated in Aquarius.

My book *The Science of the Spoken Word* takes what I am saying to you in great detail. It's the very foundation and building stone of your Path, and again it can be applied to any religion, any allegiance you have as long it is, as it is to the universal Light. This is page 4, number 11.

In the name of the Father, the Son, the Holy Spirit and the Divine Mother we decree, [decree 1.30 (Mantra booklet #11):]

**I AM Forgiveness acting here,  
Casting out all doubt and fear,  
Setting men forever free  
With wings of cosmic Victory.**

**I AM calling in full power  
For Forgiveness every hour;  
To all life in every place  
I flood forth forgiving Grace. (given 1x)**

This is page 4, number 11. Together.

**I AM Forgiveness acting here,  
Casting out all doubt and fear,  
Setting men forever free  
With wings of cosmic Victory.**

**I AM calling in full power  
For Forgiveness every hour;  
To all life in every place  
I flood forth forgiving Grace. (given 4x)**

All of the violet flame is a forgiving flame. But if you don't forgive yourself then the violet flame cannot erase the record, because by free will you are holding onto it. And sometimes we dredge up those records again and we condemn ourselves and we are besieged with guilt and then we recreate the whole situation again.

So, it's very important to feel worthy of God's forgiveness and to know that in forgiving us he gives us the opportunity to balance our debts to life. For instance, if we injure someone we may be forgiven but we need to help that person get through his injury and help him if he is incapacitated. So there are consequences to actions that we need to make up for and serve life to balance out. But the record, the memory and the weight of karma goes with the violet flame.

I was telling you that Jesus began his mission with the use of the violet flame. It was his first miracle, the very first miracle that he did publicly. It took place at the marriage feast at Cana of Galilee. He changed the water into wine. It was an act of physical chemistry, spiritual alchemy, and it had amazing significance for his entire mission.

It was an act of forgiveness. He forgave the waters of our human consciousness that were inadequate to receive the great Spirit of the Universal Christ he bore, unable to receive his message. That alchemy shows that through him the Holy Spirit's fire rendered us capable of

receiving him because within us there flowed the wine of the Holy Spirit.

So this is the promise of the coming of Christ into your temple, that alchemy. We continue to call forth the violet flame on page 5, number 18. We'll give it once and then we'll sing it.

The violet flame comes in three quarter time. That's very interesting because that's the time of the heart chakra. Every chakra has a musical time. Number 5, page 5, number 18. Together. [decree 70.11 (Mantra booklet #18):]

**I AM the Violet Flame  
In action in me now  
I AM the Violet Flame  
To Light alone I bow  
I AM the Violet Flame  
In mighty Cosmic Power  
I AM the Light of God  
Shining every hour  
I AM the Violet Flame  
Blazing like a sun  
I AM God's sacred power  
Freeing every one (given 3x)**

\*[Song 799 (Mantra booklet #18), "I AM the Violet Flame," sung 2x.]

Now, we're going to roll up our sleeves and get to work on those chakras, number 20. And those chakras are the signs of the Lords of the Seven Rays and their initiation. If you'll look on the screen you'll see your heart chakra. It has twelve petals. This is page 5, number 20, number *a*. We're going to see on the screen the heart chakra and each of the seven chakras. And the next slide you're going to see is the violet fire burning through what appear to be rocks or clumps of wood.

You have to imagine this at the cellular level of karma lodging in the cells and molecules and atoms of your being, flecks, as flecks of dust or soot or crystallized substance that has a negative vibration. That is exactly how karma clogs our beings, our bodies, the earth, the water, the air, and that is why we get burdened and that's why our vibrations go down.

The definition of vibration, by the way, is the rate of the spin of the electron around the atoms of your being. That's the truth, and that's what you'll read about in the first Keeper of the Flame Lesson. So, what happens is that the density of our consciousness, because it's God's light we're misqualifying, it accumulates as fine dust or smog between those wide open spaces of the electrons, so they slow down, they can't pass through as evly, as easily.

And the rate of that revolution of the electron around the nucleus determines your personal vibration. And the more you have light and the violet flame the more you accelerate, the more you have energy, there is a new joy in your life because the electrons themselves are enjoying that cosmic spin you're giving them. So, that substance that gets heavy between the electrons has been compared to molasses or asphalt hardened or to clumps of substance like on the screen.

So, if you look at the chakras on the chakra man whom we'll put up now and you see on the very front of your booklet--see where those chakras are in your body. Where they are in your body means that if you have problems in that area of the body you are dealing with the karma you have made on that ray which corresponds to that chakra. So, if you have a problem, let's say a chest problem in the lungs you would associate that with the heart chakra and the throat chakra. So, you would look for the clearing of those two chakras and also a scientific application of diet.

The most scientific and satisfactory diet that parallels that of the ancient Eastern adepts that we have given back to us today is the macrobiotic diet, because it seeks to restore the balance of yin and yang, or Alpha and Omega. Now, that's how we practice it at the Royal Teton Ranch. It is practiced according to the disciplines of the Ascended Masters. And you will find that if you can restore balance in your physical body, the physical body and atoms can contain more light and therefore you have strength and balance physically to carry more light in your chakras. So, this is a very physical path of self-mastery that we are walking under the Ascended Masters.

So, we're going to take number 20, we're going to say "I AM a being of violet fire, I AM the purity God desires," three times between each of those lettered decrees. And if you see the order of the chakras, we're starting in the heart which is the center where the Central Sun of our being, and we're creating a spiral. The spiral goes through the throat (which is the second chakra), the solar plexus, the third eye, the seat of the soul, the crown, and we arrive at the base chakra of the Divine Mother where we are ready to give the bija mantras or seed syllables for the raising of that sacred fire.

So each time we do it we'll see the pure chakra and its petals. Just for your information, the heart has twelve, the throat sixteen, the solar plexus ten, the third eye ninety-six, the seat of the soul six, the crown

nine hundred and seventy-two, and the base four.

Now, the number of petals to the chakra determine its vibration and therefore the plane of heaven that it corresponds to. So the very base of the spine has the fewest chakras because it relates closest to the physical octave because it is the Divine Mother's light and life-force that sustains our very physical bodies.

So, as you get higher and you get nine hundred and seventy-two petals, which is the thousand-petaled lotus, you really have a tremendously high pulsating frequency that can be in that crown chakra. So, here we go. Look at the chakras, look at the violet flame and visualize it blazing through those organs and cells that are near that place in your body.

#### **INVOCATION:**

Beloved Mighty I AM Presence, beloved Holy Christ Self, beloved Saint Germain and beloved Zadkiel, come forth now in the victory of the God Flame. Seal us in the violet flame. Purge and purify us! Consume now all that is less than our Christ perfection, transmute that energy and bless all life by its purity. Send it forth to our Great Causal Body of love as the harvest of our good works on earth.

Therefore, we say together.

Now, you can keep ex, accelerating that decree until you can't even hear the words anymore, and it has something to do with the acceleration of light in you. We seal this clearance then with the bija mantras on page 4.

These bija mantras, four of them, show us that out of the AUM, which is often written OM but can be written *a u m*, the vowels and the consonants form a chalice for light of a certain frequency depending on the pronunciation and the sound of those vowels, of those vowels.

And so, we see in the Hindu teaching concerning the Divine Mother

that she has four distinct manifestations as a complement to the trinity of the Masculine aspect--Sarasvati, Lakshmi, Kali and Durga--all forms of the Divine Mother in you. This Divine Mother manifests through you, and you are her hands and feet in many ways.

Sarasvati teaches you divine communication, great knowledge, music. She is a master of the delivery of the Word and the delivery of the teachings, and she is the consort of the Father. And her seed syllable is AIM. So we say the AUM, which is bowing to the universal Light. We qualify it with AIM, which gives the Sarasvati vibration, and then we bow to that personal manifestation of the Mother, Sarasvatye Namaha.

Lakshmi's seed syllable is SRIM. And SRIM gives the sound of Lakshmi who is the complement of the Second Person of the Trinity or the Divine Son. And she is the mother of abundance and the coordinate of that Christ light or that Universal Christ consciousness.

KRIM is the name of Kali who complements the Holy Spirit as the exorcist, the mother who binds the demons who pursue and torment her children. She is like the wrathful goddess that is tremendously fierce and comes to strip her children of darkness.

Durga, whose syllable is DUM, DUM, is the wife of the Holy Spirit, the perfect wife and Divine Mother.

KRIM is Kali's syllable. And the final little set of words is to the World Mother.

So, visualize the white light rising on the spinal altar and quickening all of the seven chakras you have just cleared. Let us give these together. [song 643 (Mantra booklet #14):]

**OM AIM SARASVATYE NAMAHA** (given 6x)  
**OM SRIM LAKSMYE NAMAHA** (given 6x)  
**OM KRIM KALIKAYE NAMAHA** (given 6x)  
**OM DUM DURGAYE NAMAHA** (given 6x)  
**AIM HRIM KLIM CHAMUNDAYE VICHE** (given 6x)  
**AUM** (given 1x)

As you intone the AUM, center yourself in your I AM Presence at the same time as you center in the third eye.

**AUM** (given 3x)

Now, if you turn back to page 3, number 1, the "Hymn to the Sun," first look at your I AM Presence on the screen and then beyond the I AM Presence look at the Sun behind the sun, which is the point of our origin in the very center of all Cosmos in the beginning with the Word. Just

visualize that fiery sun as the Source, the point of your origin, and let us give number 1 on page 3, the "Hymn to the Sun." [decree 20.20 (Mantra booklet #1):]

O mighty Presence of God, I AM, in and behind the Sun:  
 I welcome thy Light, which floods all the earth,  
 into my life, into my mind, into my spirit, into my soul.  
 Radiate and blaze forth thy Light!  
 Break the bonds of darkness and superstition!  
 Charge me with the great clearness  
 of thy white fire radiance!  
 I AM thy child, and each day I shall become  
 more of thy manifestation!

We have just given bija mantras to the Divine Mother and we feel her wondrous presence with us. I want to tell you that th, the, the sounding of the AUM draws the soul right back into that fiery Spirit of the I AM THAT I AM and the Sun behind the sun to the point where **in the beginning was Brahman and the Word, and without the Word was not any thing made that was made.**

The universal sound of the AUM accelerates our atoms and draws us back to that point of Spirit. It is the name of God given out of the East for that process of ascending back to the point of reality through devotion to the Divine Mother.

In the West we are given the key "I AM THAT I AM" because when we have gone into the great being of God and we are saturated and dripping with that light, we are sent once again to the plane of manifestation to coalesce in form that power. Thus, univithrses are, are transformed by this cyclic going within and coming out. And it says, "**The Lord shall protect and guard and watch over thy going forth and thy coming in from this time forth, even for evermore.**"

So the moment we say, "I AM THAT I AM," the fruit of our meditation in the AUM comes down into the physical and we begin to master the physical environment, the physical octaves and the elementals come into obedience to our Christ flame, the beings of fire, air, water and earth who must hold the balance for our planet.

Now, there are devotional songs that we sing to enter the heart of God. We've sung them of the West. I would like to just give you briefly the sound of a bhajan, a devo, a devotional song that you will find on page 18, number 70.

This is to the Universal Christ and his incarnation in Rama, in

yourself and to the twin flame of yourself, the divine appearing of the Father-Mother God in you through this incarnation. Feel the love of your heart weaving a spiral to the highest realms and voc, octaves and vibrations of light and then you feel the love of God as the Universal Christ coming back to you. You can feel the tingling in your crown chakra, the quickening of your other chakras, as by this devotional song of the East which uses the AUM, which is in that tradition, you are realizing the Godhead here below. Roll it. [song 670 (Mantra booklet #70):]

**(HARI) RAMA RAMA RAMA  
 YADUNANDANA HE GHANA-SYAMA  
 SRI RAMA JAYA RAMA JAYA JAYA RAMA  
 SRI RAMA JAYA RAMA JAYA SAI RAMA  
 RAGHUPATI RAGHAVA RAJA RAMA  
 PATITA PAVANA SITA RAMA  
 SRI RAMA JAYA RAMA JAYA JAYA RAMA  
 SRI RAMA JAYA RAMA JAYA SAI RAMA**

Now, we have a two-cassette album of two nineties of nothing but these bhajans and they are a very wondrous part of your devotional path whereby ultimately the object of your devotion, who is that Universal Christ, is realized as oneself. So, if you feel the love ray in this song they are available for your use.

Now I would like to talk to you about the perfect Master and the perfect crystal for you--the Lords of the Seven Rays.

I've told you the story of the Lords of the Seven Rays and the specifics of their previous incarnations in this book. This is two books in one. The first book goes into the details of their paths of the realization of the light, the tests and difficulties they faced and overcame and what it means to earn one's ascension on that particular path of their service. The second half of the book are the dictations of the Ascended Masters to Mark Prophet and myself that give their profound teachings.

I would like you to know that these dictations have been given to us--to Mark Prophet since the early fifties, and myself who met him in 1961, after I was trained, since 1963. And they come by the Holy Spirit. They come by the acceleration and exalting of the aura as the Master places his presence over one and therefore speaks through one in his power and vibration to deliver initiation, teaching, prophecy, blessing, admonishment and so forth.

Now, this is in the line and tradition of the ancient prophets who

gave the Word of the LORD, often dictations through them of the Archangels. So this has been the means whereby the Ascended Masters have conveyed to us the lost teachings of East and West, as well as the New Age teachings, the Everlasting Gospel prophesied to come in the New Age in the fourteenth chapter of the Book of Revelation.

This is the work I've been doing, then, all of these years. And as you know with the New Age movement, channeling has become very popular. I simply want to explain to you that I am not a channel in that sense of the word, nor do I consider myself to be a psychic. There are psychics who read far better than I those things that are happening in the earth. My gift of the discernment of what is happening comes again through a gift of prophecy and of seeing because God shows me, not because I have in this life developed psychic powers.

So that is my path, and I wanted to explain it to you. And I am in no way standing apart from or a contradiction of or judgmental of anyone else's paths or what you are bringing forth. I would only tell you that whatever you do, you can do with greater clarity and purity with the violet flame, and so that's why I like to give it to you.

Now, this evening at the conclusion of our meeting I will be delivering a dictation from an Ascended Master or an Archangel, and so that is a very special event and a very tremendous release of light. It is something personal to everyone present and it is a conveyance of light. So that is why we affiliate ourselves with the Ascended Masters because we desire to become Ascended Masters. You always apprentice yourself to the teacher who is on the path that you want to fulfill.

So, if you know what these Masters are like you can pick a Master and say, "I will study under that Master and I will give his mantras and decrees and I will ask him to sponsor me." Of course, many asc, Ascended Masters are sponsoring all of us so you don't have to think you can, need to only pick one Master.

One of the important reasons for studying the lives of the Masters concerns you and your twin flame. And I want to talk about the Great Central Sun now and our twin flames and our point of origin.

I'd also like to tell you that the Lords of the Seven Rays are all devotees of the Divine Mother. You don't ascend without becoming a devotee of the Divine Mother's light, and the greatest of all Masters are the greatest devotees of the Divine Mother, and so that is a very fact of

existence. And the great beings, the Buddhas and the bodhisattvas and those in the higher octaves all have that tremendous gentleness as well as the tremendous power of the Divine Mother.

When you see the Buddha in meditation in his statues he is meditating on the pure white light of the Divine Mother. He is in love with the Divine Mother as the Divine mother is in love with the Buddha. And the Buddha is the enlightened one and you are on the path of becoming a bodhisattva, a bodhisattva being a disciple on the way to that realization.

So, you and your twin flame began in the white sphere of being, and you were created by Elohim in the Great Central Sun in the beginning. And male and female you were created, one with a plus and one with a minus charge. And you can see within that sphere center the T'ai Chi forming, and it forms by the cosmic spin, the movement of this great sphere of light.

God showed me the Central Sun many years ago and took me up and showed me the mystery of creation. And creation is in the turning, is in the spin of the Central Sun.

And so, as you each have an identity as the plus, the fiery white Spirit of the Masculine, the minus--go back to that sphere, please--the white sphere of the Masculine, the plus, and then the blue of the Feminine and the negad, negative or minus polarity, so it's the Father/Mother, the Masculine/Feminine, the yang, the yin, or the plus and the minus. And on these twin identities the whole cosmos hangs.

We have a Spirit Cosmos and we have a Matter Cosmos. And so, we are extensions of this divine Spirit suspended in the Matter Cosmos, in the great sea of this plane of effect. We are the body of the Mother and the whole physical universe is the body of the Mother.

When we were created in the beginning as twin flames remaining in this circle of fire we journeyed together through those seven concentric rings of light, spending many cycles in each of those inner spheres, gathering skeins of our cosmic consciousness on those seven rays and five secret rays, whose bands are shown on our Chart just as the white because they are closest to the center. They are at another angle and they are called the secret rays and they correspond to the secret-ray chakras, one in each hand, one in each foot, one corresponding to the Eighth Ray chakra of the heart. The places where Jesus was nailed to the cross on his hands and feet, where the spear pierced the side in the direction of that secret

chamber of the heart show us those secret ray chakras and that the crucifixion itself is an initiation on those five rays.

For that very purpose Saint Germain has required that I wear these gemstones on each of my five fingers so that in the mudras of the Divine Mother, I am releasing that light, or he is releasing it through me through these particular focuses.

Now, at the conclusion of the dictation this evening I am going to be taking this emerald crystal that Saint Germain secured long ago for me for the sealing of the third eye. And this crystal corresponds to the Fifth Ray, which is the emerald ray. It is an emerald, and you can see it on the screen as you can see it in my hand. This is a very interesting crystal because from particles of real emerald it is placed in a tray in a laboratory in certain chemicals and it grows. This little crystal grew in nine months. So you see, a crystal like this, of course, would be out of the question for any of us, if it were raw from the earth, but created in a laboratory it is accessible to us.

Now, the emerald is always used in connection with the third eye, and this initiation which Saint Germain gives you at the end of this evening is prophesied in Revelation 7. It's called the sealing of the servants of God in their third eye. And it comes at the end of the age of Pisces after the Four Horsemen of the Apocalypse are riding through the land and delivering their karma, delivering the karma of the nations upon them, and there begins to be a great disturbance in the elements and the great winds, and an angel of the Lord appears and he says, "**Hurt not the earth, until I have sealed the servants of God in their foreheads.**"

And the scripture says that 144,000 are sealed, which I believe is the complete number of initiates on the twelve signs of the zodiac and not necessarily a physical number.

But for many, many years I've been traveling around the world giving these teachings and placing this emerald to the third eye at the conclusion of the ev, evening.

Now, why does Saint Germain use an emerald? First of all, I mentioned to you it corresponds to the third eye; but secondly, none of us have today the adeptship, the mastery in our chakras to contain the light that is sufficient and required for the holding of the balance in the earth. So, God through the Nature spirits and beings has placed in the ground tremendous deposits of crystals, as well as gemstones.

A crystal, then, is a molecular chalice. Saint Germain can place through the molecular structure of the emerald a ray that is specifically the right amount of energy for the sealing of your third eye, for the inner vision to be quickened and for you to fulfill your divine plan in this age, even to bring you closer to your twin flame and also to remove from you false teachings of false gurus.

Therefore, the crystal is a tool of you, of the adepts and of the Masters. And I was saying, it is a molecular chalice. I'll show you this piece of rock crystal. This is crystal quartz. Why do we use it? Why is it become the fad of the New Age? Why do we associate crystals with it? Well, the real reason is that it goes back to Atlantis and Lemuria. It goes back to the High Priest in Israel. He wore a breastplate. There were twelve stones on this breastplate, and each of those twelve stones was for the initiation of the twelve tribes who had to fulfill the Christ on one of those twelve signs of the zodiac as a path of initiation.

When I say that this is a molecular chalice I mean precisely that. This has a chemical formula of its molecule containing metals, elements, whatever it is made of, and that precise formula defines this as crystal quartz, something else as amethyst quartz, something else as rose quartz, as an emerald, a sapphire, a garnet, and so forth. All of those stones, then, are molecular chalices. They carry a vibration in the physical, in the negative polarity, which becomes a vessel and a magnet to draw the exact counterpart of spiritual energy in the plus polarity.

So, they serve as adjuncts to our development of our chakras. We can place a crystal upon our altar where we meditate and pray. And you should have a little altar, nothing fancy, a little table, with a little cloth on it, a Chart of the I AM Presence to visualize your divinity, the sponsors of the Piscean and Aquarian dispensations, these pictures of Saint Germain and Jesus, and a crystal, symbolizing the chalice that is you.

As you pray at that, at that altar or you may give your yoga in the same room, you give your de, dynamics decrees, it becomes a consecrated place, it's consecrated by you, it's consecrated by your Holy Christ Self.

Abraham, Isaac and Jacob would also raise an altar wherever they went. Moses as he wandered through the wilderness with the children of Israel, they would always immediately erect the altar, put the ark in place, the Holy of Holies where they would camp. So wherever you camp

you raise that little altar.

So a crystal, then, becomes a chalice of Light. And as you repeat mantras and you feel that light flowing through you, that light can actually coalesce or crystallize in the focus of your choosing.

So, when I went out on this lecture tour of the United States, beginning October 1st, speaking in the cities across the nation, I asked the Lords of the Seven Rays (who are the sponsoring Masters of our path of individual Christhood) what was their assignment. And they told me that in addition to giving the basic lost teachings of Jesus and the prophecies of Saint Germain that they wanted to send out in these troubled times, where many prophecies are coming upon us, a crystal, a gemstone, that would be charged with their ray and vibration so that individuals could identify the path and the ray of the service that they with their twin flame chose in the beginning in the Central Sun, after going through the seven spheres and the five secret rays, so that they could reacquaint themselves with that ray and be accelerated on the ray of their greatest strength and their chakra of the greatest strength.

And this you can discover by looking at yourself and seeing how you relate to the seven Masters I am going to tell you about now, how you feel about their color, their vibration, their ray, their past lives, and what they tell you about yourself.

You actually have a major ray and a minor ray, something that you've really accelerated on and then a secondary ray that is supportive. So, two of those seven rays you probably have a great development on. So, I am going to tell you about the Masters and I am going to tell you about their rays.

So, what they assigned me to do is to gather the best and finest qualities of crystals and gemstones. The most expensive gemstones--diamond, sapphire, ruby and emerald--are all laboratory made. Some think they're not as good, but you see they have the same molecular structure, and that means they can carry the same vibration. So they are very easy to be acquired because they are very inexpensive. So I've collected from around the world, from the East, from the Middle East, from South America, the finest qualities of these.

They were brought to the ranch, to the altar. I made the invocation to the Lords of the Seven Rays as they instructed me to do, because that spoken word needs to come from this level. And as I called forth the

light of the blessing of these and the charging of them I saw the most magnificent waterfall of light descending, as crystal light, as a waterfall, with rainbow rays descending into these stones.

And these Masters, all of them Ascended Masters, explained to me that as the individual acquires that stone it becomes a tie between himself and the Master who uses it, and as he gives the violet flame and raises his vibration the Master can increase the charge of that stone. So that is why you see in the foyer these various precious and semiprecious stones and crystals along with the pictures of the Masters.

Now, one thing I would like to tell you before I set this crystal down is that when you acquire crystals anywhere, with the exception of these which are all charged by the Masters, but if you acquire jewelry or if you have already done so, you need to remember that anything that is part of the earth body is in vibration with that earth. And in the earth today there is a very serious weight of world karma. It may not be your karma, but we live on this planet, and we live in it, so that something that comes out of the earth is not immune to it.

Al, also used jewelry, antique jewelry, things handed down to you need to be demagnetized because they contain the vibrations of the wearer. And unwittingly you may become burdened by those vibrations. So, we don't get a crystal and charge it, we get a crystal and demagnetize it. And when it's demagnetized then we charge it.

So, I am going to demonstrate to you how I would charge, demagnetize this crystal and then charge it. First of all the two hands, again chakras--look at your hands, the very palm of your hand, in that center is a chakra, and in the five fingers, those five rays go forth from you.

Now, those of you who are involved in healing, any of the, the alternative healing methods of the New Age, the lost arts of Jesus' healing, as well as standard medical profession, you can take your two hands and place them on the balance of the form, like one on a foot of each person. You reflexologists, you know what I am talking about about sending light through those nerve centers. You can put two hands on someone's shoulders, on the back, and, or take their hands and you can call for the light from you to activate and intensify in them, especially even in an emergency situation while you are waiting for professional help to arrive.

So through our two hands, the reason that we can do this is that from your Mighty I AM Presence there descends the light of Alpha in your

right hand, the light of Omega in your left hand, plus/minus. It's like plugging in. The two hands convey, then, the wholeness of the current of God.

So remember, you are not healers, you are instruments of the divine healer. I can't heal anybody, but God heals people through me, and that's what we have to remember. So, I take my two hands and I could charge a glass of water even as I would charge this crystal. But this is for demagnetization but it's the same position. The Omega holds the bottom, even as you would put your hand under a glass, and the Alpha goes on top.

So now I am creating a closed circuit around this crystal. I am going to call to God to demagnetize it by the great sphere of white fire-- which we'll go back to now. Actually you can put the large crystal on the screen, which will be just as good. The large crystal you are about to see is on the altar at, of the chapel at the ranch.

The Great Central Sun Magnet is what I want you to remember. I want you to remember that wording, because it's the Great Central Sun Magnet that demagnetizes anything.

So I will call in the name of my I AM Presence and Holy Christ Self-- you all have an I AM Presence and Holy Christ Self, you all have a throat chakra, you can all make the Call because you all have a divine spark. And I am going to use the light of my Presence, the instrument of my seven chakras as well as the sacred breath for this demagnetization. This is a sample call that you can give as well.

In the name of Almighty God, in the name I AM THAT I AM, I call forth light! Demagnetize, then, this crystal. Demagnetize it of all vibration, out of balance, out of alignment, all karmic records of the planet or the area where it has been, all hands that have touched it, all human vibrations, anything less than the Christ. By the power of the Great Central Sun Magnet, let every atom and molecule of this crystal be demagnetized now.

By the power and light of the Seven Rays, I call it forth and I decree it. [12-sec. pause] And I accept it done in full power and I thank thee, O God.

---

This is cleared just as you would clear a computer. Now, you have an empty vessel. By the same process day by day through the violet flame and the chakra meditations you are clearing the crystal of self. The

greatest crystals that you can ever have are your own chakras, and the greatest crystal of all is you. You are God's crystal of himself. In fact, you are the crystallization of the God Flame. You are the Christ realization of that flame. So, crystals are tools until we contain, can contain that magnitude of light.

Now, I am going to call for this to be charged. And my favorite thing is to call for quartz crystal to be charged with the light of the Divine Mother and to receive my devotions that th, the momentum might build. As you establish an altar if you invite the angels they will tend your altar, they will come and minister unto you. And when you enter the room where your altar is you will feel a holiness, a holiness because your mantras are building in the crystal and you have the focus the Master has blessed. You have placed your altar in the wilderness and it's the place where you commune with your I AM Presence.

#### **INVOCATION:**

Lord God Almighty, in the name I AM THAT I AM, I call to the Divine Mother. Charge and charge and charge this crystal with thy healing power. Intensify in it thy ray and flame.

O beloved Mother Mary, O Kuan Yin, Sarasvati, Lakshmi, Durga, Kali, come forth now. Come forth, O sweetness of the Divine Mother. Charge it by thy holy breath. Charge it by thy holy breath. Charge it by the white light of the seven rays.

By the cosmic cross of white fire I accept it done this hour in full power and I thank thee, O God.

I would like to run through these Masters. We are always under the cudgel of time. People say to me, "What do you talk about for five hours?" [laughter] I say, "Well, just come and see." [laughter]

Here's El Morya. Here's the Lord of the First Ray who called me to be a Messenger and trained me. And this beloved El Morya trains you on the First Ray of God's will. His chakra is blue, it has sixteen petals. His retreat is the Temple of Good Will in Darjeeling, India.

Now, the *Lords of the Seven Rays* is a book on the mystery of God, on God's Mystical Body, all of us. And I tell how Jesus introduced us to these seven Masters long before we knew they were Masters.

El Morya, then, uses the **diamond**, the **sapphire**, the **star sapphire** and the **lapis lazuli**. You'll see these in order as they come through now. He also uses quartz crystal as all Masters do. He uses all of these to focus the ray of God's will.

**El Morya** was embodied as **Abraham**. **Abraham**, you will recall, met **Melchizedek** after he was victorious in battle. He tithed to him, the great initiate, Melchizedek. He was **Melchior** the wise man, one of the three. It was Djwal Kul, D.K., Koot Hoomi, K.H. and the Master M, El Morya who were those three wise men who by astronomy **followed the star**. And the star over Bethlehem is the Great Causal Body of the I AM Presence of Jesus, so intense that it could be seen. The star of your causal body announcing the birth of the Christ in you is over you now.

Morya was **Arthur, King of the Britons**. He was **Saint Thomas Becket** and **Saint Thomas More**. And he was **Akbar**, the great Mogul emperor of **India**. He was a statesman. He is a First Ray person of a mercurian mind, quickness in action, always practical, always organizing to get things done.

If you have First Ray qualities you have an extraordinary energy and power, you are in action constantly and you are a person that can always organize, administrate. You may be in law, you may be in any area of life, but you are active, and you love the inner blueprint of life and you love it as the will of God whether you call it that or not.

El Morya trains you in the mastery of the power of the spoken Word and being a co-creator with God.

We're going to take a break shortly and I am going to give you a wonderful meditation of El Morya when we return. So that's the path of the First Ray Master.

The **Second Ray** Master is **Lord Lanto**--the quietness of wisdom's flame, the Second Ray and the **crown chakra**. The **color** is **yellow**, the **petals** are **nine hundred and seventy-two**. That's why it's called the **thousand-petaled lotus**.

Lord Lanto lived on **Lemuria** as a **high priest in the temple of the Divine Mother**, and today he uses the **Grand Teton** in **Wyoming**, where there the Royal Teton Retreat is, to teach souls. He trains us to receive gifts of the Holy Spirit, the **Word of wisdom** and **Word of knowledge**, even as Morya trains us to receive the **gift of faith** and the **gift of wisdom**.

Lord Lanto uses the **yellow diamond**, the **yellow sapphire**, the **topaz**

and the **citrine quartz**. These are all used to focus and tu, attune and quicken your crown chakra. At Summit University, which is a twelve-week retreat you can spend at the ranch studying these, these teachings, there is a yellow topaz that is used for the touching of the **crown chakra** and the quickening of that chakra by **the Holy Spirit**, the Great Lord, the Maha Chohan.

Lord Lanto was a contemporary of Confucius and Confucius considered himself his pupil. He was the Yellow Emperor, **the Duke of Chou**, and he wrote *The Yellow Emperor's Classic of Internal Medicine*. It discusses the balance of energies and their **transformations** through the body **in the macrocosm and microcosm**. And based on its teachings the macrobiotic diet has come down to us from that ancient understanding of our bodies.

He is one who sponsors teachers, sages, philosophers, those who love to study and give knowledge and carry that illumination forward. They are the repositories of the wisdom of civilizations. If you are a teacher or a student or love to study and learn, you have development on the Second Ray. And you find the Second Ray a relief from the First Ray which is so active energetically, and this is the quiet contemplation and going within. And then, when we have the wisdom, we need the First Ray to put it into action. So that's the nature of Lord Lanto.

**The Third Ray** is **Paul Venetian**, who was an artist on **Atlantis**, in **Peru** and in his last life as **Paolo Veronese**. His is the **heart chakra**, twelve petals. The color of the ray is pink. His retreat was the **Château de Liberté** in **southern France** that looks something like this castle we're seeing. But he holds **classes in the Temple of the Sun over Manhattan**, which is the great shrine of the Divine Mother of America, who is known as the Goddess of Liberty. And the statue there marks the place of the great retreat that is over New York, the Temple of the Sun that was once physical on Atlantis.

Now, these retreats I am speaking of from where the Masters teach are in the etheric octave. They once were physical in past golden ages. As the vibrations of earth declined they were withdrawn to the etheric plane. The etheric plane is just as concrete and physical, in fact more concrete, than where we live right now.

You are probably here because your soul in your finer bodies has been journeying to these retreats for many years, and you are seeking to find here what you are learning at night because you don't quite remember

it all, you just get snatches and bits of it as intuitive flashes.

Now, these Lords of the Seven Rays have opened their seven retreats as universities of the Spirit, and in an unprecedented manner at the end of this age of Pisces are receiving tens of thousands of souls studying there nightly.

If you desire to study at their retreats and you have a little decree session before you go to bed and some meditation, maybe fifteen minutes, and you call to the angels of Archangel Michael to come to you and escort you safely in your soul, in your finer body to the retreat of your choice, and you may have a picture of it in your bedroom so you can visualize the Grand Teton or you can visualize Darjeeling, India, where El Morya teaches, and you put your head on your pillow, you welcome the angels, you go to sleep, and after you are in a very deep sleep your soul then makes that journey.

So for those who don't quite remember what they are learning, what we have done is the Masters have trained us as Messengers, and Mark and I have written over fifty books of the Ascended Masters' teachings. So, there is a wealth of knowledge and understanding, and when you read it you will remember it. The reading is like the quickening.

All people, I would say 90 percent of the people who read our books tell me this is what they have believed all their life but no one quite focused it, put it all together, did the research and made sense out of it. So, I know that these teachings are the foundation of Aquarius and they are our free and glad gift to all people with no strings attached.

If our organization meets your needs you're welcome in it; if it doesn't, that's fine. I am here as a sister on the path with you to help you if you need my help. Our goal is to put your hand in the hand of your Holy Christ Self and in the hand of the Ascended Masters and help you over the astral sea of your karma during that period when difficulties arise.

Now, besides the books, the Masters hold twelve-week retreats called Summit University to actually study physically, then, in a structured course and environment what we learn at inner levels.

The most important retreat coming up is the Fourth of July conference at the ranch from about the 29th of June through the Fourth of July. Mark it on your calendar because it's the greatest place in the whole wide world to spend a vacation. It's 33,000 acres of ranch, high-mountain country next to Yellowstone Park. There's plenty of vacation sites in

the area besides this conference.

Last year 4,500 people attended. They come from all over the world. There's nowhere you can meet finer Aquarians. New Aquarians come together for the healing of a planet. We give lots of mantras days on end directing them into the earth body to hold the balance of the earth for earth changes and into the astrological configurations and prophecies that are coming upon us.

Now, getting along with these Masters a little bit quickly so I can give you a break now.

The Lord of the Third Ray teaches the path of love and he teaches at this Temple of the Sun, which is the temple of the Goddess of Liberty. He uses the **ruby**, the **diamond**, the **garnet**, **rose quartz** and **pink beryl** for the strengthening of **the physical heart**, the purification of the blood, the refinement of the consciousness that is in the blood, and the development of divine love in your temple, the expansion of divine love.

He is the great artist. And if you have artistic talent, even if it's undeveloped, if you love beauty and you love love and you love to be expanding your heart and directing light, if you are creative in any sense of the word, you have elements of the Third Ray of God's love and divine art and beauty. It's the ray where you realize the Holy Spirit.

**The Fourth Ray** is the **base-of-the-spine chakra**, the white light of the Divine Mother, the Master is **Serapis Bey**, the great Master of the pyramids whose retreat is at Luxor, Egypt. He bore the flame of the ascension from the ascension temple on Atlantis before Atlantis sank, and he carried that flame to that place of safety and established his retreat. He reembodyed there as the **Egyptian pharaoh** onum, **Amenhotep III, 1417 to 1379 B.C.** He brought Egypt to its height of diplomatic prestige and prosperity.

He is the divine architect. If you ar, are an architect and love excellence and inner design and are always seeing the inner design of an event or of a building or of an invention or of yourself, you love Serapis Bey because he is pure white fire discipline, and he, he teaches you the highest levels of excellence. He built the **temple at Luxor** and it is a **book** that explains the secret functions of the organs and nerve centers.

He was **Leonidas the king of Sparta** in **480 B.C.** He and 300 of his countrymen defended the pass at ther, of **Thermopylae** against the invading army of the Persian king **Xerxes**. They stood fast in their white fire and

they gave their lives for the continuation of their country.

Serapis Bey uses the **diamond**, the **pearl**, the **zircon** and the **quartz crystal**. His is the path of the ascension. He receives you at Luxor to prepare you for your ascension in this life. And men of you here have received before you came into embodiment the annunciation that in this life you would reunite with God, that this is your final incarnation and that you would find the Path and the teaching to enable you to ascend at the lawful and natural conclusion of this life. This is the path of the devotion to the Divine Mother, as we said before.

We go to the **Fifth Ray, Hilarion**, who was embodied as **the apostle Paul**. The Fifth Ray is **the third eye**, the **emerald**, the **jade**, the **diamond** and **quartz crystal**. The **retreat** of Hilarion is at **Crete in Greece**. He teaches us to receive the **gifts of healing**.

In my book I have gone into detail of the life of the apostle Paul and his next embodiment after that as **Saint Hilarion**, who was a great **healer** in his day. He made his ascension at the conclusion of that life. He passed on in **371 A.D.**

Those on this ray are musicians. All musicians are on the Fifth Ray. It's the ray of music, sponsored by the Elohim of music. It is the ray of science, mathematics, wholeness and all related fields of health. It's the ray of divine vision for precipitating in the physical what we see with our inner vision. The Fifth Ray is the ray whereby the first three and the fourth become physically manifest. It's the ray of technology, of applied science.

People on this ray have energy and zeal and they have to be bringing things into form. They love green. They love plants. They simply love science in all of its wonders and aspects.

The **Sixth Ray** is the **Lady Master Nada**, the **solar plexus** that is **purple and gold, ten petals**. She uses the **topaz, ruby, alexandrite** and **diamond with pearl**. She was at one time the Master of a healing temple **on Atlantis** that exists today in the etheric octave over New Bedford, Massachusetts, and the entire Massachusetts area. You notice many, many medical centers are there. That is the influence of that retreat. She also was an attorney and a judge. She defends the oppressed and the poor.

This is Jesus' ray and the ray of the Sixth Ray of Pisces. And on this ray this is people helping people, public servants, those in social

services, counseling, psychology, family problems, children's problems. People who always have to be helping other people love the ray of Nada.

Each one of these allows us to realize our Christhood in the area of activity that we love most and do best in. So we're not all carbon copies of Jesus by any means. Some people can't identify with living a life like Jesus but they can identify with living a life like Pythagoras or like Saint Francis or like any one of these embodiments we're talking about, devoted to the bringing forth of excellence.

This brings us to the **Seventh Ray** and the **seat-of-the-soul chakra**. And I told you about Saint Germain's embodiments when we began this evening. He was always a scientist. He was also **Roger Bacon** in the **13th century**. And those who love Saint Germain love freedom and use freedom to liberate others. They are free spirits, they are achimator, alchemists, they are inventors, innovators, they always have the new and avant-garde approach.

If you're an Aquarian in this age, you're right in sync with the age in this initiation of your embodiment. I've sa, have some Aquarians in my family and they always amaze me at the uniqueness of their approach to anything. They always think of the thing that nobody else thinks of.

Now, this is the priesthood of the Seventh Ray. Melchizedekian priesthood involves the priesthood of science and religion, both are the qualities of those who administer at the altar. It is the ray of science and New Age science. Francis Bacon is the father of inductive reasoning.

Saint Germain, then, is the great liberator of the age. He comes in diplomacy. He comes to manifest through all walks of life with the spirit of freedom.

Having so said, I invite you to sing to the Lady Master Nada and take your break and get some fresh air, have a good time and be sure to come back. [laughter] The best is yet to come. Nada's song is on page 8. Roll it, please. You can sing it or just listen to it as you go. [song 232 (Mantra booklet #31):]

**A river eternal is flowing  
With beauty and light from the sun  
And Nada, our chohan, is singing  
"Awaken to love, every one!**

**"O gently, I would have you feel it  
That precious pink flame in your heart  
That seals the great fire of perfection  
Of Godhood from Love's own great heart.**

Refrain:

"Come! my dear ones  
 Your voices blending  
 Step through the veil  
 To Life without end  
 Each heart that waits for love's true  
 expression  
 Shall feel that oneness forever endure."

O search throughout life 'til you find it  
 For love is the nature of God  
 To know him as love will transform us  
 Inspire us to live 'neath the rod.

Thy service in love, precious Nada  
 Will nourish the flame in each heart  
 The beauty of God's ministration  
 Thy angels forever impart.

Refrain:

Thy flame of Peace  
 Sixth ray of cheer  
 Flows from thy heart  
 Devotion's sphere  
 Jesus, our Lord, the true Way adoring  
 By Cosmic Christhood illumines the Law.

O Harmony, take thy dominion  
 Attend us each hour of the day  
 Thy heavenly melody flowing  
 Composes a love symphony.

We call forth God's praise and his blessings  
 To you, dearest teacher of love  
 Now help us exalt our blest Father  
 To live in the Christ light above.

Refrain:

O let thy pow'r  
 To image right  
 Now bring to all  
 Divine delight  
 God bless thee, lovely Goddess divine  
 Our love with thine shall evermore shine.

[Messenger exits platform; 35-min. break with video slide shows;  
 Messenger reenters platform.]

God's real in you, "God's Real in Me." Let's say it. Thirty-four,  
 page 34 in your Mantra booklet, the very last page. If you're stuck on  
 the floor and can't move, you don't have to stand but the rest of [laughter]

you can stand. [laughter; "we're stuck;" audience response] It's in the Mantra booklet, it's page 34, inside the back cover. This is a New Age folk song. Roll it. [song 797 (Mantra booklet #102):]

I have a keynote, a great divine plan  
That sings in my heart and says who I AM  
It swells in a chorus that echoes from far  
Saying, "I love who you are!"

With the masters beside me to show me the way  
My I AM Presence to light every day  
My own inner Being's as free as a dove  
Feeling the warmth of God's love.

God's real in me, I know it's true  
And that same God is in you, too!

I wake up every day with a smile on my face  
So glad to be one with the whole I AM race  
To rise with the sun, flaming joy in my heart  
Eager God's love to impart.

Saint Germain stands--so close at hand  
Blazing the violet flame over the land  
Its use is the key to your Reality  
Helping you find your real 'me.'

With violet flame I can challenge all strife  
Be helpful, courageous, a champion of Life  
To give to God's children what he's given me  
Because I'm glad that I'm free!

God's real in me, I know it's true  
And that same God is in you, too!

I am joyous, victorious, with God I'm in love!  
I am soaring, ascending on the wings of a dove!  
Every angel I meet, Gurus, chelas can see  
That I'm glad, oh, I'm glad that I'm me!

Coda: I'm glad that I'm me  
I'm glad that I'm real  
I'm glad that I AM really God

Thank you. Won't you be seated. If you turn one page back you're going to find a wonderful New Age song called the "Evening Star." Venus, the star of love, is a planet where many of you have spent lifetimes. And the Great Guru Sanat Kumara who came to earth to restore our memory of our threefold flame long ago is the hierarch of Venus, and his divine

complement is the Lady Venus, and she is a great Divine Mother.

So Henry Wadsworth Longfellow wrote this poem, "The Evening Star" to Venus, and our New Age musicians put it to music. And it's a wonderful meditation on love and the angels of Light and brothers and sisters of Venus who are there in the etheric octave today. [song 557 (Mantra booklet #97):] It's 32. [over music]

Lo! in the painted oriel of the West  
 Whose panes the sunken sun incarnadines  
 Like a fair lady at her casement, shines  
 The evening star, the star of love and rest!

And then anon she doth herself divest  
 Of all her radiant garments, and reclines  
 Behind the sombre screen of yonder pines  
 With slumber and soft dreams of love oppressed  
 With slumber and soft dreams of love oppressed.

Hesperus! Ah.....  
 Star of love! Star of love!

O my beloved, my sweet Hesperus!  
 My morning and my evening star of love!  
 My best and gentlest lady! even thus  
 As that fair planet in the sky above  
 Dost thou retire unto thy rest at night  
 And from thy darkened window fades the light.  
 O my beloved, my sweet Hesperus!  
 My morning and my evening star of love!

O my beloved, my sweet Hesperus!  
 My morning and my evening star of love!  
 My best and gentlest lady! even thus  
 As that fair planet in the sky above  
 Dost thou retire unto thy rest at night  
 And from thy darkened window fades the light.  
 O my beloved, my sweet Hesperus!  
 My morning and my evening star of love!  
 Star of love!

We will shortly relate this music to the story of our twin flames, but right now I'd like to introduce you to a number of people who are going to talk about the groups who study the teachings of the Ascended Masters here in San Diego and in southern California. Won't you come forward all of you who are going to speak--Dr. and Mrs. Michael Brown, the Jedds, Mr. and Mrs. Jedd.

It's such a, a great thing to see all of you wonderful people here tonight and it's just a real, real joy. And we're so glad that, that you could come, Mother, and be with us and really give us another spin so that we can accelerate into the light.

We have a local group which meets in Kearny Mesa. It's strategically located to try to be accessible to as many people as possible between the different freeways. We have lots of activities there, and we would urge you if you feel so inclined to come and join with us, and we have a number of services which Susan will tell you about. It is an opportunity to study the teachings further. We have video tapes. We have the, the latest releases that are given forth. And we also have a number of prayer services whereby we can apply that which we have learned by releasing that light of our causal bodies, our I AM Presence, so that we can see that transforta, that transmutation take place in our world.

And you know that light that each of us have is a light that, that, that only we have the key to unlock, and if we do not unlock it the world will be poorer without it. So please come, join us, learn how to do the decrees. And I would urge that there is nothing greater than, than the service that comes through blessing life with that light of the Christ Self.

**Susan Jedd:** We have some flyers. If you didn't get one, be sure and pick one up before you leave on the regis, registration table out front. One of them tells about the Study Group and gives the schedule of our services, and I'll just tell you briefly what they are.

Our, our public services are--Sunday morning at 10:30 is our worship service, and on Wednesday evening at 7 p.m. our Jesus' Vigil of the Hours. On Thursday evening at 7:30, we have an introductory class.

We also have some services for Keepers of the Flame, and on Sunday we have an early morning service at 8:30, which is a prayer vigil for Keepers of the Flame, our Friday night ascension service at seven o'clock and our Saint Germain service on Saturday at seven o'clock for Keepers of the Flame.

The other flyer that you should pick up before you leave is this little pink schedule of classes which tells what we will be studying in the next month in our introductory Thursday night class.

On February 25th of this week we'll start with "Saint Germain on World Changes." On March 3rd, "The Lost Years of Jesus" part one, March

10th, "Lost Years of Jesus" part two, March 17th, "The Lost Teachings of Jesus" part one, March 24th, "The Lost Teachings" part two and March 31st, "The lo, Lost Teachings of Jesus" part three.

So, this is a great way to learn in more depth about these teachings, and we get together on Thursday night to do that. So, I hope you'll all come and visit us. And if you have a chance stop by and say "hello," after you leave tonight and maybe we'll get to know you. Thank you.

**Michael Brown:** Well, good evening, my name is Michael.

**Kay Brown:** Oh, excuse me, and I am Kay.

**MB:** We have come down from the Los Angeles area. We have a Study Group area in Los Angeles that meets. We have a meeting place very near the 405 freeway and Roscoe, I confuse that with Balboa, it's right between Balboa and the freeway and right off Roscoe.

Now, I know a lot of people who love to come down to San Diego from Los Angeles, I am not quite so sure how many people in San Diego [laughter] go up to Los Angeles, but if you're up there or so inclined we, we'd love to have you.

We're, we have planned a special Sunday, this coming Sunday, that's what four days away, on the 28th, whe, our service begins at 10:30 there at the Sepulveda meeting place, the address and directions are in a little, well, any one of these three handouts. They're together with the San Diego handouts at the registration desk. And then we're, we've planned a brunch.

Now, this brunch is sponsored in a large part by the Inn of the Seventh Ray, and they're famous for their quiche. I've, they have wonderful quiche. So you're certainly welcome to come up this Sunday. It's going to be wonderful weather and, and we'd welcome you there.

**KB:** I would just mention that the handouts that we will have available on the free literature table include this green March calendar, and the most clear directions to our center are on the bottom corner of this calendar.

The services that we have are very similar schedule to the ones here in San Diego, and the details are on this calendar. We also have a lecture series. They're held at our center on Friday evenings beginning at seven o'clock. And the first one on March 4th is "Cosmic Astrology for the Aquarian Age," March 11th is the "Lost Years and Lost Teachings of Jesus," March 18th "Twin Flames and Soul Mates," and March 25th, "Fátima and

Medjugorje." So we would welcome any and all of you who feel like making that trek to Los Angeles, perhaps some of you live closer up that way and just had the opportunity to come down here tonight.

Do you want to [inaudible]?

**MB:** Well, I'd just like to say that having been, been brought up in morm, Mormonism and practiced Buddhism for awhile, I personally feel like I, I have really come home a, a with Church Universal and Triumphant. It's a, been a, it's a wonderful teaching and wonderful experience, but without the people that I have met in the group I would not have been able to, to continue the practice in all probability. The impact, the positive impact in my life has been enormous. So, after tonight please make every effort, and I am sure th, that, to contact the people in the San Diego area or close to your home, and make that connection. Thank you very much.

**KB:** I wanted to insert one more comment. This pink sheet that we will also have on that table is, does include a list of community groups from close to Santa Barbara down to, through Orange County, closer to San Diego. So if you do live north of here or have friends or family who are north of this area, take a look at this community group list and know that there are lots of friends there who can be contacted.

These groups have Wednesday evening services, sometimes they have the Jesus' Vigil on other nights of the week, and there are discussion groups, so there are plenty of local groups throughout the southern California area where you can plug in close to home.

The other side of this pink sheet has a lut, a list of cable television programs that you can tune into at home also.

**SJ:** That's what I forgot to mention was the other thing that's on this flyer is a list of the different cable stations, whether you get Daniel's cable or Dimension cable southwest or Cox, and that carry Mother's programs. So you'll want to watch for those. So be sure and pick up one of these flyers when you leave. Thank you.

**FJ:** Thank you very much.

**KB:** We look forward to meeting you. [3-sec. applause]

**Elizabeth Clare Prophet:** Thank you. [5-sec. applause]

Another quote from the *Gospel of Thomas*, the secret Gospel, finds Jesus saying the following: "'Let him who seeks continue seeking until he finds. When he finds, he will become troubled. When he becomes troubled, he will be astonished, and he will rule over the All....'"

That to me is an amazing statement. The All is your I AM Presence and the causal body that surrounds it, and the meaning to rule over the All is that through the science of the spoken Word and your heart flame and that Christ Self of you, you can direct the light of the All very specifically into world conditions, which means it is you who decides and determines how God's light will manifest on earth as his son. And so that puts you in the driver's seat here below. You're in the driver's seat, and therefore you take dominion in the earth and do so by accessing the light of the All.

**"The Kingdom is inside of you, and it is outside of you. When you come to know yourselves, then you will become known, and you will realize that it is you who are the sons of the living Father. But if you will not know yourselves, you dwell in poverty and it is you who are that poverty'....**

**"Jesus said, 'Recognize what is in your sight, and that which is hidden from you will become plain to you. For there is nothing hidden which will not become manifest.'"**

The story of you and your twin flame cycling through that causal body is what we return to now because we desire with all of our hearts to attain the fulfillment of the two greatest longings of our life--first, the reunion with God and secondly, the finding of the beloved twin flame.

You may know your twin flame. You may be blessed with having been a part of that person in this life or recent embodiments. You may not know your twin flame. Your twin flame could be an Ascended Master which why, is why you are so eager to discover that truth and to embody it, because you have a Master who is the other side of yourself who is sponsoring you and continually, and continually pulling you up higher. That is a great vantage place to be in.

You could be the one half of the whole today that is more enlightened and more advanced on the path, and your twin flame could still be lost out there somewhere locked into this or that karma or entanglement.

But we are talking about the relationship of twin flames now in the white fire body and the fact that we are one because we have an identical inner fiery blueprint. When we were created as two halves of the divine whole we were given a unique blueprint, one in the plus and one in the minus. There are no other two people in all of cosmos, no others that have ever been created with that identical inner blueprint. And it is in

the manifest, in the highest causal body of your being and comes through at all planes of manifestation.

So, it is natural to be one with the twin flame. And we serve together, after we selected the major ray that we would go forth and use to offer the gift of our love on the altar of evolutions of worlds--the first, the ray of the major, the ray of the minor, those two rays.

And in past golden ages before the fallen angels rebelled against God, were cast out of heaven and took a lot of souls with them into lower planes, we dwelt with our twin flame in the octaves of life, of light in golden age communities and civilizations.

There are twin flames who never have descended into imperfection. They came forth out of the Spirit sphere of that Great Causal Body and they went forth with twin causal bodies. They descended into the Matter sphere but they came no lower than the heaven world of this Matter sphere, which is called the etheric octave, and that's where the retreats of the Brotherhood are that I was telling you about.

In 14,000 years, 2,000 year embodiments apiece for seven ages, we could realize and fulfill the seven planes of our being and endow the Matter universe with our love, our fire and our creation, and we could ascend back to the heart of God never having entered into a karma-making situation. We are always wed to one another. Opposite incarnations put us as male or female, and this is the ideal state whereby God has created the issue of himself to represent the Father-Mother principle of life.

There is a legend in every world religion and simply general legends on the planet about the coming of aliens or fallen ones. There is the record even, in Revelation 12 where Michael and his angels cast out the devil and his angels, the dragon.

And it seems that this Archangel Lucifer, when God presented to the whole company of angels and heavenly hosts the birth of twin flames, of his son and daughter, as these angelic hosts had been created to minister to us and teach us, there came a time when this Archangel rebelled and said, "I will not serve your offspring, I will not minister to your children, I preexisted them. I am greater than they are, and furthermore I can run the universe better than you, God, and better than your sons and daughters."

So this is the act of the great rebellion, the denial of the Universal Christ in the issue of God, in his children and his twin flames. And that

great rebellion is the definition of Absolute Evil because it is the denial of Absolute Good or the Christ in you.

There is Absolute Good in this cosmos, and it is God and every emanation of himself that is in us. And there is Absolute Evil in those who have made war against him and against the Divine Mother in heaven who gives birth to the Manchild recorded in Revelation 12. The Manchild is the Universal Christ.

So, that Absolute Evil in these angels is a given and a fact of life that we have to deal with as we enter the New Age. Remember, the war began in heaven in the etheric octave with the great rebellion, and God and his angels saying, "This evil may not abide in this high vibration, it must be cast down to the lower vibration."

So, they were cast down into the earth into this dense Matter that we are now in. And they were cast into physical bodies such as we now wear. And then the warning is given in the Book of Revelation and it says, **"Woe to you, ye inhabitants of the earth, for the devil is come down to you, having great wrath, for he knoweth that he hath but a short time."**

This activity, then, of these fallen ones coming into the earth has the second prophesy, which says that the fallen angels went to make war with the Woman and her seed. So the seed of the Woman or the children of the Divine Mother in the earth are the butt of these fallen angels who from the highest state from which they fell have retained a certain power. They occupy power in the earth in the establishment, in the banking houses East and West, in the governments of nations, in the control of people, economies, populations. They're in control in more places than you realize.

We all have a sense that there's an establishment there, there's an order of people who somehow control things who don't always have our best interests at heart. Well, now we can define a certain lifewave and evolution and understand that no matter how they look or how they smile and glad-hand and make all their campaign promises or whatever else they're doing--and I am not saying that any of those candidates may be in this category, but they certainly have been from time to time--they always act against the expansion of the light in the people and for their gain of money and power and control.

So, we've been watching this in all walks of life for centuries. And if you study history you can always see that certain key individuals were responsible for the downturn of civilizations--the fallen angels.

And certain key individuals have been responsible for the moving up of civilizations and they are the great Christed Ones who have come to save us from these fallen ones.

Today it is our hour to raise up the light within ourselves to be true shepherds and ministering servants.

What happened to us, then, as we were in the first octaves of light, the etheric plane, is described in the allegory of Genesis. The Garden of Eden is a mystery school. The Lord God who walks and talks with us in it is the Cosmic Christ, and Adam and Eve are archetypal profiles of twin flames. In fact, there were many twin flames in this and other mystery schools.

The ones called serpent are fallen angels who had great attainment in the raising up of the Kundalini and the sacred fire in the temple. And that is called the serpent fire, so they're called serpents. They had the mastery of the crown chakra and they turned inside out the mind of God and used it for philosophical systems, political systems, all kinds of perversions of the true Path to enslave us. They came with their initiation, the fruit of the Tree of the Knowledge of Good and Evil and offered it to us before we had partaken of the fruit from the teacher, the living Guru.

Had we received that knowledge after the realization of our full Christ consciousness, it should not have divided us. But because the false guru and the false initiator moves in just before the true initiator is come, and that happens in every century, that fruit and partaking of it gave us the sense of duality and relativity, like two-eyed vision, no longer seeing the pure Absolute Good. And with that lowered vision and that sense of relative good and evil we descended, we lost the etheric estate and we felt naked because we were no th, longer clothed upon by the light of that living teacher and the light and the path of initiation.

So, we were sent into a lower density and instead of how, now learning our lessons by the teacher who would teach us right and wrong, good and evil, and take us all the way through in understanding of Absolute Evil but without the necessity of experimenting with it, experimenting with unreality as we do today. So, the choice of free will that we exercised is to learn our lessons by our karma instead of directly face to face with the great Master who was our teacher.

So, the words in Genesis is that they were sent from the Garden lest

they should eat the fruit of **the tree of life, and live for ever** in their imperfect state. The highest initiation we can receive is to receive th, the fruit of the Tree of Life. So, we learn by the law of karma, by cause and effect, by trial and error, by free will, in a state of ignorance, clothed upon with our own density of centuries of karma.

Now, what happened to us in the course, we went forth and when we left Eden we were together with our twin flame, but as the lifetimes unfolded and we got mixed up and entangled with this and that fallen one or fallen angel, we made karma with other people. In making that karma we either had to be in their families or be with them. What happened to us is we got separated from our twin flame, and as embodiments succeeded and the mists of forgetfulness came upon us we forgot all about that mystery school, about our origin in the Great Central Sun, about our journey through the great spheres of light, about why we got into this condition here below and how we were going to get out of it.

And that's just about where we find ourselves today. And with the dawn of Aquarius, the quickening, the enlightenment and the sense of that beloved twin flame, and the sense of our God, we're about to turn around and walk that pa, that Path all the way back home, retracing our footsteps.

The going out is easy, but when we turn around and go back we are retracing those footsteps of our karma and we have to transmute it every step of the way. So, it seems to be an uphill climb but the winds of Aquarius and the violet flame are in our sails.

Now, this longing in our heart for the divine union with God and the oneness with the other half of ourselves is certainly a dominate force that impels us professionally, educationally, on the quest, on the search, seeking the perfect relationship. So desiring that twin flame, people have gone in and out of many relationships thinking they have found the one and only to come to the realization that it is a karmic situation and it comes to an end. So, we understand those experiences. Many of us have been through them.

I would like to tell you that when I first became aware of our beloved Saint Germain. You can leave the twin flames up. You can see your twin flames and the causal body in this painting which depicts the reunion in the causal body which we're going to celebrate in this. Anyway, at the age of eighteen I was going off to college leaving my home in New Jersey, and I prayed a prayer to God and said, "If there's anything you've

placed in my home of which I've not availed myself please tell me. I am leaving now. I am expressing my gratitude for my parents and everything that has been done for me, but I won't be coming back." I wanted to be sure that I definitely had not missed anything, any clues to my divine plan that I had to know about.

And God spoke to me and said to me to take a certain book off the shelf in my mother's library and to read it. And I had seen that book since I was tiny, and the book always had a presence and an aura that frightened me. It seemed that it was so intense that I was afraid to take it off the shelf, and I would walk around it and look at it and then tiptoe away.

So, this day I had to be obedient to that because I had made the prayer and God had answered. So, I could do nothing else but take the book off its shel, off the shelf, open it up and I saw the face of Saint Germain. And that face became alive and quickened by his presence. The spark went through my being. I leapt. I couldn't believe that I had found this Master whom I recognized instantly.

And I ran to show the picture to my mother. And I said, "Here is Saint Germain. I know him, I've got to find him. I know I have a mission that has to do with him."

So she said she knew him but she didn't tell me about him before because I should find him for myself. Well, I set out to find Saint Germain for myself and it took me five years to find him, even though I would walk and talk with him and Jesus every day. And I thought to myself, there must be really something wrong with you that you are not finding this Master. Because I knew when the pupil is ready the teacher appears.

So what could I do to get ready? I would pray. I would do everything I knew how to do, and I realized that the key to meeting the Master had to be obedience. So I decided to listen to the voice of God within with all my heart and to respond to that voice and to obey immediately. And I thought as one thing would lead to another, if I would always obey the voice of God I wea, would get nearer to him and to the Master.

At this point I wasn't even aware that there was such a thing as a twin flame, and I had a one-pointed goal in mind and that was to find the teacher, the teacher who would give to me what I could not receive directly from the octaves of light. I received a lot from Jesus and Saint Germain, but there were things I had to be taught, and our karma gives us a certain

spiritual blindness so we do not see in ourselves what the teacher points out to us needs correcting.

So, in 1961, by a long circuitous route, I had found students of the Ascended Masters in Boston. They invited me to a meeting and told me that a man by the name of Mark Prophet, who was a Messenger for the Great White Brotherhood, was coming to town to give a lecture and a dictation. And I leapt. I was so excited about such an event that I should hear a dictation from the Ascended Masters.

And as I entered that room and I sat in my seat that night and I looked up at him (he was sitting at the altar in meditation) and he opened his eyes and looked at me. And I looked into those eyes and I found the pair of eyes that I had been seeking my entire life. Those eyes spoke to my soul and I knew that I had found my teacher and the one that was going to quicken in me the divine memory, what I had to do in this life, how I was going to do it, the teaching I needed to know and the self-mastery of my being.

Before the service started I then closed my eyes and he took me in meditation to the higher octaves, and I saw the whole world filled with daisies in the field. And these daisies were the faces of souls, souls who had forgotten where they had come from, who were of God but needed to be quickened. And I knew that I had to go and find every single one of them and give to them the teaching that would remind them of who they were and where they came from. So, I knew I had to be a student before I could be a teacher.

And so, not long after that El Morya appeared to me at, in a park in Boston, stood before me in his intense reality of the sternness and fiery presence of the Ascended Master, and he simply looked at me and said, "I have need of a feminine Messenger. Go to Washington and I will train you through Mark Prophet." And with that he transferred to me a fiery coil of light and was gone. So, my path and course were set.

But that night that I met Mark Prophet, he delivered a dictation from Archangel Michael which liberated me and cut me free, I knew, to fulfill my divine plan. And I felt the light and the empowerment of it.

The next thing that happened is, but some time later, Mark informed me that we were twin flames. And it was almost an oddity to me that here I have found my teacher and now he is telling me he is my twin flame. And so, I thought, the cosmos is going to have to give me truth, the proof of

this information. So I called to El Morya and I said, "I would like to have proof and evidence of this which I am being told."

And so, I made that call and went about my business. And by and by one day I looked in to the mirror as I was getting ready to go to school, and into that mirror I saw the face not of myself but of the Holy Christ Self of Mark Prophet, himself in that exalted image. And it was such a shocking experience because I saw my own inner Christ Self, and I saw that he was the mirror image of it. And this affected me profoundly to the core of my being. I had the inner proof that we were actually one at the highest levels of our being.

So, what happened was is that I went to be trained as a Messenger. Mark told me he would not be on earth very long but he was here to do that very thing, to train me so that the mantle of prophecy could be passed and the Teachings would go on.

He stayed with me longer than he said he would. He stayed for twelve years. We were married and we had four children. And suddenly in 1973 he took his leave of this world. He passed on suddenly. And a number of days later I saw at inner levels his reunion with his I AM Presence and his ascension.

So, I am one of you here whose twin flame is ascended. And I can tell you that the most influential person in many lifetimes probably since I knew Jesus Christ was Mark Prophet. He was the most spiritual man I have known in this life. He was profoundly and deeply one with God, had a profound compassion, and knew the mysteries as they were part of him. He was a wonderful teacher, and he truly knew how to tutor and refine my soul to we, give me the disciplines and the initiations that came from the Masters.

So, after his thorough training and El Morya's thorough training, Saint Germain received me and I knelt before him, and he placed upon me the mantle of Messenger of the Great White Brotherhood.

Now, what we're going to do, then, is we're going to take the teachings of El Morya in a meditation on the Great Central Sun. And this beloved Master is going to lead us and guide us on a journey to the Sun behind the sun, the Great Central Sun of being. And if you enter this meditation freely, as you desire, you will feel yourself rising and accelerating and a sense of going higher and higher.

What we are going to do is place our things beneath our seats. If

there is an empty seat next to you right now that you don't think is going to be filled, would you raise your hand high and keep it high so these people who are seated on the floor may take that seat if they wish to? You are welcome to stay right where you are in front of me if you like, but if you would like a seat, there are seats available now. Please keep your hands raised so if anyone wants to look they can. Looks like everybody's real happy [laughter] down here in front.

I am going to ask you to sit up for his meditation if you are going to be here. And I want to tell you that the first part of the meditation is instructional, preparing your consciousness for it and allowing you to relax and go into deep meditation.

And then at the point where I say, "in the name I AM THAT I AM, I call forth the soul," you should feel your soul rising from the seat-of-the-soul chakra up the spinal altar, up a golden crystal spiral that you visualize like a gold coil. It is studded with crystal, like a golden staircase, and the soul mounts up the chakras to the plane of the heart, the Holy Christ Self, the I AM Presence. And you visualize yourself traveling in this coil inside of a very expanded crystal cord, and that crystal cord goes through the heart of your Christ Self and your I AM Presence all the way back to the heart of God in the Central Sun.

You are so close to God, as near as heartbeat, because that life descending in you, beating in your heart comes from the heart of Almighty God. And so it's the umbilical cord that we're extended into the Matter spheres, and over it we retrace our footsteps higher and higher till we come to that great sphere of light. There we meet our Creator, Elohim, and we look into the eyes of our beloved twin flame, the inner memory is awakened and we descend again to our bodies in this room.

If you are seated, the correct posture is feet flat on the floor, hands cupped in your lap and your spine straight but not stiff. The center of meditation is the heart and then the third eye. Let us begin.

[Messenger reads the following over meditation music, **Prelude to Act I** from *Lohengrin* by Wagner.]

**Stand now to release thyself from the darkness that is in thee and face the luminous orb of the Central Sun from whence all creation sprang.**

**Mindful of his will for good and of his power to extend that will, realize that he is able to extend thy consciousness from its present state--to pick it up, to exalt it, and to draw it into himself by the**

magnetism of his grace--here and now, prior to thy release from sense consciousness.

Realize that he that keepeth all that is real about thee, having received thee momentarily unto himself is also able to return thee to the present moment unaffected adversely but mightily affected inwardly by a fuller measure of the understanding of his will.

Realize that the will of God can best be known by a spiritual experience. Desire, then, that experience. Desire to reach outwardly toward the Godhead in the Great Central Sun galaxy.

At the same time as thou art reaching inwardly to the implanting of the divine seed within thyself, it is the will to live within thyself that must unite with the will to live as God lives. This is the divine will within the heart of the Central Sun. This thou must understand and be united with.

If this be accomplished but once consciously, thy life shall ever thereafter be affected by an innate knowing, recorded within, of that which is the will of God for thee and thy twin flame. The phantoms and the ghosts that formerly made thee a stranger at the court of heaven will no longer hold power over thee as they once did.

But man's reunion with the Sun can be accomplished only by an act of God. It is a cosmic event which can occur in the world of the individual only when he has proven himself ready for it.

I am a cosmic teacher, and I choose to appear to those who are able to see me with their spiritual eyes, to understand that my prime concern is the union of the heart of hearts within man with the Heart of Hearts within God.

For me to provide descriptive passages of these wonders and to record them on paper would in no way compare to the glorious experience that can occur as you rise through the trackless air and the far-flung reaches of space into a realization of the will of God that penetrates all substance and all nature.

You must be able to go deeply within, for not in outer accouterments of name or fame or even in worldly intellect does man find the keys that will transport him to these higher reaches.

We caution that great care must be exercised in this matter, for truly we are not concerned with developing in men and women untutored or unguided psychic experience. We want this form of communion to be a rarity

rather than a daily practice.

It is something one should try no more often than once a year in just this manner, with the exception of those who have been mightily prepared by advanced training. For them there will unfold the necessary direction which will assist them in having vital experiences to guide them in their solar evolution.

You must understand that the will of God is a sacred adventure.<sup>1</sup>

In the name I AM THAT I AM, I call forth the soul. Rise to the secret chamber of the heart. Come in supplication before thy Lord.

Enter the golden crystal spiral of thy Life. Rise upon it to thy true plane of being. Enter into the courts of thine own heaven, the Sun Center of Life. Rise to the heart of thy Holy Christ Self. Rise to the heart of thy God Presence. Rise to the heart of the Lord of the World. Know this moment of the awakening. Go back to life that is real. Go back to thy divine reality in the heart of God in the Great Central Sun.

Receive the impetus of this divine union. For one day thou shalt hear the word, "Well done, this is my beloved Son in whom I AM well pleased--thou art the soul who has entered the Sun Center of Life."

Come up higher. Enter into the house of the Lord. Partake of the marriage supper of the Lamb. Receive now the cosmic wafer. I Am Alpha. I AM Omega. Thy Spirit and thy Matter, one. I AM thy universal body. I AM thy universal essence.

I AM who I AM in the white fire core of Being. Behold the Great Central Sun Magnet. Behold Elohim. Behold the unfed flame of God. Look into the eyes of thy beloved twin flame. Remember forever and forever thy God, thy beloved. I AM who I AM.

We descend now, for thou art filled with thy portion.

Descend slowly and gently down the golden crystal spiral, for here is the unfinished work of thy life on earth. Serve the world evolution. Be a co-creator with God. Love all life free.

Remember thou art also in the service of thy twin flame whose very life also depends upon thy choices made day by day.

I bless and seal thee. I hurl thee forth once again, a pearl of light into the sea of the Matter Cosmos.

I seal thee in the Trinity. I seal thee in the heart of the Divine

---

<sup>1</sup> El Morya, The Sacred Adventure, recorded by Mark L. Prophet (Los Angeles: Summit University Press, 1981), pp. 109-113.

**Mother. I seal thee in the divine memory of God.**

**Go with God. Keep the flame of Life midst all illusion, soul-testing, trial, and temptation.**

**I AM thy beloved, the Lamb of God. Thou art my bride, my Self, my perfect love.**

Let us give our love to the Great Central Sun as we sing on page 3, number 4.

Now, as we have journeyed to the sun, we call to the sun to descend as at Fátima when the sun hurled toward the earth. This is a gentle descent of the sun to fill your soul. Roll it.

Page 3, number 4. [song 585 (Mantra booklet #4):]

**Our Father/Mother, Central Sun eternal!  
Which ever has been and ever shall be  
Our gratitude flows for your Life supernal  
For all your Light and Love through all eternity.**

Refrain:

**Great Central Sun dear, come fill my soul!  
Dissolve all shadows and make me whole  
Possess, control, and rule all  
By all thy Love, Great Sun above!**

**Thy heart of glory, patient and forgiving  
Shows all creation God's law of living  
May all thy children ever serve and love thee  
Give praise and honor to thy name and bend  
the knee.**

Refrain:

**Great Central Sun dear, come fill my soul!  
Dissolve all shadows and make me whole  
Possess, control, and rule all  
By all thy Love, Great Sun above!**

**Bless our dear Helios and his gracious Vesta  
With pow'rs of Love and Light, divinely vested  
Make earth a sun star, like her great beginning  
God's name, I AM, is now her vict'ry winning.**

Refrain:

**Great Central Sun dear, come fill my soul!  
Dissolve all shadows and make me whole  
Possess, control, and rule all  
By all thy Love, Great Sun above!**

Let us have the altar cleared and the platform put up.

When we desire more light in our temple and we don't know why we

don't have more light because we do all those things that the adepts tell us to do in our meditations and so forth, the missing ingredient is protection, because the Law says, "I will not give to you more light than you can keep in harmony and that you can protect and guard and retain." Hold fast what thou hast received is the direction from on high. And when we do, when we can keep in the mastery of our world the light God gives us, then he gives us more and he adds unto it very quickly.

In this world, then, of those who seek that light and desire it and to take it from us, to misuse it or misqualify it, we need our tube of light and we have invoked it. We need Archangel Michael and we need to invoke him.

We're going to give the bija mantras for that meditation of the sacred fire. Saint Germain is the personal Master and Guru who sponsors you in the raising of that Kundalini. And he tells us the requirement before you do these bija mantras is to do the violet flame as well as the tube of light and forgiveness and the calls to Archangel Michael. We're back where we started on page 12 and 13.

Now, the calls to the Archangel will place a cylinder of blue flame around your tube of light and you need that intense blue flame which is God's protection. Archangel Michael, then, comes, with his blue-lightning angels to protect you. So we're going to learn decree 47. As we give this decree you'll also see some chalk drawings of him on the screen.

#### **INVOCATION:**

Beloved Archangel Michael, we call to you now, once again, come into this room, intensify your light around us. Let the blue flame descend and seal us for our meditation and for our receiving of the dictation shortly.

Number 47, together. [decree 10.00 (Mantra booklet #47):]

**In the name of the beloved mighty victorious Presence of God, I AM in me, my very own beloved Holy Christ Self, Holy Christ Selves of all mankind, beloved Archangel Michael, beloved Lanello, the entire Spirit of the Great White Brotherhood and the World Mother, elemental life--fire, air, water, and earth! I decree:**

1. Lord Michael, Lord Michael,

I call unto thee--  
 Wield thy sword of blue flame  
 And now cut me free!

Refrain: Blaze God-power, protection  
 Now into my world,  
 Thy banner of Faith  
 Above me unfurl!  
 Transcendent blue lightning  
 Now flash through my soul,  
 I AM by God's mercy  
 Made radiant and whole!

2. Lord Michael, Lord Michael,  
 I love thee, I do--  
 With all thy great Faith  
 My being imbue!

Refrain: Blaze God-power, protection  
 Now into my world,  
 Thy banner of Faith  
 Above me unfurl!  
 Transcendent blue lightning  
 Now flash through my soul,  
 I AM by God's mercy  
 Made radiant and whole!

3. Lord Michael, Lord Michael  
 And legions of blue--  
 Come seal me, now keep me  
 Faithful and true!

Refrain: Blaze God-power, protection  
 Now into my world,  
 Thy banner of Faith  
 Above me unfurl!  
 Transcendent blue lightning  
 Now flash through my soul,  
 I AM by God's mercy  
 Made radiant and whole!

Coda: I AM with thy blue flame  
 Now full-charged and blest,  
 I AM now in Michael's  
 Blue-flame armor dressed! (3x) (given  
 3x)

Number 44 on the opposite page invoking Michael in the presence of  
 God with us. Together. [decree 10.11 (Mantra booklet #44):]  
 I AM Presence, Thou art Master,

**I AM Presence, clear the way!  
 Let thy Light and all thy Power  
 Take possession here this hour!  
 Charge with Victory's mastery,  
 Blaze blue lightning, blaze thy substance!  
 Into this thy form descend,  
 That Perfection and its Glory  
 Shall blaze forth and earth transcend! (given 3x)**

Put up Archangel Michael in the yellow with the blue sword. This picture of Archangel Michael is New Age with a kind art nouveau of the ni, deco art of the 1930s, but it shows his sword of blue flame that cuts you free; it shows his chakra at the throat and the third eye and the flame on the croe, on the brow. It shows his diamond armour of light and reveals an intense power through his Cosmic Christ illumination in the yellow flame.

Another thing the church councils did is that they forbade the communion and worship with, of angels, until angels were all but forgotten and all we've ever heard of is Gabriel, Michael and Raphael. And the final blow to angels' intercession came when, at Vatican II in this century, the prayer to Saint Michael was removed from the Mass and millions of Catholics ceased to call him forth for the protection of the Church and our nations.

But about the same time the growing momentum of Keepers of the Flame worldwide to give the call to Archangel Michael we just gave was appearing. And so, at this time when we begin our morning chapel at the ranch, at five-thirty in winter and five in the summer, we begin with those, the Heart, Head and Hand decrees and the tube of light and then we give that call to Archangel Michael forty times for all of the servants of God on earth, all of you who are in the New Age, all of you who are Lightbearers and seeking the unfoldment of the light within. And so that's been going on for years and years as we have sought to fill the vacuum.

I would commend you to call to Archangel Michael daily and use the three calls on those pages, 12 and 13, 43, 44 and 47. And don't neglect to do it because the light is rising in you and your appearance on the world scene as a Christed one is a threat to the forces of Death and Hell and the sinister force on this planet. And those fallen angels have not been bound yet, they still move among us on the earth.

Now, we come to the place, then, in this hour, when we are going to raise the light of the Divine Mother within us. On page 17 of this book,

these bija mantras are given from *g* to *a*, in three columns, seed syllables to quicken the petals of each chakra that they might spin and the light be raised and balanced.

The musical time of the base chakra, the light of the white Mother, is a four/four time. It is the discipline of the march time because upon that base the base of the very pyramid of your life is built. If Matter doesn't descend according to that Matter square and that cosmic cube it's going to be askew and awry and out of alignment, and it will not be a proper chalice for the light to descend.

So the four/four time when it is that disciplined beat causes that base chakra to spin and it gently begins to turn, and that Mother light as a crystal rises on the spinal altar and as it rises it waters, as it were, it nourishes each chakra with the negative polarity of the Divine Mother. And as it rises and you also call forth the light of your I AM Presence down into your temple, which is the light of the Father and the Masculine Ray, the light of your Presence gives to your chakras the Masculine or plus polarity.

So the Mother is rising and the Father is descending, and this is how you achieve the balance of wholeness and Alpha and Omega in each chakra and in your temple. The union of the Divine Father and Mother in the crown and their descent to the heart, the cradle of the heart, then, is where the union of the Father-Mother God in you gives birth to the Universal Christ.

Now, the rising light at the four/four time gives children and babies a most natural vitality and joy because that energy is gently nourishing them.

What has happened in our generation with the entrance into the 1960s is that the four/four time was taken and corrupted with a syncopated beat of rock music. The syncopated beat is an uneven bai, beat, it is not disciplined. It also goes counter to the heartbeat itself. So with the syncopated beat of rock music the energy of the spine does not rise but it falls, and the life-force in your being then descends.

Unwittingly and ignorantly, then, many people on earth, especially the youth, have come to like this music and have developed a habit of listening to it to the point where it actually has become an addiction. But I'd like to tell you why it is an addiction.

When this energy descends it doesn't do so gently, it comes down

violently. And as it descends it tears the delicate membranes where the spiritual light is entering the central nervous system in the spine. So the energy of the spine, then, is released in these little tears in the garment, in the sheath of your inner being. And as it is released it gives a sensation and you can experience a rush or a high.

People say they don't need to take drugs because they get high on rock music, and that's exactly true, because the light of the sacred fire is very powerful. So when it is released that is what happens. And so you get used to that release so you want to listen to more rock music because if you're not listening to it, it starts to grate and that energy being released makes you feel better. So it's kind of a circle that you can't get out of too well once you get into it.

But it does, first of all, you lose that energy that's released, you don't retain it, so it is slowly bleeding your life-force and causing early aging, early degeneracy of the mind, chaos in the chakras, you can't concentrate for very long. That's what they say in school, this generation cannot concentrate as well as the last and so forth. You can't focus because there's no energy up here in the third eye and in the crown.

What has also come to pass is the energy descending into the lower chakras and not rising puts all of the weight of the life-force below. So with the advent of rock music, the logical sequence is a sexual revolution, free sex, and a greater promiscuity. And what that leads to is the need to legalize abortion in unwanted pregnancies.

So, where that has led us today is that many, many souls who are a part of Aquarius who should be here, new souls of Light prepared to take their place and help bring in the New Age, they're not in embodiment, they've been denied entrance into the portals of birth because it has been an untimely situation for their parents and so forth. Abortion, as you know, has become used as a means of birth control.

The predicament we find, then, is that the energy that you don't have in your upper chakras deprives you of spiritual sensitivity and the awareness of the Masters and the Path and the seeing into higher octaves of divine reality. So in some quarters the New Age movement has descended to lower vibrations with that very momentum of the downward spiral.

Now, I am giving you this as teaching with no judgment or condemnation of anyone here and certainly no desire to interfere with your free will. The reason I am giving it to you is that the Masters teach that if you

wish to follow a path of discipleship to the realization of God within you and use the bija mantras, if you're going to use the bija mantras for raising the light of the Mother and then you turn around in the next hour or the next day and you get involved in rock music or a rock concert, the energy is going to switch and go down. You will lose the light that you have invoked and the up and then the down and the up and then the down can produce a schism and a riptide in you that can actually create a violence and an out-of-control state.

So, what I am saying to you now is that we know what rock music does, we've all experienced it, but we don't all know what the bija mantras do. We don't all know what it feels like to feel the bliss of the raising up of the light in our beings. So, why don't you as an alchemist of Aquarius give the bija mantras a chance. See how it feels to experience the Divine Mother rising in you.

As you call forth the violet flame it descends into your body and it clears the channels for the raising of the light. So the violet flame is a protection because it transmutes what would be any uncomfortable or difficult situation with this raising of the light, and it comes very gently in the control of your Christ Self and I AM Presence and Saint Germain.

I want you to know that these bhajans as well as this entire book is on cassette so that you can take them home, give the decrees and not even skip a beat in your spiritual path that has had, I hope, an acceleration this evening.

So we're going to give the bija mantras on page 17, sealed as we are in the protection of Archangel Michael. We'll start on the first column and go from *g* to *a*, and probably because of the lateness of the hour we won't complete them. Each column is for a different purpose, the chakra you are on is seen at the chart at the right, from the base to the crown.

#### **INVOCATION:**

Beloved Divine Mother, come unto us. Heal now all damage to our chakras and our finer bodies, our central nervous system and brain as the result of the misuse of the science of sound and rhythm in the syncopated beat as it was done on Atlantis and as it is being done today.

We call for the reintegration of our inner and finer bodies and atoms that have suffered disintegration at this syncopated beat. We call for

healing and sealing of each one here in your swaddling garment of light.

O let us return now into the very womb of the Cosmic Virgin that we might be reformed and refired in the divine image of our I AM Presence and step forth to be true servants of the Most High God on earth at this crucial hour. Into the keeping of the Divine Mother we commend our spirits, Amen.

The hour is moving on and you haven't heard from me on Saint Germain's prophecies. This book is about a year old in its publication, contains Saint Germain's reinterpretation of Nostradamus, because he said that the false mistranslations and misinterpretations of Nostradamus by modern interpreters have left the New Age movement with a misconception about what is projected for our time. There are prophecies of Saint Germain solidly in this book as to what we can expect to be facing in the next twelve to thirty years.

In a co, in a conference I held in San Francisco the weekend before last I gave very detailed teachings on the astrology of the coming years, on the prophecies of Fátima and Medjugorje. These video tapes will be available to you through your Study Group here in San Diego. I welcome you to see them and to study them and to definitely take home with you tonight *Saint Germain On Prophecy*. And read it. And it is simply packed full of information that we need to have.

I am turning over the service now to the one who will dictate to us and through us. And our meditation again will be on the Divine Mother, this time on our beloved Mother Mary. So again, you can put your things away and meditate to receive the dictation.

OK, begin.

[Meditation music "Ave Maria," song 94 played.]
