Stump Message

Cafe Royal, London, England
Messenger: Elizabeth Clare Prophet

It gives me great joy to be with you here this evening in London. I am very happy to welcome you to my heart and to the heart of the Ascended Masters whom I represent. I come, sent by them, to deliver to you a message and a transfer of light in this hour of the transition of the ages.

In this hour as we move from the age of Pisces to Aquarius, we have much to **Prophecy** reckon with and we find that the prophecy of what is coming and what we are **of the**

End Times experiencing in the earth is written in many places. Most of all as the Law of God it is written in our inward parts, in the subconscious, as well as in the superconscious mind.

I would like to read you some words from scripture by way of underscoring the reason why I deliver to you the Teachings of the Masters of East and West, truly the Lost Teachings of Jesus Christ. You're all familiar, I am certain, with the words that Jesus spoke telling his disciples of that which would come to pass in the end of the two-thousand-year era of his teaching and presence.

Matt. 24

29 Immediately after the tribulation of those days shall the sun be darkened, and the moon shall not give her light, and the stars shall fall from heaven, and the powers of the heavens shall be shaken:

30 And then shall appear the sign of the Son of man in heaven: and then shall all the tribes of the earth mourn, and they shall see the Son of man coming in the clouds of heaven

with power and great glory.

31 And he shall send his angels
with a great sound of a trumpet,
and they shall gather
together his ["From the one"
elect from the four winds,
from one said instead
end of heaven to the other.

of "from one"]
[Matt. 24:29-31]

It is the hour of the anticipation of great darkness, then, and of the great light of the coming of the Son of God, even into your own temple and life. For truly that Universal Light is the light that has kindled your own identity and has been the stream of continuous consciousness of your soul's evolution for aeons in the heart of Christ.

Thus we come to the opening of the seals, and the Lamb of God who is that Universal Christ opens the seal. And John the Revelator, who received this book from the Ascended Master Jesus Christ when he was on Patmos says:

Rev. 6

...I
heard, as it were the noise
of thun-der, one of the four
beasts saying,
Come and see.
2 And I saw, and behold a
white
horse: and he that sat on him had
a bow; and a crown was given
unto him: and he went forth con-
quering, and to conquer.

And so this is the opening of the seal of the Four Horsemen. I believe that the Book of Revelation is the story of the evolution of your soul and mine and of all ages as we confront the great light of the I AM THAT I AM who spoke to Moses and as we confront our karma, the darkness we have woven, the not-self, the anti-self we have created, and as we perceive our reality to be that Universal Light. Therefore this book is very specific for this

end time, but it is also very specific as you walk the path of initiation following the Lord Christ with the saints of heaven.

And so we can see in this first one in the beginning of this century, as this century is the last of this era, the coming of World Wars I and II. We can see the United States and allies going forth conquering and to conquer, conquering by light.

3 And when he had opened the second seal, I heard the second beast say, Come and see.

4 And there went out another horse that was red: and power was given to him that sat thereon to take peace from the earth, and that they should kill one another: and there was given unto him a great sword.

We see the sign and symbol in this prophecy of the Soviet Union.

5 And when he had opened the third seal, I heard the third beast say, Come and see. And I beheld, and lo a black horse; and he that sat on him had a pair of balances in his hand.

6 And I heard a voice in the midst of the four beasts say, A measure of wheat for a penny, and three measures of barley for a penny; and see thou hurt not the oil and the wine.

Here we see the manipulation of energy and the economy, the oil and the wheat. And this manipulation of the goods and of the abundant life is also to the detriment of the people of earth.

7 And when he had opened the fourth seal, I heard the voice of the fourth beast say, Come and see.

8 And I looked, and behold a pale

horse: and his name that sat on him was Death, and Hell followed with him. And power was given unto them over the fourth part of the earth, to kill with sword, and with hunger, and with death, and with the beasts of the earth.

War and pestilence, plague and famine comes with the fourth horseman. And we see all these events being outplayed, and somehow there is a relentless force. It is called "karma." And the Four Horsemen are the signs of the returning of personal and planetary karma, as we see the interplay of superpowers and powers in control of all of the earth and her goods. And we see the karma returning as the last plagues of diseases for which there are as yet no medical cures.

9 And when he had opened the fifth seal, I saw under the altar the souls of them that were slain for the word of God, and for the testimony which they held:

10 And they cried with a loud ["O" not said] voice, saying, How long, O Lord, holy and true, dost thou not judge and avenge our blood on them that dwell on the earth?

11 And white robes were given ["to" said instead of "unto"] unto every one of them; and it ["little" not said]

was said unto them, that they
["And behold" said
should rest yet for a little
season,...

instead of "And I beheld"] 12 And I beheld when
he had ["and" not said]
opened the sixth seal,
and, lo, there was a
great earthquake; and
the sun became black
as sackcloth of hair,
and the moon became as
blood;

13 And the stars of heaven fell
unto the earth, even as a fig
tree casteth her untimely figs,
when she is shaken of a mighty
wind.

In the face of all these things is the coming of the Son of man, is the coming of the Ascended Masters, those who have gone before us to transfer a light that we might be in the midst of the crosscurrents of darkness, pillars of fire and Keepers of the Flame. We fear not prophecy because we know God has given to us prophecy that we might be the arbiters of our destiny, that we might change history and the future by the sacred fire, by calling forth the light of the I AM THAT I AM, of the Great God and the Sun behind the sun, and of our own I AM Presence.

This is like a newscast of the future set forth by Jesus through John so that we could do something about it, so that we could f, call forth the violet flame in this seventh age, taught to us by Saint Germain, who also is foretold **Rev. 10:** in this Book of Revelation as the coming of the seventh angel. And when he 7-9 comes, it is written, the mysteries of God should be finished. And when he comes, there is given the little book of the Law, sweet in the mouth. How happy we are to hear the Law, but when we digest and assimilate this

teaching, it is bitter in the belly because it causes the chemicalization, the alchemy. It demands change. It demands acceleration.

If we are to survive that which is coming upon the earth, we must have the experience of intensifying the light in our body temples. We must go up and above and beyond those dark things that come out of the depths of the pits of Death and Hell upon the earth. God has provided a way. He has given to you and to me the individual presence of himself. He has given to us sacred centers of light and a mighty threefold flame in the heart. Yet for most people the chakras are dormant, the light does not flow. We are heavy and dense with our own personal karma and the momentum and the weight of the karma of the world in the cities.

So we say, "How long, O Lord, will this continue?" And God sends back to us **Mark 1:1** the call, "Come, and I will make you fishers of men!" God is here to show us how to save not only ourselves but his little ones, and it is through the Universal Christ that it is the reality of each and every one of us.

["And so" said] **14** **And the heaven departed
 as a scroll when it is
 rolled together; and
 every mountain and
 island were moved out
 of their places.**

15 **And the kings of the earth,
and the great men, and the rich
men, and the chief
captains, and the mighty men, and
every bondman, and every free
man, hid themselves in the dens
and in the rocks of the
mountains;**

["mountains of their karma" said] **16** **And said to the
 mountains ["and
 rocks" not said]
and rocks, Fall on us,
and hide us ["hide
from us" said] from the
face of him that
sitteth instead of
"hide us from"] on
the throne, and from
the wrath of the Lamb:**

17 **For the great day of his
wrath is come; and who shall be
able to stand?**

[Rev. 6:1-17]

God in you shall stand and you shall also stand if you unite with that pillar of fire that is your reality. This is the prophecy of Saint Germain who was the prophet Samuel to the nations. It is a very personal prophecy to the people of Britain because you have been blessed by the coming to this land of Jeremiah, the prophet who brought with him the Bethel Stone of Jacob which is the Stone of Scone. You are blessed for he brought with

him also the last of the Davidic line of kings, the daughter of the last king under the line of David. And this was the beginning of the royal house of Ireland long ago. It was transferred to Scotland and now to England.

We understand, then, that the reincarnation of this people as souls of Light **The** descended from the eleventh son of Jacob--Joseph with his coat of many colors, **Twelve**

Tribes signifying the many colors of the Great Causal Body, the many paths of God, and his great mastery. He had two sons--Ephraim and Manasseh. Ephraim and Manasseh were called half-tribes and blessed by Jacob as his own. The peoples of Great Britain and America are the true seed of this son, Ephraim am, and Manasseh. Ephraim and Manasseh, then, are the descendants. Their descendants have reembodyed here and their actual physical nature of the peoples here is likened after this ancient one.

The ten tribes were scattered throughout Europe and some to the Far East to India. And the two, the other two tribes were of Judah, and they are the Jews that are still known as the Jews today. So we have ten tribes of individuals who have descended and reembodyed as it were in the Gentile nations. Together the twelve tribes, then, make up the seed of Christ, the seed of the Ancient of Days that was born, souls of Light who came through Sanat Kumara and came through Abraham.

You have an ancient memory of your fiery destiny, and you have been waiting for the light and the understanding to unlock your seed potential. The members of these tribes have reincarnated in all races and nations by this time because of world karma. Nevertheless, the founding and the focal point of destiny and that migration is here, following the footsteps of Jesus, who came with his uncle, Joseph of Arimathea, who was a tin merchant and one of authority in that trade--came to Glastonbury as a young child

with his uncle after the death of Joseph and with his mother Mary, was here in his early years, studied and was tutored and was, there was made available to him, through the Druid universities, the great wisdom of the time. Thus at the age of twelve he confounded the doctors in the temple.

The Lost In the latest book I have written on this sequence, I speak of the lost **Years**

of Jesus years of Jesus. For it is written in Buddhist texts and manuscripts that were guarded in Himis, in Tibet, in Ladak--all the way to this century--that Jesus left Palestine about the fourteenth year--it may be the seventeenth year, according to other documents--went to the Far East, spent seventeen years there, and returned to Palestine at the age of thirty.

He was both student and teacher in the Far East. He went to many places, studied the various religions, learned the alchemy and the adeptship of the Mother flame and the light of the chakras, brought back all of that ancient wisdom which came down to India from the lost continent of Lemuria which sank beneath the Pacific, as did Atlantis beneath the Atlantic.

Lemuria was the Motherland and all religion has come forth out of the light of the Divine Mother, because it is the Divine Mother who teaches her children how to release the light of the Father, the Son, and the Holy Spirit--Brahma, Vishnu, and Shiva. This power of the Trinity is in your heart as the divine spark, and the key to unlocking that spark comes to us through that Mother flame.

Jesus, it is recorded in these texts, extolled woman and proclaimed her as the highest representation of God, the female principle in each and every one of us. He taught reverence for the Mother. He rebuked the power elite in church and state who would take from the people, the poor, and the lower classes the real teachings of the Vedas and the ancient scriptures.

For this he incurred the wrath of the priests and therefore narrowly escaped death and went on his way.

It is a very exciting story and in the book I have written we have the translation for the first time of Abhedananda's discovery of the same texts discovered in the latter part of the nineteenth century by Nicolas Notofish, Notovitch, the Russian explorer. So there are two sets of texts translated and the corroboration of others who have gone to Himis and who have heard of the legends, such as Nicholas Roerich who went and spent many years in that area of the world looking for the records of Jesus. And everywhere he found the stories and the beliefs of the people that Jesus had been there. And some even said he was there after his resurrection. And we find corroboration of this possibility in the writings of Irenaeus, the Church Father who said Jesus was teaching his disciples for at least eleven years after his resurrection. Irenaeus said this information came to him through John the Beloved.

So there are many mysteries that are not written of which we have not heard that perhaps have been kept from us. The most principle of our understanding is that the light of the Eternal Mother released through the Father, Son, and Holy Spirit has blessed East and West with the mysteries of the Path leading to the return to the One and the Law of the One.

We must hasten, then, our understanding of these principles, for we have nowhere to go. If the captains and the kings and the mighty ones call for the mountains to fall upon them in this coming of the great judgment day of the LORD in this alchemical change of ages, where shall we be found? We must be hid with Christ in God. We must be in the light and of the light, sealed in the light, and one with the angelic hosts.

Sealing There is a very special blessing that comes to the
people of light in this **of the**
People hour, a sealing and a protection. And this is my point of reading
to you this

of Light

text so that we can position ourselves in time on the belt of history vis-a-vis

the prophecies.

Rev. 7

And after these things I saw four angels standing on the four corners of the earth, holding the four winds of the earth, that the wind should not blow on the earth, nor on the sea, nor on any tree.

These are the cosmic forces of Mu, four cosmic forces, four planes of the pyramid of Matter--the mind, the desire body, the physical body, and the etheric or memory body. The four corners of the earth, representing the four sheaths, interpenetrating sheaths of consciousness which comprise the vehicle which your soul is using right now to occupy and master this physical plane. So angels of God holding the balance of these forces stand.

2 And I saw another angel ascending from the east, having the seal of the living God: and he cried with a loud voice to the four angels, to whom it was given to hurt the earth and the sea,

3 Saying, Hurt not the earth, neither the sea, nor the trees, till we have sealed the servants of our God in their foreheads.

4 And I heard the number of them which were sealed: and there were sealed an hundred and forty and four thousand of all the tribes of the children of Isreal.

Rev. 7:1-4

These tribes have been traced by noted historians through the sign of their shields. Their shields and their symbols were given to them by Jacob

in the blessing of his sons. Those shields have come down to be the coats of arms of the houses of the British Isles and of Europe. We find there can be traced those who came out of captivity in Assyria and Babylon and migrated here, for instance, the tribe of Dan in Denmark. All of these tribes have their position today and I do not claim necessarily a bloodline descendancy. But what I do claim is the descendancy of those very ones and very souls as reincarnated, reincarnated today to fulfill the mission that was not fulfilled from Moses to the time of Jesus which mission was waiting unto this hour in the turning of the ages.

And therefore you are not mere descendants, but you are literally the children of promise, children of the Light who have forgotten. Manasseh means forgetfulness--those who have forgotten who they are and what is the name of God, the I AM THAT I AM. And so the angel, as we call him the Ascended Master Saint Germain, who is the great hierarch of the Aquarian Age, has sent me to you for this blessing of the sealing of the servants of God in their foreheads.

You may know that Saint Germain, following his incarnation as Francis Bacon, the greatest mind and light England has ever produced, attended a mock funeral and went on in full adeptship as the Master, calling himself the Count Saint Germain, spent over a hundred years attempting to prevent the French Revolution, its bloodshed, and the calamities that have come upon Europe. His great dream was the United States of Europe, partially fulfilled today in the Common Market. At that time, although he produced miracle upon miracle--he could heal the flaws in gemstones, he had the appearance of a man of forty for more than a hundred years, produced an elixir of youth, was seen and witnessed to have changed base metals into gold, in other words, had the full mastery of the physical plane. When he would p, appear in the court of France, he would be seen to disappear as he was leaving.

This Saint Germain, then, has given to me two instruments for the sealing of your foreheads. The one are the mysteries of Christ, the Lost Teachings of Jesus that belong to you, that are a part of you, that you need in this hour. And two, his presence, whereby he does transmit through me and through an Emerald Matrix, a physical emerald he has given to me, the sealing of the third eye. Saint Germain then comes this evening to transmit to you that light, that very energy of his causal body.

The sealing of the servants of God is for your protection through all hours of transition. But the real sealing, as there is the Alpha and the Omega of the sealing, is in the transfer of wisdom and the knowledge which is a sword in hand that can be used. It is a sacred sword. And the word sword is the key to the word sacred Word. It is the science of the spoken Word and the use of the Word in the throat chakra and then in all of the chakras for the release of light in your temple and the increase of the presence of the Father, Son, and Holy Spirit.

I am going to, then, give you the teaching now sealing it in your mind, in your forehead. And at the conclusion of the teaching I am going to invite you to come forward so that I can place the Emerald Matrix on your forehead. When this blessing takes place, I am in an altered state of consciousness, the Master Saint Germain uses my chakras and heart to transmit his energy and the concentration of that energy through the emerald. The third eye is a very important chakra and it vibrates with the emerald and the fifth ray of science, vision, and the All-Seeing-Eye of God. It is green in nature.

Thus, I should like to begin now the mighty teaching of the ages which you already know. I teach you nothing new, but only that which you know at inner levels. This is the law of God that is written in your inward parts. And this **Jer. 5:17** is the day prophesied by Jeremiah when every man should sit under his own vine and fig tree. The fig tree is your Tree

of Life, the Great Causal Body, and the vine is that personal Christ.

I would like to illustrate this teaching for you now with slides.

Is this the--this is a great sphere of light. Look at it and then close **Chart** your eyes and visualize it right at the point of the brow and the third eye. **of the**

Presence You can visualize the eye of God centered at the brow and it is open. And you are looking through the eye of God as you would look through a window. And you focus and concentrate your attention upon this great sphere of light. This is called the Sun behind the sun. You are the Son of man or manifestation. The Sun behind you is the Great Causal Body--the causal body of light, the Universal **Mal. 4:2** Light. This is the sun, s-u-n, of God. Malachi said that the sun, s-u-n, of righteousness would come with healing in his wings. It is the point of your higher consciousness, the point of your meditation of the presence of God with you. You must have that point of focus of attention in your daily life.

When you raise your attention and raise your sense of God and look on high and behold that spirit of the Presence with you, you immediately plug in to the Universal Light, and you can fill yourself, you can feel yourself flooded with that light, permeated with the presence of comfort. Visualization is very important in the exercise of your seven sacred centers.

The whole Spirit/Matter cosmos, all that is in physical manifestation, has a center which we call the Great Central Sun. It is a physical center and a spiritual center. The spiritual center again is called the Sun behind the sun. Every manifestation in matter is diagramed in the same way. You are the physical microcosm. You are a great universe of light. You have atoms and molecules and cells and organs which are your starry

system. Your heart chakra or heart center is your central sun in the physical octave, but you have a Sun behind that sun that is your real identity. The real you is above and beyond this form

Gen 3:21 and these interpenetrating sheaths that are called in Genesis, "coats of skins" which we wear.

So we must come to realize that this is a vehicle but not the totality of Self. The soul in the very heart of the spirit of God is greater than the sum of the parts of manifestation which we see. Now we pursue a path of the mastery of matter and of these bodies. And so we must withdraw for a moment to the Sun behind the sun and know that this is our native habitation.

Every atom in your body has a nucleus. And in that nucleus there is a fiery interchange over the figure eight, a flow between Spirit and Matter. And the greatest miracle of all creation is that we are composed of elements of physicality and matter and yet God can endow and cause to exist within this chalice, this bowl, if you will, a living flame. And that living flame is your divine spark, it is the gift of divinity, of God's consciousness to you. If you did not have that divine spark, you could not begin to know God. You must have something of God in you to be able to relate to the Universal Divinity.

Now beyond that white sphere you see the Great Causal Body and you see that it is composed of spheres within spheres of rainbow light. John the Revelator **Rev. 10:1** saw a mighty angel clothed with the sun and he had a rainbow upon his head. It was the living figure of the I AM Presence which is diagramed in this chart over the altar. When you come to realize that we are in the world of effect and that we came and descended from the plane of cause or first cause, you begin to see that in order to control ourselves and our environment, we must contact the light and draw it down.

Why doesn't it automatically come down to us? Because God is a spirit,

and those that worship him must worship him in spirit and in truth. Matter and Spirit are in polarity. Spirit is the plus polarity and therefore we call Father in the masculine term, "Our Father," though he contains the eternal feminine. Matter is Mater, the Eternal Mother. It has a negative polarity--negative in the sense that is, it is in polarity with the Father. This negative polarity can become misqualified, and then we talk about negative vibrations when we really mean negative karma or misqualified energy. So here in the Mater universe, we then are confined to that negative polarity until we ourselves realize both plus and minus factors by drawing down the light of the Spirit and that light can be contained in these sacred centers and in the whole body.

Matt.6:22; Jesus said, "If your eye," which is your third eye, "be single," one-pointed **Luke 11:34**

on God, "your whole body would be full of light"--filled with the light of God. When you are filled with that light, you are untouchable. The whole negative manifestation that mankind have made of this planet, of darkness and death and dying and disease, cannot touch you because your atoms and molecules are vibrating with the Sun behind the sun. And this is your divine right.

We defend human rights all over the world in all kinds of causes and demonstrations. But I am here as the champion of your divine right and your divine light and to show you how to access it and to live and walk in the presence of the immortals--to walk and talk with Jesus as he said he would come to you, and with Saint Germain and the holy angels.

John 14:2 So this is your body of first cause. Jesus referred to it, he said, "**In my Father's house are many mansions.**" This sphere of light is pulsating above you right now. It is infinity, it cannot be conceived as time and space--great spheres of light. And you descended as your soul was created in the Central Sun

through these concentric rings, putting on skeins of consciousness.

Where did you think that your integration with life and your understanding of all that you know today came from? It came from the cosmic mind. Your soul did not acquire all that you are in a few weeks and months of development, but you have been forever in God. You came from God, you will return to Him, and now is the hour for the ascent of those who have descended from Him.

Jesus said, "No man can ascend to the Father saving he who has descended from the Father." And therefore there is an I AM Race on the earth of the Lightbearers who came from other systems of worlds with the one whom Daniel knew as the Ancient of Days. And so you came trailing clouds of glory, and you have that I AM Presence as that seed of Light. And now comes the hour of the understanding of this Divine Presence.

The Science I would like to give you the intoning of the universal sound of the AUM. **of the Spoken** It is spelled with three syllables, in this case, to emphasize that it is the **Word** sounding of the Trinity.

In the Book of John, John the Beloved, the Fourth Gospel, we find the great mysticism of Jesus. We find words that come directly out of the Vedas. Did John write this without the authority of Jesus? Nay. They were one, the beloved. **John 1:1,3** John lay his head upon the breast of Jesus. And so John said, "**In the beginning was the Word, and the Word was with God, and the Word was God....And without the Word was not any thing made that was made.**" It is in the ancient scriptures of the Ancient of Days. This teaching is what Jesus brought back from the East, yet he knew it within his being as you know it.

Sound then is the means of creation. People ask me, "What about meditation? What about prayer?" All that you have studied of these and

other teachings is the path that leads to the point of your focalization in the Word. Without the Word, the spoken Word, you are not yet a co-creator with God. Yet you are as his sons and daughters sent forth by Elohim who created you to be co-creators with the Infinite One. That is why you have a throat center and the gift of speech.

The power of the Word in you is more than vocal cords and even more than a spiritual center. Because the Sun behind the sun of you, the Universal Mind of God, releases the Word when you form the vowel sound, when you intone the consonants, there is a vibration and a quivering and you tie in to the universal sound and the universal hum of the universe and therefore you become a part of the great cosmic stream of reality. And so it is not that you originate the Word, but you allow the Word to pass through you because you have free will.

The sounding of the AUM is the quivering of that vibration in all of the centers, the toning of the chakras, the preparation for creation. It is a magnificent sound. And remember you are the offspring of the Most High, therefore speak the Word of God as Jesus did. He spoke not as the scribes, reasoning and **Mark 1:22** arguing. He spoke, it is written, with authority. Therefore with that authority of the beloved, we say the AUM.

AUM.

Rev. 1:8 Jesus affirmed in the opening chapter of the Book of Revelation, **"I am Alpha and Omega, the beginning and the ending."** Such a cosmic mantra of the Spirit--**"I am Alpha and Omega, the beginning and the ending."** Alpha, the Father; Omega, the Mother. Alpha, the Spirit universe; Omega, the Matter universe--the beginning and the ending of all cycles. I AM THAT I AM. Jesus was affirming his integration with the wholeness of the Father/Mother God. A is for Alpha, M is the Omega, and the U in the center is the Universal Christ. Because when Alpha through

the great higher consciousness descends, when Omega rises from the base chakra, there is the meeting of the twain in the heart, and the heart is the cradle where the Christ of you is born-- the Christ consciousness. And John **John 1:9** said, "**That was the true Light, that lighteth every man that cometh into the world.**" He did not say it only lit one man. It is the kindling light of Universal Christ consciousness.

This is the power of God which Jesus accessed and which he comes to release **John 12:** to you because he said, "**He that believeth on me....**"

Now we know who the "me" **44, 49-50**

is--I AM Alpha and Omega, the beginning and the ending, the I AM THAT I AM of Jesus. We believe in the one who is the Sun behind the sun. He cried out in the midst of the people and he said, "You who believe on me, believe not on me. Believe on the One that sent me, even the Father. The words I speak are not of myself, they are of the Father."

When you believe on the Sun behind the sun of man who is that Sun of God, **John 14:12** then he said, "**He that believeth on me, the works that I do shall he do also; and greater works than these shall he do; because I go unto my Father.** I return to the causal body of light. I return to that Cosmic Consciousness. And from that point, I will extend my light to you, I will amplify my light through you. And therefore we together will do greater works, because it is a new dispensation, because the cycles move on"--greater works than Jesus did. "Not I but God in me shall perform those works, not I but the Sun behind the sun of manifestation."

When we remember we are the instrument, we do not get into the idolatry of the ego that the fallen angels fell into. Remember well, God is the reality. **John 5:17** And that oneness is so close that you can say with Jesus, "**The Father worketh hitherto, and I work,**" and know that the I

in you is the presence of his spirit.

Mal. 4:5Therefore, we anticipate the coming of the great day of the LORD prophesied with great darkness as the Second Coming of Christ when we perceive that Christ in the living temple that we are.

The sounding of the AUM is your declaration of being. It is the declaration that you believe scientifically in the true personhood of Jesus. Won't you sound this AUM with me and feel it vibrate in your very bones and atoms.

AUM.

Now we're going to give a mantra to the Sun to welcome that light and command it forth into our being. Will you take the little booklets that have been passed out to you and may we have the lights.

It is on page 1. It is called "Hymn to the Sun." This is a mantra you can use with your sun salutation as you begin your practice of yoga, your meditation, your prayers unto God, whatever your religion may be. You will enhance it by the teaching of the mysteries.

Are the lights going to go on? Can you see where you are? Can you see the book? [inaudible] Is that a yes? ["Yes."] Good. Thank you.

Focus on that sphere of light and address the presence of God who is with you. And then we say in our hearts, "In the name of Jesus Christ, in the name of the I AM THAT I AM and the Spirit of the Great White Brotherhood," and then we give this call together.

**O mighty Presence of God, I AM, in and behind the Sun:
I welcome thy Light, which floods all the earth,
into my life, into my mind, into my spirit, into my soul.
Radiate and blaze forth thy Light!
Break the bonds of darkness and superstition!
Charge me with the great clearness
of thy white fire radiance!
I AM thy child, and each day I shall become
more of thy manifestation!**

This is a mantra that you can repeat, accelerate, and intensify,

and I will show you how to do that. You see a mantra that is written, number 2. This is a **Padma** powerful mantra that comes to us as the golden mantra of Padma Sambhava. And who **Sambhava** is Padma Sambhava? He is the one who discovered the Sun behind the sun through the path of the Buddha. His coming in the eighth century A.D. was prophesied by Gautama Buddha, who lived 500 years before Jesus Christ. He came in answer to the prayers of his parents and of the king. He came when the country was swept by famine and drought. The royal treasury and granaries were emptied and confidence in religion had disappeared. It is said that Avalokitesvara invoked the assistance from the Buddha Amitabha. A lotus rose from the center of the Lake Dhanakosa. And Padma, the child of the Light, appeared seated in the lotus in the center. He was a very real figure and perfected himself in all areas of human knowledge.

As you know, I have been trained by Saint Germain and El Morya and beloved Jesus and Mother Mary to deliver the Teachings of the Ascended Masters which are the Lost Teachings of Jesus. I took this training in 1961 through El Morya's amanuensis, Mark Prophet, who was my teacher, whom I was with for twelve years, who is also my twin flame. We were married, pursued this mission, had four children. I became a messenger with the anointing of Saint Germain in a ceremony whereby he transferred to me the electronic grid of light, keys placed within my chakras and in my aura for the immediate transmission of the Word of the Ascended Masters and of Jesus.

There came a time when the mantle was given to me of the Guru from beloved Padma Sambhava. And it was in the transfer of the mantle that I was given the authority to bless you, to transmit the light of the initiations of the Masters that have risen through all of the world's religions. I come to you with great humility before the mantle. The mantle is truly a forcefield, an aura, and a blessing. You also have a mantle that you can earn. It is the mantle of disciple, the first garment

that we put on as we follow in the footsteps of Christ under the tutelage of the saints, such as the Master El Morya, who was embodied in this nation as Thomas More, Saint Thomas More under Henry VIII; Thomas Becket under Henry II; was the poet laureate of Ireland, also, Thomas Moore; the adept of India who assisted the founding of Theosophy; was Melchoir, one of the three wise men who speaks of his seeing of the birth of Christ and his desire to bring the universality of that Christ into all religions. He became the great Mogul Emperor of India, Akbar, who actually convened an ecumenical conference to establish the great truths of all religions. He was one of the greatest rulers that India has ever had and the fairest.

Thus, through these Ascended Masters the light is released and it is by the mantle of the Guru that I do impart to you now this mantra of Padma Sambhava. [Tape of mantra started, then stopped; unintelligible]

This mantra was given for your sealing and for your divine protection. With it are mudras, which are sacred postures of the hands whereby energy is released. The mantra is a celebration of the three bodies--the body of first cause of the I AM Presence, the body of the Christ, and the vessel of the lower self. I would like to show you the mudras and give you the chant and then show you the pictures of the Buddhas who have given those mudras.

OM AH HUM VAJRA GURU PADMA SIDDHI HUM.

I would like to explain the meaning. The term AUM is the point of origin. AH is the inspiration; HUM, the expression; VAJRA, the union of the three; GURU, the inner wisdom; PADMA, fearless compassion; SIDDHI, the power of the dharma realm; HUM, oneness of qualities in us.

Thus Gautama who realized the powers of the mudras and of the mantra.

This is Lord Maitreya Buddha, the coming Buddha prophesied who has come and who represents the office of the Cosmic Christ with Jesus, with Kuthumi, with the Masters.

Here is Padma Sambhava, the lotus-born one, shown in his lotus in the lake. You see the curling of the brow in the concentration of the third eye as tremendous energy is focused here through the raising of the light of the Mother.

Now here is the first mudra, the palms together. We are celebrating three chakras as well as the three bodies--the crown chakra of universality, then at the throat chakra the potentiality, and at the heart the realization. That is the OM AH HUM.

The VAJRA is the right palm touching the earth. VAJRA. It is your declaration of your divine right to be doing what you are doing--to sit under your own **Gautama** vine and fig tree as Gautama Buddha sat under the Bo tree. He had the right to **Buddha** go into meditation to ascend to the causal body to discover the mysteries of life, the solution to old age, disease, death. And so he did. He brought back the Four Noble Truths, went again to the higher realms, and brought back his complete teaching.

What you must realize is that the moment Gautama, a man like you and me--this is what you must remember, this is the Coming Revolution in Higher Consciousness and all the saints of East and West started out just as you have. The only difference between them and us is that we have not yet released the fullness of the light from on High in our own microcosm here below.

Gautama then went forth from his wife, from his kingdom in search. He found that the path of asceticism was not the answer. He must go to God and get that answer. He sat down to find it and all of hell broke loose. All of the powers of darkness of hell and fallen angels attacked him and challenged his right to be doing what he was doing--sitting beneath his own higher reality. And he took his hand and he touched the earth, and he said, "Earth, bear witness that I AM WHO I AM and I have the right to be

doing what I am doing." And all the angels of God and the nature spirits assembled round about him and defended that right, and they shall do so to you. And if you do not have the reinforcement of the heavenly hosts when you are coming and becoming that Buddha, becoming that Christ, you will not have the wherewithal to meet the powers of darkness and the adversary who will surely challenge you, as they have challenged every saint who has attained to that union with God.

Golden So the VAJRA mudra is establishing your right to be seated in the lotus, in **Mantra**

the lotus with the lotus-born one. Once you have established that right, the very purpose of your being is extended in the GURU mudra. The palm is turned out, it is in the giving of the teaching, the giving of light, the giving of blessing. And this is the concept of flow--all that we receive by divine right, we give. And so we continuously give what God gives to us and God sends more and more light and it is the self-emptying process. The perversion of this is the hoarding of goods, the consciousness of possessiveness of me and mine, but all of this belongs to God. Everything I am belongs to God, and I give it to his children of the Light, to his sons and daughters.

PADMA. PADMA. It is the meditating mudra--thumbs together with the forefinger forming a figure eight--forming a mighty figure eight, signifying that you are integrating through the heart, through the path of the Christ and the Buddha, the light of Spirit and Matter, the light of Father/Mother, Alpha/Omega. It's the perpetual flow of energy during meditation.

SIDDHI. SIDDHI. It is the sealing of the mantra, but it is more than that. When you extend your right hand, here is the secret ray chakra, and that power of the hand is the dispeller of darkness that comes from the Guru who is our sponsor. And therefore the right hand raised will turn back the energies of mob violence, terrorism, and so forth. You must

remember that the hand is the release of the power of the heart, and the heart receives its power from the higher consciousness.

And then you make the fan of the lotus and the wheel of the Law. You put the heels of your palm together and you form the sphere. And this is the great truth of Hermes--as Above, so below. I am affirming my God reality that is Above here below in me where I am. Lo, I affirm with Jesus, I AM THAT I AM.

I invite you to try this with me. I am going to go through the mudras which I just described which are on these slides and invite you to do them.

Here are your hands folded together, it is given three times--above the head, at the throat, and at the heart. OM AUH HUM. Excuse me.

Here is the VAJRA, the earth-touching mudra. This is Gautama Buddha. The extension of the palm, two fingers are back, excuse me, center fingers are back toward you, two are forward. You may give it just simply as the extension or you may use the fingers back.

Here is the formation of the figure eight at the heart, the point of release. He is at the point of the soul chakra with it.

Here is the SIDDHI. You wonder what all these Buddhas are doing in meditation. They are meditating upon that Universal Light, and they are the keepers of the flame. And Jesus also practiced these postures and mudras and mantras.

Here are the palms, the heels of the palm together with the thumb and the forefinger. You can see it makes the perfect balance--as Above, so below, I AM THAT I AM.

This is the painting of the Ascended Master Jesus Christ. You may wish to meditate upon him as we give this now.

OM AH HUM VAJRA GURU PADMA SIDDHI HUM (given 9x)

Now we spoke about the sealing of the servants of God in their foreheads. So I have already given you the means for your sealing of your chakras,

your circle of fire, your point of being who I AM, being the I AM THAT I AM. This is very important. Unless you know how to seal yourself and your light, God will not jeopardize your physical life by giving more to you. So if you await the fountain of life and its infilling in your being, you seek a higher experience, encounter with the Ascended Masters and the path of initiation, you must learn the protection of the light given. For you are accountable for every erg of light you draw forth from God. And if it is lost or stolen or misused, you then have karma. Therefore God has limited the amount of light of all evolutions of earth. This occurred after the sinking of Atlantis. Our life-spans were reduced to threescore and ten and the crystal cord was reduced.

Now I would like to show you how Jesus and Saint Germain, the wayshowers of the Aquarian age fulfilling the promises of the scriptures of the West and the East, have given us the very same teaching of the Buddhas and of Hinduism and the Vedas before them.

Saint This is the Ascended Master Saint Germain when he concluded his experiences **Germain**

as the Wonderman of Europe and met with rejection or with disbelief, being thought interesting but not really taken seriously. His last attempt to form a United States of Europe was in the sponsoring of Napoleon. But Napoleon had a will of his own, took the Master's power but rejected his counsel and instruction and therefore went quite a way with that power until he met his own karma, his own Waterloo. So we find that those who come into association with the Ascended Masters and misuse their light incur a great, great karma.

Saint Germain therefore, at that time and before that time, had already been working behind the scenes to form the United States of America. He had been embodied as Christopher Columbus, had come to the New World following the inspiration of the prophecy of Isaiah. He saw that New World as the promised land and the place of the gathering of the seed of all of

the twelve tribes that had been scattered to the nations.

So America becomes the land of that gathering of the I AM Race, of all peoples and of all tribes. It becomes the place that Saint Germain, having been rejected in Europe, now sponsors for a new experiment in freedom. He appeared out of nowhere in Independence Hall, gave an impassioned speech for liberty and freedom. In the moment of the patriot's hesitation in signing, he shouted to them, "Sign that document!" Saint Germain was at the very heart of that cradle of liberty. He anointed in ceremony, secret ceremony, the master mason George Washington as the first President. He had overshadowed him during the revolution. He had inspired the formation of the flag.

That victory was a victory of light for all of the tribes--of Ephraim, of Mannaseh, of all people in every nation. It was not a war between the British and the Americans, it was a war of the little people concerning forces of tyranny and the power elite. We understand that these forces have never left us, they have reappeared in every nation including America. And they're always there to put their heel upon the rising head of the Christed ones--whether control of banking or whether control of power, military establishments, the economy, the culture, or the educational systems.

Saint Germain then comes. He was the prophet Samuel who anointed David and Saul as well. He is recognized as such, and this is where his nickname has come. To us he is "Uncle Sam." [laughter] The people do not remember that he was the prophet, but Uncle Sam he is. And he is the figure behind that image that appears with our flag and everywhere.

Saint Germain is a great alchemist. I have great joy to be releasing to you this Thanksgiving season, the end of November for us, a five-hundred-page work collected of all of his writings on alchemy dictated through Mark and me since 1958 with tremendous teachings on how you can

precipitate matter through his alchemy that he used in Europe.

As Francis Bacon and as the Wonderman of Europe, he sought to bring the achievements of science to the common people. He created a revolution of democracy and freedom and the republic, parliament, and all that we use in representative government in a common heritage. He sought to give to the people of the whole world access to the new wave and the Aquarian age. He is the greatest single individual and Master who has enabled us to enjoy a life designed to be free of drudgery so that we can pursue a spiritual path, not to become attached to material things but to have them as a point of mastery and as a point of our givingness to those who have less.

The Chart Saint Germain and Jesus come to teach you the reality of yourself in this **of the**

Presence Chart of the Presence--the same AUM AH HUM, the three bodies of the Buddhist mantra you just gave. The universal body of first cause, the principle of the Father--you see the person of the I AM Presence. Spiritual beings are always formless and form. There is always the Sun behind the sun of manifestation. And even in heaven and beyond heaven in the planes of Spirit, there is the individualization or the focalization of God. In other words, when we ascend the Path, we do not dissipate into some vapory spirit and simply become somehow absorbed in the Universal. You retain your integrity, your integration with the Universal Light by your free will as you have manifested and created your mastery.

The Universal Christ is the central figure, the figure of Jesus, the figure **I Cor.** of the Sun behind the sun, the one Universal Light who said, "**This is my body, 11:24**

which was broken for you." Each one of you has a Holy Christ Self. Your Holy Christ Self is your Real Self, your reality. In other words, the

Light or the Christos is the reality of all of us. Now that Light is our teacher and friend and counselor and comforter. But one day the soul is to rise and to attain union with that Christ. This is termed the alchemical marriage. It is the wedding of the soul, and the church, symbolizing soul, is called the bride of Christ.

The lower figure is yourself intended to be the temple or the Holy Grail, the vessel of the Holy Spirit as well as the Father and Son.

This is how you look right now. This is what is going on in your heaven world. Christ is above you descending in clouds of glory. His Second Coming is an inner mystical experience. Undoubtedly it will also occur, as it is written, **Matt. "As the lightning shineth out of the east, and cometh...unto the west; so 24:27**

shall...the coming of the Son of man be." This coming is a coming of awareness. If you do not have the awareness and the Holy Spirit with you, you cannot see Jesus when he comes as the Ascended Master to the world. It is written in **I Cor.** scripture that no man can confess that Jesus is Lord except by the Holy Spirit. **12:3**

So you must have the light in you to recognize him without.

Now Jesus was the embodiment of that Christ. The lower figure and the middle figure are one. The lower figure is the Son of man. The Son of God was congruent and one with him because his soul had lived, lived before, had reincarnated, had balanced karma down to a very small percentage--just enough to be in embodiment. Jesus embodied the fullness of that light emanation of God. He also embodied the Father, the One who sent him. Jesus was the Three in One. That is why he is called "avatar"--the God manifestation. And the disciples of John **Matt.11:3** the Baptist said to him, "Art thou he should come, **Art thou he that should come, or...look we for another?"** They were looking for the one who embodied the Word, the presence of the I AM that had appeared to Moses. I AM THAT I AM--in the **The Name**

of God Hebrew, the YOD HE VAU HE. It is the name we can know and use that accesses the power of God.

No doubt there are names beyond names which we will know as the Father give it to us. You all have a name which no man knoweth save the Father which is given to you in the inner initiation. It is the name that unlocks the light of your causal body. And you see we do not even have that name,

we have strayed so far from that divine identity.

So they called him Lord. And you will find LORD throughout the Old Testament is spelt with four capital letters because it is initials for those Hebrew vowels. Again the sounding of the sacred name--YOD HE VAU HE. It was considered to be so powerful that the people should not pronounce it, therefore they put the substitute LORD in its place. And through the centuries we forgot that that stood for I AM THAT I AM and no longer used the name or realized that every time we say I AM we are affirming God and God's light.

So if we say the mantra of Jesus, "I am the resurrection and the life," which is a mantra that came out of Maitreya out of the East, we are filled with the resurrection flame and with light. But if we say, "I am sick, I am bored, I am terrible, I am poor," we are still taking the name of God and the light **Prov. 23:7** flowing through us takes on that qualification by free will. "As a man **thinketh in his heart, so is he,**" because he is a co-creator with God because of this name.

Now when God gave Moses this name, he didn't just give him the name. He **Exod.3:15** said, "**This is my name for ever, and...a memorial to all generations.**" Generations of who?--the children of Israel who were with Moses, the twelve tribes. This is my memorial, my reminder. This name belongs to you. And when you say it, you become it. And that is why it was given to you.

Jesus embodied the I AM Presence, therefore we call him Lord. But the New Testament does not capitalize the word Lord for Jesus, and therefore it's an ordinary Lord just like you say "master." But he was no ordinary Lord, he was the LORD, the Word incarnate. And that's the AUM again, because the I AM THAT I AM comes out of the AUM.

This picture of the Chart shows you as the runner in the race of life, of life like the Apostle Paul. It shows you with your seven centers--seven centers of being representing seven planes of consciousness and the causal body.

The Now the greatest gift we have in the Aquarian age which is very visible on **Violet**

Flame this chart is the violet flame. It is the flame that could only be released to the world at large in the coming of the Aquarian age and the seventh dispensation. The Master who releases it, who is the sponsor of it is our beloved Saint Germain. He with Jesus, with beloved El Morya, have given to us mantras for the invocation of the violet flame for a very important reason.

The violet flame is the alchemy of the Holy Spirit's transmutation. This is the means whereby we meet prophecy of the end times. This is how we meet our returning personal karma which is indeed accelerating in this hour. You are carrying today a greater weight of your personal karma than you have carried throughout the last two thousand years. This is why our mores and our culture and our attitudes to life have so changed--because we are looking through the veil of much karma. Karma comes due in cycles.

I Cor. It says, "Jesus died for our sins." What does that mean? It means that he **15:3**

took on our karma for a two-thousand-year period during which time we were intended to walk as his disciples and internalize his light and become the full God-mastery that he was. But instead they hid the teachings! They crucified Origen. They anathematized his teaching on karma, reincarnation, the heavenly hierarchy, the angels of God, the fallen angels--all the teaching that we need to understand the warfare of Good and Evil. They gave us a watered-down version of Jesus' religion and therefore we did not have the means to become who we are.

So today, the Ascended Masters have come forth, Jesus has come forth, we have the mysteries, we apply them, and the very first and most important

one which corresponds to Jesus' first public act is this, the violet flame.

We have karma of previous embodiments. We are called to balance it because we must enter the new age with a certain portion of our karma behind us. We cannot carry our bag and baggage with us, neither can the earth. If the earth is not flooded with the light of the Holy Spirit, this baptism by fire that John the Baptist said Jesus would bring, if the sacred fire is not released through our centers to clear the earth of planetary records, there is only one alternative means--it is world cataclysm, earthquake. It is the unleashing of those forces in war, in devastation.

This is why Mother Mary came with her Fatima message in 1917. And she said there would be a great war at the end of the century and great suffering. And she said unless there was the consecration of Russia that there would be a proliferation of great darkness and death and of World Communism. And finally in the end after all of this great darkness the earth would be saved.

Nostradamus prophesied the same. Some of the interpreters of Nostradamus say the great war is coming in 1986. And they say, always, that he said it was the Arabs and the Asians who would descend upon Europe and even possibly as far as New York with their weapons. Many seers have seen Europe in the state of a bloodbath and being overrun. Does it have to happen? No, it does not have to happen! It is the projection upon the screen of life of karma--what karma will bring unless we discover and use the means to balance, to transmute the energy of that karma. Saint Germain truly comes as a world saviour with that gift and sponsorship of the violet flame with Jesus.

So we begin to invoke the baptism of sacred fire of the Holy Spirit and immediately we feel a difference in our being. We use the authority of the spoken Word and we know what that Word is, the Sun behind the sun, the source of life. We let it flow through us.

Rev. 22: John the Revelator saw in the Book of Revelation the Tree of Life in the 1-2

midst of the city and the River of Life descending. That River of Life is your crystal cord. See it coming down to your heart. It comes through the soft spot in the baby's head. And when that crystal cord descends and there is the igniting of the threefold flame in the child at the moment of birth when the umbilical cord is cut, the baby cries out for the suddenness of the expansion of that divine spark once again in the physical temple and of the beginning of the sacred fire breath in the lungs, and the Holy Spirit is present at every birth to perform this. And then the spot is covered over, but you see that pulsation on a child's head. And that pulsation is this crystal cord descending, spoken of by Ecclesiastes.

Now here that crystal cord comes down and it is a crystal fire. It is absolutely clear when it contacts the crown of the head. As soon as it enters consciousness, it begins to be colored by our thoughts, our feelings, our prejudices, our moods--all that we are colors that white light. And the colorations can be seen and read because our auras are filled with that light. And Jesus said, **Matt.6:23 "If...the light that is in thee be darkness, how great is that darkness!"**

The mystery of that teaching is that God gives you light and you misqualify it and turn it to darkness by ignorance, because no one has told you that you are accountable for your discord or your anger or your harsh feelings or your jealousies or your envies or your desire to do this and that and another thing to someone who has wronged you. All of that is energy going forth. It affects life, it circles the earth. Everyone upon earth feels the burden of your darkness and rejoices to feel the burden of

your light.

We are co-creators, we have free will. So it comes back to your doorstep and suddenly you have a headache, suddenly you are sick, suddenly calamity happens or you have an accident. There are no accidents. You are in control of your life and you are sowing and reaping every moment. Crystal clear stream of God, mine to use to create with, unlimited resource, unlimited energy, light, consciousness--what will I do with it? What should I do with it? What is the most por, important thing I can do with this light?

Saint Germain tells us. Jesus tells us. Invoke the violet flame for the purification of your chakras, for the balance of your karma. Direct the violet flame into the records of your past lives and see them consumed. The prophet **Jer. 31:34** has promised, **"I will remember their sin no more. Though their sins be as Isa. 1:18 scarlet, I will make them white as snow."** White as wool is the promise. This is the alchemy of the Holy Ghost. It doesn't simply happen because it is said. It happens because by free will we accept it and invoke it.

So that good Saint Thomas More, who died the king's good servant but God's first, dictated in commemoration of Jesus the "Heart, Head, and Hand Decrees." The first one found on page 1 is the heart.

The violet flame is Jesus' first miracle in Cana of Galilee. He changed the water into wine. This was the statement of his mission--"Water of the human consciousness, water of human karma, you are not fit to receive the Holy Ghost. You are not ready to receive the LORD, your I AM Presence. Therefore I come, the Christ, for transmutation--the wine of the Spirit." This is what your reality is. This is what your real identity is. The violet flame spiritualizes your whole being. And so this is the mission of your Christ Self.

Now this is the de, dynamic decree. It is the mantra of Saint Germain--

you might call him the Guru of Aquarius. And this is how he teaches us to invoke the violet flame. You can offer your personal prayer before you begin by saying, "In the name of Jesus Christ, in the name of the only begotten Son of God, I call unto the Father, Son, Holy Spirit, and the Divine Mother. Release to me now the violet flame of the seventh ray from the heart of Saint Germain. Let it flow through my being! Let it transmute all negative karma, fear and doubt. Let it come into my heart. Purge me now of God, of all nonforgiveness, hardness of heart, anxiety and fear, records of death. So I welcome the Holy Spirit and the agency of the violet flame and therefore I decree:"

**Violet Fire, thou Love divine,
Blaze within this heart of mine!
Thou art Mercy forever true,
Keep me always in tune with you. (given 3x)**

Now you put your throat chakra in motion to release the power of creation, but all of your chakras join in this mighty chorus. This is the music of the spheres when the morning stars sang together and it plays through your chakras. Throft, so through the window of the third eye you see this image. This is you, **Phil.3:14**the runner, running for the prize of the high calling...in Christ Jesus. Those are your chakras and how they should look and how they will look when you pursue this path of the Lost Teachings of Jesus.

With all of your heart and love to the Ascended Masters and to Almighty God for sending the violet flame, you feel intense love when you make this call. I'll speak to you about the function of the other chakras as we go on. This is a **Heart**, trinity of decrees. Heart, head and hand is an expression of your threefold flame. **Head, and Hand** I'd like to show you a few symbols of this. Here is the heart.
This is the first **Decrees**

chakra we clear, it's the seat of consciousness, the meeting of heaven and earth in our own temple. It is the most important chakra.

You will notice that the teachings of Saint Germain and Jesus include some of East and West religions but go beyond and in some instances transcend the old teaching of both. Here is the image of the threefold flame. It is a fleur-de-lis, and this is how it became the emblem of France, the flame of Christ. At the base of the sph, flame is a white sphere--symbol of Matter and the Divine Mother. The blue plume is the power of God. Power vibrates as blue. Wisdom is the sun, the yellow, the mind of Christ. Love is the Holy Spirit which is the all-consuming fire that also binds the demons and is the power of exorcism. Love is the most potent creative force and it consumes all things unlike itself. Here you visualize that threefold flame in your heart and the intensity of the violet light as we just gave it. You see that fire blazing in your chest **Luke 21:26** cavity, intensifying, filling all of your house. Jesus said in the end times men's hearts would fail them for fear. Heart disease is a great burden in this hour and it comes from the returning karma of fear, it comes from planetary fear. Let's give the call once again to liberate our precious heart which is the heart of God.

**Violet Fire, thou Love divine,
Blaze within this heart of mine!
Thou art Mercy forever true,
Keep me always in tune with you. (given 3x)**

You who gave that mantra for the first time, you have taken the first step in becoming an alchemist in the Aquarian age. You have begun to change matter and the water into wine. You are a scientist in the laboratory of your being experimenting with the light of God. And you have great teachers, master teachers who are watching over you and protecting you from the misuse of that light. The Ascended Masters sponsor you when you give their mantras. They will not leave you, they will protect you. You have a living Ascended Master Guru in Jesus Christ, Saint Germain, El

Morya, Mother Mary, and many others about whom I should like to tell you that were pictured on the poster that brought you here.

Here is the violet flame visualized in the head. It touches the throat chakra, the third eye, and the crown. It is for the clearing of the mind, the clearing of consciousness of all of the programming, the prejudices, the misconceptions that we have that we take as the gospel truth because somebody has told us it is so. So it is the liberating flame. Use your third eye to visualize your whole head now filled with the violet flame as we give number 4.

Remember when you say, "I AM" you are saying "God in me is." God in me is light. I AM where I AM. God's light is being qualified by this decree because God gave me a, free will and a divine spark. Therefore he gave me the power of choice of what to do with this Crystal River of Life and this is what I am doing with it now. I am commanding it be colored with the violet flame and passed through my being. Together.

**I AM Light, thou Christ in me,
Set my mind forever free;
Violet Fire, forever shine
Deep within this mind of mine.**

**God who gives my daily bread,
With Violet Fire fill my head
Till thy radiance heavenlike
Makes my mind a mind of Light. (given 3x)**

You are in the process of invoking the baptism by fire. If you invoke it before the day of judgment, it comes gently and delivers you of the burdens of darkness and of karma, of sin. If you postpone the day of reckoning, then Paul **I Cor.** says, "**The fire shall try every man's work of what sort it is. It is, if it is 3:13,15** not of the light the work will be consumed and man **himself shall be saved; yet so as by fire.**" Fire is behind, as the principle of every world religion. The perception of the flame by Moses, Zarathustra, Gautama is

there. The fire then delivers us. Shall we postpone its coming and then suffer great loss? Shall we invoke it now and become it? When you become the flame can the flame then burn? You are the flame, you can no longer be burned by its coming. This is the path of walking gracefully and peacefully into the age of Aquarius. The hand is the symbol of deeds, action, and karma. The hands are also the point of the secret ray chakras. I've shown you a diagram of the seven chakras, there are five secret rays. Jesus allowed us to see them in his crucifixion--his hands pierced, his feet having the holes of being nailed to the cross, his side pierced. Five additional chakras are for the release of the inner spheres of the light of the heart. Your hands directly release the light of your heart, so the apostles had the laying on of hands for healing. And this is something that I also do, giving light and taking darkness as God does it through me--not I, of course, but I only as the instrument of this action of the Holy Spirit.

You also can be the hand of God in action. You need to pray for it and you can decree for it by violet flame. Purify your vessel so it can become the Holy Grail, the vessel of Christ.

There you are--heart, head, and hand. Together.

**I AM the hand of God in action,
Gaining Victory every day;
My pure soul's great satisfaction
Is to walk the Middle Way. (given 3x)**

People say that a mantra is psychological conditioning. Nothing could be farther from the truth when you understand that you are the instrument of the Word of God. Eastern mantras were composed by the ancients. They have a momentum all their own. They are like a molecule, a molecular formula which when the words are given there is a fire infolding itself that descends.

Saint Germain and Jesus and the Ascended Masters have determined that

those in the West should have mantras that come from out of the causal bodies of the great cosmic beings which are in English which can be said and understood and visualized. And so the dynamic decrees in this booklet as well as those in our decree books are just that. They are not poetry that someone has written. They are decrees that were taken in dictation by Mark Prophet from the Masters. And they release the momentum of the causal body of the Master who has dictated it. This is the value of recognizing the Ascended Masters as the teachers and taking their mantras. They give you the light of their momentum of mastery which is why you can do greater works than they did because their momentum **John 5:17** multiplies your own and now you are two. The **Father worketh hitherto, and I work.**

Now as soon as you begin the balance of heart, head, and hand and the light is in your aura, people come to you desiring that light, enticing you into this and that entanglement, or it incites their anger or their human consciousness and you find yourself very burdened. Therefore you need the protection of the light you have invoked. And this is the invocation of the tube of light.

You can see the tube of light on the Chart. You can see it around the lower figure which you are. And this is the invocation that you give. These Heart, Head, and Hand Decrees, each and every one of them, are a celebration by El Morya of one of the great events in the life of Jesus-- his healing by the sacred heart, the Universal Mind of Christ in him, his hands and the use of those hands. But the tube of light is evidenced again and again. When he was **Luke** in Nazareth in that very place, he then preached in the temple and read from the **4:16-30** Book of Isaiah and spoke of himself as the One Sent. But he rebuked them and told them when they sa, demanded that he perform works and miracles to prove it, he said the prophets did not always heal. They were angry, he

would not give them his light. So they seized him and sought to throw him over the brow of a hill and it says, "He disappeared in their midst and went his way."

That is the tube of light. That is how powerful the tube of light is. You use it every day, every morning, it is your spiritual garment. You put it on, you can renew it easily. These decrees can be given softly under your breath, they can be given in the shower, they can be given anywhere you are, driving to work. Wherever you have a moment, you've dialed a number on the phone, you're waiting for it to ring, remember the mantra of the Word. You are a co-creator with God.

So invoke your tube of light. Visualize it nine feet in diameter, steely white light, the power of God around you. It is a mantle of fire, it is the **Exod.13:21** pillar that went before the children of Israel--a pillar of fire by night, a cloud by day. That's the cloud of your I AM Presence. And book two of s, Saint Germain's Studies in Alchemy actually teaches you how to create the cloud in very specific, concrete detail. This is how concerned Saint Germain is that you be robed in light in the coming days.

So the first action you take for protection is the tube of light. Let us give it as we stand. You stand in honor of your I AM Presence. The angel of **Exod. 3:5** the LORD said to Moses, "Put off thy feet, **put off thy shoes from off thy feet, for the place whereon thou standest is holy ground.**" You walk on holy ground because the presence of God is where you are. Think about that. The holiness of the LORD is always with you. Together.

**Beloved I AM Presence bright,
Round me seal your Tube of Light
From Ascended Master flame
Called forth now in God's own name.
Let it keep my temple free
From all discord sent to me.**

I AM calling forth Violet Fire
To blaze and transmute all desire,
Keeping on in Freedom's name
Till I AM one with the Violet Flame. (given 3x)

Thank you. Won't you be seated.

Job 22:28 It is written in the Book of Job--"Thou shalt...decree a thing, and it shall be established unto thee: and the light shall shine upon thy way." Every saint who has ever made it home to God has used the violet flame, has been initiated in the use of the violet flame. Today it is available universally by the grace of Jesus and Saint Germain. You do not have to make an arduous trek to a retreat in the Himalayas to find the master who will give you the violet flame. The Ascended Master has come to you. Saint Germain is truly with you in this moment.

The Role I'd like to talk to you now about the role of the Divine Mother and her **of the**
Divine awakening within us. Here is the Mother intensifying the violet flame within **Mother**

you. This is how your aura should look--an ovoid of light, sealed. Unfortunately we have rent our garments, we have torn our garments. We have injured the bodies surrounding the sacred centers of the chakras. There is much mending to be done, the violet flame is a healing agent. For you to become this presence of this level of developed chakras, you must pursue a path of light.

This is the soul chakra, it is the second from the base. It, first you have the base of the spine, the Mother chakra. The next is the seat of the soul. It is between the navel and the base. It is the seat of your soul's awareness in your body--largely, subconscious awareness. The soul is to be **Dan.12:13** awakened in this time as prophesied in the twelfth chapter of Daniel. And the souls that are awakened--some are awakened to everlasting life, some are wakened to everlasting contempt because long ago they chose the left-handed path to amplify darkness instead of light,

and therefore they have the contempt for the light and for the Mother who awakens them.

This happens to be the chakra of the seventh ray--seven chakras, seven rays. And so the awakening comes in the seventh age. Each of the chakras denotes a plane of awareness in your life. The seat-of-the-soul chakra is a point of freedom. In this chakra is focused the energy and the light that governs your genes, your DNA chain, what you bring with you and take from--all of the hereditary chain from which you have issued. Your genes are also a spiritual focus in the etheric body. And by the Sun behind the sun, you can change your genes, you can increase your Christ consciousness. And so what you pass on to your progeny depends on the purification of your soul chakra.

Now the way you experience this level of your being is through the intuitive sense. In fact, psychic faculties are developed through this chakra. And unless overshadowed by the Christ, they become a reading of mayic veils rather than a reading of the higher planes. But the soul has faculties to see without eyes, to hear without ears, and so forth.

So in your soul you have a gut reaction, a feeling of danger, a direct apprehension of people you've never met but have a recollection of. You read auras with the soul chakra and you say, "I have a feeling about this person," but really you have taken an auric reading in your soul. And when you experience the full purification of that soul chakra by the violet flame, your faculties will be tremendously expanded to become aware of the Ascended Masters. It is a six-petaled chakra, is so described also in the Hindu tradition.

Kuan Yin is a Mother figure of the East who awakens us with her mantra--OM MANI PADME HUM. I like this mantra because it is easy to say. As you fall asleep at night on your bed, lie on your back, focus all of your attention in your third eye, look through the window of the third eye,

see the beautiful lotus. You are the lotus that has appeared and been born out of the swamps of life, out of the astral plane, out of the world karma. You have appeared. You are the lotus flower. It is your calling, your destiny to realize in the heart of the lotus the jewel of the Christ consciousness.

Therefore we say and repeat that mantra to ourselves as we fall asleep, because we are calling the soul to come up and leave the body temple, to journey with the angels in the etheric sheath, the body of light, to the retreats of the Great White Brotherhood that are on the etheric plane. There you are God-taught. There you are initiated and accelerated on the path of the Great White Brotherhood, whose goal is your resurrection, your ascension in the light in the same way that Jesus attained it.

OM MANI PADME HUM--"O thou jewel in the heart of the lotus." So you celebrate the coming of the jewel of the Christ mind. This is given to us by beloved Kuan Yin who is also seen as Tara, the White Goddess, Mother figure of Tibet. You can see the symbol of the third eye and also the headdress denotes the expanded crown chakra, the wisdom of the Mother. Kuan Yin comes to initiate us in the flame of forgiveness. And as we give her mantra, OM MANI PADME HUM, we see her beautiful face and realize that she is in, another Ascended Lady Master in the tradition of the East, was embodied, did attain her ascension, has pursued the path of the Bodhisattva, which is to remain with earth's evolutions until they are wholly free.

I'd like to give a little bit of that OM MANI PADME HUM so that you can get the, the way of giving it that the Master's teach.

OM MANI PADME HUM. (given 3x)

Now you'll see the next mantra which is, appeals to the Mother as Saviour to protect us in time of great calamity, darkness, cataclysm, earthquake, and so forth. That's the OM TARE mantra which is the next one in your book. I'd like you to hear the beautiful sound of it now.

OM TARE TUTTARE TURE SVAHA. (given 9x)

The light of the Divine Mother, according to Hindu tr, tradition, is sealed in the base-of-the-spine-chakra. Devotions to the Mother have been in East and West for thousands of years. We say, "Hail Mary," but what we're really saying is "Hail Ma Ray, hail to the ray of the Divine Mother incarnate in the blessed Mother of Christ, hail to the Ma Ray that is the Sun behind the sun of the Blessed Virgin and all figures of the Divine Mother appearing as the saints of East and West."

Mother Mary is a very special Divine Mother, because she descended from the archangelic realm to embody to give birth to Jesus. She is the Blessed Virgin and the Queen of the Angels and serves with her complement Raphael in the healing of mankind. She is a Blessed Mother/Guru figure in our midst, will walk and talk with you and comfort you as sister and friend. She converted me to the path of the Mother when I had sprung from a Protestant tradition of antipathy toward the worship of the Virgin.

I saw her in Boston. I saw her as a beautiful maiden of light. She came right before me and all of my being was quickened and turned around and I was filled with the love of the Divine Mother in herself as that purity and that representative. I ran to the nearest Catholic church, knelt before the statue and knew that there was no worship of idols, that that was the figure and I was contacting the light of the Mother, the Sun behind the sun, the Divine Mother, the Cosmic Virgin, whose representative she truly is in the greatest nobility and compassion of soul.

So I gave my life to this Divine Mother and later on she gave to me, in 1972, the rosary for the new age, which includes the giving of her mantra. And she changed a few words. From the word, "Pray for us sinner," she said, "Don't say you are a sinner or you will be one forever. You are no longer sinners, you have received the grace of Christ. Therefore say, 'Pray for us sons and daughters of God.' And don't say, 'Now at the hour

of death,'" she said, "because there is no death. But say, 'Pray for us now a, at the hour of our victory over sin, disease, and death.'" At the hour of your initiation when you must conquer Death and Hell as Jesus did, you need the Divine Mother. And Mother Mary as a person of God, as a presence, a real figure, will come walking into your life.

I would like to give you this "Hail Mary," because it is the Western counterpart of these mantras we are giving.

**Hail, Mary, full of grace
the Lord is with thee.
Blessed art thou among women
and blessed is the fruit of thy womb, Jesus.**

["amongst said
instead of "among"]

**Holy Mary, Mother of God,
Pray for us, sons and daughters of God
Now and at the hour of our victory
Over sin, disease, and death.**

So she gave to me a rosary, a full-length rosary, a forty-five-minute service of prayers of the new age with scripture, with this mantra and then a child's rosary that is fifteen minutes. This is the way the Ascended Masters have given to the West the means of the raising of the Kundalini. And here you have thought this saying of the "Hail Mary" all of this time was a useless chanting and some kind of an idolatrous form, when all the while Jesus has inserted into this religion his reverence for the Divine Mother and his yogic technique for the releasing of her light.

There is great blessing in the honoring of the Virgin, in devotion to her sacred heart. She comes in the Hindu tradition of Shaktism, whereby we know that the Shakti of the Mother--that is, the Mother releases the fire of the Father and therefore is called the "Shakti" because in Matter it is Mother that releases the Spirit.

Now we are awakened by beloved Kuan Yin, our souls are awakened. And when we awaken we realize the first obligation of the soul is to call upon the law of forgiveness, sending the violet flame to everyone in the world--

all we have ever wronged, all whom we have ever wronged and all who have ever wronged us. If you know someone right now that you have not forgiven-- starting with your own parents, families, relatives, friends, spouses, children--send the violet flame. It's the flame of alchemy, it is the flame of forgiveness.

I am going to go back now to the visualization of that violet flame which **The Violet** we pass through. It shows how you release by the light of Kuan Yin and Saint **Flame**

Germain these spheres of forgiveness and send them all over the world. Send them into homes. Send them into the mining districts where they are burdened. Send them where there is riot, upheaval.

When we receive reports on the news of rioting in London or in Belfast, we take the clips, the video clips from our television, we put them into our sanctuary which is called the Sanctuary of the Holy Grail, and we stand and we give our hands, raise our hands and we direct the violet flame in this manner into those conditions for the speedy resolution of the problem by the Holy Spirit.

You are responsible for whatever happens in your life, in your family, your house, your neighborhood, your nation. Why are you responsible? Because karmically speaking, all that you have ever sent forth that is not of the light has burdened the planet. And so now you come with the sacred fire, the deliverer of the earth, delivering it from that which you have put as a weight upon it. So we who know better must do better. And we know that the light of God works in these situations.

So the next decree that you see in your little book is the call to the violet flame coming from the heart of the Mother. You may think that someone has committed the unpardonable sin you cannot forgive. You have done a switch of roles. It is the role of Almighty God to judge and to

decide who shall receive karma for what. It is your role to extend compassion and mercy because **Rom.12:19** God says, "You don't have to judge. **Vengeance is mine; I will repay.**"

If you think someone deserves something for what they've done to you, don't worry about it. God will take care of it. You send them love, because while you have resentment you are bound karmically to that person. Whoever you have failed to forgive you will meet again and again, lifetime after lifetime. You will never get out of this world unless you free yourself by love, deep love.

Forgiveness is forgetfulness. It is necessary to forget the wrong to be healed of the scar. You have a scar, the other party has a scar. Let's put the violet flame into it and give this call together.

**I AM Forgiveness acting here,
Casting out all doubt and fear,
Setting men forever free
With wings of cosmic Victory.**

**I AM calling in full power
For Forgiveness every hour;
To all life in every place
I flood forth forgiving Grace. (given 3x)**

These little decrees are part of the "Heart, Head, and Hand" of beloved El Morya.

Bija Now we are going to take the Bija mantras to the feminine deities.

What Mantras

feminine deities? They are conceptions of God as Mother as well as Father. They are in the Hindu tradition the visualization of the Mother releasing the light of the Trinity. The Mother can appear in any form in which you visualize her. The statues of these three feminine deities are, in fact, the conception that comes out of a culture and an ancient tradition. So don't be offended, only understand that you are seeing a mudra. You are seeing the lotus posture of one who is called Sarasvati. Sarasvati--the

complement of Brahma or the Father. So she is the Mother who teaches us the law of the Father, the wisdom of his mind, truly the use of his power.

A seed mantra, which is the meaning of Bija, means that the sound unlocks that force in the chakra. When you say AIM, which is the seed of Sarasvati, that quality of light rises from your base chakra to water the other six flowers of your chakras.

Laksmi is the personification of the feminine aspect of the second person **John 10:10** of the Trinity. Jesus said, **"I am come that they might have life, and that they might have it more abundantly."** It is the Mother who teaches us Jesus' path of the abundant life. She is known, therefore, to unlock supply--everything you need to fulfill your divine plan and make your ascension. Whether it is money, whether it is wisdom, whether it is family, friends, education, professional calling, whatever you require to externalize the inner potential, the Divine Mother teaches you through her seed, SRIM. SRIM is the sound of the second person of the Trinity in the Mother aspect.

Then we come to the complement of the Holy Spirit. Two personifications--one as the destroyer of the demons attacking her children and be in that aspect of the Holy Spirit consuming darkness, and one in the aspect of Durga which is the Divine Mother, the mother of children, the blesser, and bana, benefactress. So the seed of Kali, which binds the addictions, takes from your children drug demons, possessing demons of alcohol or anger or whatever assails them, is Kali and her seed is KRIM. KRIM.

Then you take Durga and her seed syllable is DUM. Then you take the summation of all in the conception of the World Mother and that is the mantra of e--AIM HRIM KLIM CHAMUNDAYE VICHE.

Now we're going to give this series under 12, number 12 on page 2. And you are going to visualize the white light of the Mother ascending,

it's your ascending flame, and the divine light of the Father above you descending and meeting in your heart.

OM AIM SARASVATYE NAMAHA (given 6x)

OM SRIM LAKSMYE NAMAHA (given 6x)

OM KRIM KALIKAYE NAMAHA (given 6x)

OM DUM DURGAYE NAMAHA (given 6x)

AIM HRIM KLIM CHAMUNDAYE VICHE (given 6x)

AUM

In summation, the fourfold aspect of the Divine Mother gives us abundance of the qualities of the Trinity, abundance of awareness of that light, abundance of that flow in our being. This is the sign of the coming of the Mother into our life.

Now in the "Heart, Head, and Hand Decrees," El Morya put this together **Supply** focusing the mastery of supply. It's a decree for supply, the least of which may be money. But perhaps the least of which is the most essential when you don't have the wherewithal to get from here to there. It's one of those facts of life in the physical octave. Money is a medium of exchange. It is intended to be a focus of the light of the Sun behind the sun, and the element closest to that sun in the realm of money is gold. So when you visualize supply descending for your physical needs, you see it as gold.

Supply is precipitated through the third-eye chakra. That means you have to get the Mother all the way from the base chakra to the third eye and seal that Mother light with your vision. Because what you see, you precipitate. This is the key to alchemy. So if you squander that energy along the way and dissipate it in riotous living or in anger or anxiety or all of the feelings and suggestions to which we are heir, the stream has run dry before it reaches the third eye. It is used up. We've used it up in karma-making, entangling situations. So this is the root cause of

poverty on this planet. Of course, it is aided and abetted by the managers of our money, East and West, with their systems and eth, and theories of economics--none of which actually fully represents the path of initiation of the abundant life of Jesus.

So here is your visualization for this mantra through this chakra, ninety-six petals. It is the emerald ray that you add to the violet flame--the color of the chakra and the color of precipitation. Here you see the green flame springing up in your aura. Here you see shafts of light descending and they are tinged in emerald green. This is the supply of everything in all planes, as I said. Everything you need to fulfill your divine plan is your lawful right. It's your divine right to access it from your causal body--not to demand that someone else give you what you haven't earned, not in a situation of welfare, socialism, "everything is to be done for me from the cradle to the grave, depriving me, from the cradle to the grave, depriving me now of my victory and my God-mastery over matter."

It is your divine right to have the fullness of supply, but you have to go after it. You have to make it happen. And in so doing you become the master of your life. And now you can be the source and you can give to the poor instead of demanding that the whole universe support your little system without you having made the effort.

So there is the visualization of the receiving of supply, the emerald fire, the green ray--Alpha, Omega. The key is Alpha and Omega, that's how Jesus multiplied the loaves and fishes. You can do it, you've just got to practice.

Number 13. You can't precipitate anything unless you get rid of fear. Anxiety is the greatest enemy of the alchemist. Saint Germain writes a whole chapter on it--"Anxiety and the Anxiety Syndrome." You trouble the waters of your lower bodies, you cannot keep anything. Fearful people are

not good multipliers of God's graces. So we say it.

**I AM free from fear and doubt,
Casting want and misery out,
Knowing now all good Supply
Ever comes from realms on high.**

**I AM the hand of God's own Fortune
Flooding forth the treasures of Light,
Now receiving full Abundance
To supply each need of Life. (given 3x)**

Now we are going back to the mighty sun of being, and we're going to consider the initiation of the crown chakra and what it requires. We have a mantra for the crown chakra.

Saint I should call your attention to the beloved Saint Patrick who in the love **Patrick**

of Christ put himself on the line for Christ, did not fear to challenge the power elite, did not fear to take on any situation, wrestled with the snakes, the serpents of the fallen angels. They say there never were any snakes in Ireland. But the real meaning of Patrick is that he did bind and cast out fallen angels who were oppressing the people. Not only did he cast them out, but he converted many of them to Christ.

He was born about 389 of Romano/British origin. At 405 he was taken captive by Irish raiders and sold into slavery, and in this period as a herdsman sought and found God. He went through great experiences in his life and he writes about them in that which became his diary.

Now in conjunction with this, the mantra of the Sun behind the sun had been given to us many years before, but I came upon the writings of Saint Patrick an experience he had which teaches us so much. It teaches us that we have created an anti-self, personified as the planetary dweller on the threshold called Satan or the devil. But within ourselves we have the not-self that is the summation of our negativity. It is become a synthetic image. We must wrestle with that counterpart which is truly not real but is real, because it is composed of the light from God which we have turned

to darkness.

So one of the inner temple mysteries and initiations taken at Luxor, taken under Serapis Bey or Lord Zadkiel, the archangel of the seventh ray, is the binding of the dweller on the threshold. It corresponds with the dark night of the spirit taught by Saint John of the Cross.

Patrick decided, Patrick wrote about this experience which came to him. He said, "On that...same night, I lay a-sleeping, and powerfully Satan assailed me; which I shall remember as long as I am in this body." If you've ever been directly attacked by great darkness, you can equate with Saint Patrick. "He fell upon me like an enormous stone, and I was stricken nerveless in all my limbs. When then did it come into my unscholarly spirit to call upon Helias?

At once I saw the sun rising into the dawn sky, and while I kept invoking 'Helias, Helias,' with all my strength, lo, the Splendour of the Sun fell over me and instantly shook all the heaviness off from me.

I believe I was succoured by Christ my Lord and that his Spirit even then was calling out on my behalf."¹

Helios and Helias, the Greek name for sun. Helios is actually the name of the being, the **Vesta**

masculine being, who with his consort Vesta, twin flames of Alpha and Omega, maintain the God consciousness of the Son of God in the Sun behind the sun of our solar system. And so we have a mantra that is sung to them as representatives of God and to that pure sphere of light. You'll find it in number 14. It is wonderful to rise at dawn, face the sun, close your eyes, direct your great love to the Christ of that sun and to say:

Helios and Vesta!
Helios and Vesta!
Helios and Vesta!

¹ ?Oliver St. John Fogerty, I Follow Saint Patrick (London: Rich & Cowan, 1938), p. 298.

Let the Light flow into my being!
Let the Light expand in the center of my heart!
Let the Light expand in the center of the earth
And let the earth be transformed into the New Day! (given 3x)

You can try this on a rainy day, face the sun where it is or should be in the sky, and you can see the sun come out. All of elemental life bow before the light of the Central Sun of this solar system. They actually part the clouds when you send your heart's devotion to the sun. And you can feel in giving the mantra the return current of light. Again, you need to clear the heart chakra with the violet flame, so you can develop the sensitivity to the vibrations of which I am speaking.

Now I know it is getting on for you in the evening, so I would like to

Sealing of give you the sealing of the third eye with the Emerald Matrix
and following
the Third

Eye that to volunteer myself to answer any questions you might have and
perhaps

also to continue this teaching. So I want to show you the Emerald Matrix.

When Saint Germain was the Wonderman of Europe, it is said in the diaries of Madame d'Adhemar--who knew him, saw him, was the lady-in-waiting to Marie Antoinette--and other accounts of other diaries, it was said that he wore diamonds on every finger, on his belt and shoe buckles, that he took a diamond from Louis XV that had a flaw and actually transmuted that flaw and returned it to him a perfect diamond.

We find that the reason he wore those rings on every finger was because each finger relates to the chakras, to the planetary bodies, to the energies of the stars. When you lay your hands on for healing in the full Christhood that you are becoming, you draw the energies from many sources and focuses in cosmos. This is why our hands are so precious in all we do and why certain fingers have certain purposes.

So Saint Germain explained to me that precious gems have the capacity to hold light, transmit light, be conductors of light, and they do contain your vibrations. When you are a very high spiritual being, the jewelry you wear has that vibration. Similarly, people of low vibrations--their jewels have a very low vibration. So a jewel does not automatically have power, it is a chalice. At the molecular level it creates a cup for the holding of energy.

So, as I mentioned, Saint Germain brought to me this Emerald Matrix especially for this mission as I am going around the world sealing the servants of God in their foreheads. This is a very unusual matrix because it comes from Saint Germain's inspiration of alchemy upon those who produced it. This is a real emerald, but it, it did not grow in the earth. Crystals of a real emerald were placed in a solution in a laboratory and in nine months they grew to produce this crystal. This is being done in California, I think it is being done in France, perhaps you know all about it. So this is another means that Saint Germain makes available to all of the people those things which formerly were precious and could only be afforded by the wealthy or by royalty. So, of course, to be able to produce these so easily lessens their price because it increases their quantity.

So, in any case, this was placed in my hands. And this particular matrix, then, is the means of transmission of the light of the causal body of Saint Germain for the sealing of your third eye, the sealing of your chakras. It is a protection to your soul whether in or out of the body. It is the sign of the Ancient of Days. You have been touched by the Great White Brotherhood, and inasmuch as you will allow it by your free will the guardian angels will care for you and see that you are, in this life and in your transition, spared from the depths of the astral plane and the burdens of it, which are very serious in time of planetary upheaval and war and can be very shattering to the four lower bodies and even to the

soul.

I trust you will understand that your keeping of this flame is your responsibility--mine is to deliver to you the Word. And I have locked into this booklet mantras that will work for you if you work with them.
